Approaching Chaos Lucy Wyatt,2010-01-16 Twenty first century civilization faces economic, ecological and spiritual meltdown. To survive this century as civilized people we need to refer back to a time when city life was in harmony with nature and the wider environment. We cannot dismiss the ancients as primitive when they had a blueprint for civilization that first appeared over 5 000 years ago. The Journal of Egyptian Archaeology,1918 Digging Through the Bible Richard A Freund,2023-06-14 A masterful and eminently readable journey through the fascinating insights and revelations of Biblical archeology. Publishers Weekly starred review Many of our religious beliefs are based on faith alone but archaeology gives us the opportunity to find evidence about what really happened in the distant past. Evidence that can have a dramatic impact on what and how we believe. In Digging Through the Bible archaeologist and rabbi Richard Freund takes readers through digs he has led in the

Holy Land searching for evidence about key biblical characters and events Digging Through the Bible presents overviews of the evidence surrounding figures such as Moses Kings David and Solomon and Mary the mother of Jesus as well as new information that can help us more fully understand the life and times in which these people would have lived Freund also presents new evidence about finding the grave of the Teacher of Righteousness mentioned in the Dead Sea Scrolls and gives a compelling argument about how the Exodus of the Israelites may have taken place in three separate waves over time rather than in a single event as presented in the Bible
