Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2017 Blazenka Knezevic,Gaby Neumman ,2017-07-08 Foreword A famous Portuguese Poet once said around one hundred years ago before I was born all the words that should save the Humanity had already been written the only thing that was missing was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we have myriads of theoretical study about the decisive assets namely intangibles Those analysis are made in several perspectives namely Human Resources Knowledge

Management Intellectual Capital and also many sectorial perspectives like Trade Economics Logistics Social Policy etc. However today the question about the applicability of all these studies remains unsolved. So it is like many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge Economy. Or is it not? The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple perspectives will come together. We believe it is a fruitful operation and we intend to continue the exercise in the future. The problem of the relation between theory and practice in the knowledge economy is getting more important and not less important with the development of the BRICS and other nations. TAKE main question will be one of the problems of the 21st century. Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of Economics of Zagreb University around Prof. Blazenka Knezevic. I would like to thank her and her team for the massive effort in putting TAKE 2017 together. It will be a very nice and memorable conference. I would like also to thank the 5 keynotes, the special sessions and workshop organizers, the authors of the 60 papers and 5 posters, the stream leaders, the reviewers and the sponsors for the efforts. And to the 90 participants from 20 countries: Austria, Bosnia Herzegovina, Canada, Croatia, Germany, Hong Kong, Hungary, Netherlands, Mexico, Portugal, Poland, Romania, Russia, South Africa, Serbia, Slovakia, Spain, Thailand, United Kingdom, United States. A special word to Prof. Gaby Neumann from Wildau who organized the Proceedings. Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit.

*The SAGE Guide to Curriculum in Education* Ming Fang He, Brian D. Schultz, William H. Schubert, 2015-06-05

The SAGE Guide to Curriculum in Education integrates, summarizes and explains in highly accessible form foundational knowledge and information about the field of curriculum with brief, simply written overviews for people outside of or new to the field of education. This Guide supports study, research and instruction with content that permits quick access to basic information accompanied by references to more in depth presentations in other published sources. This Guide lies between the sophistication of a handbook and the brevity of an encyclopedia. It addresses the ties between and controversies over public debate, policy making, university scholarship and school practice. While tracing complex traditions, trajectories and evolutions of curriculum scholarship, the Guide illuminates how curriculum ideas, issues, perspectives and possibilities can be translated into public debate, school practice, policy making and life of the general public, focusing on the aims of education for a better human condition. 55 topical chapters are organized into four parts: Subject Matter as Curriculum, Teachers as Curriculum, Students as Curriculum and Milieu as Curriculum, based upon the conceptualization of curriculum commonplaces by Joseph J. Schwab: subject matter, teachers, learners and milieu. The Guide highlights and explicates how the four commonplaces are interdependent and interconnected in the decision making processes that involve local and state school boards and government agencies, educational institutions and curriculum stakeholders at all levels that address the central curriculum questions: What is worthwhile? What is worth knowing? Needing, experiencing, doing, being, becoming, overcoming, sharing.
