Everybody's Jane Juliette Wells, 2012-03-22 Explores the importance of Jane Austen and her writings to amateur readers today

Agriculture in the Middle Ages Martin Bakers, In the Middle Ages agriculture underwent many changes The nobles and the clergy were considered the most important members of the feudal society However they were never the majority in the Middle Ages almost all people were peasants Not all farmers had the same category and social status Many of them were free men Among these some were small landowners who lived on their own land while others the settlers leased the feudal lord a small plot of land

The Middle Ages Mikael Eskelner, When we talk about the Middle Ages we talk about a historical period that extends from the 5th century to the 15th century Ten centuries of history that begins with the fall of the Roman Empire of the West in the year 476 A D and that is terminated at the end of the fifteenth century in 1492 with the discovery of the American continent The Middle Ages was a period of European history that left deep traces on the continent Marked by important historical events the beginning and end of this period was marked by major cultural political religious social and economic changes becoming one of the most fascinating periods in history

Reality and Mystical Experience F. Samuel Brainard, 2010-11-01 Responding to our modern disillusionment with any claims to absolute truth regarding morality or reality this book offers a conceptual approach for discussing absolutes without denying either the relevance of divergent religious and philosophical teachings or the evidence supporting postmodern and poststructuralist critiques Case studies of mysticism within Advaita Vedanta Hinduism M dhyamika Buddhism and Nicene Christianity demonstrate the value of this approach and offer many fresh insights into the metaphysical presuppositions of these religions as well as into the nature and value of mystical experience Like Douglas Hofstadter's Godel Escher Bach this book finds ultimate reality to be rationally graspable only as an eternal fugue of pattern and paradox Yet it does not so much counter other philosophical views as provide a conceptual tool for understanding and classifying incommensurable views

The Hardened Heart and Tragic Finitude Dan O. Via, 2012-11-05 This book has two main theses First for the biblical Christian doctrine of sin the root of the human problem is hardness of heart the corruption of the core self of the seat of understanding and will On the other hand for an important strand of Greek tragedy the root of human harm doing is the nonculpable blindness and anxiety of finitude that despite the initial nonculpability lead to evil and suffering The Hardened Heart shows that these two different interpretations of human existence are amenable to a degree of synthesis that leads to this conclusion hardness of heart and

our ordinary finitude together collude to cause sin in its fullness The second thesis of this volume is that exegetical studies disclose a deconstructive strand in certain biblical texts that represents the finite world that God created as a source of distress and harm doing in something like the tragic sense This subdominant deconstructive position challenges the dominant biblical vision in which the creation came forth from God's creative word as good without qualification

The Names of God in Judaism, Christianity, and Islam Máire

Byrne, 2011-07-07 This book offers a welcome solution to the growing need for a common language in interfaith dialogue particularly between the three Abrahamic faiths in our modern pluralistic society The book suggests that the names given to God in the Hebrew Bible the New Testament and the Qur an could be the very foundations and building blocks for a common language between the Jewish Christian and Islamic faiths On both a formal interfaith level as well as between everyday followers of each doctrine this book facilitates a more fruitful and universal understanding and respect of each sacred text exploring both the commonalities and differences between each theology and their individual receptions In a practical application of the methodologies of comparative theology Maire Byrne shows that the titles names and epithets given to God in the sacred texts of Judaism Christianity and Islam contribute towards similar images of God in each case and elucidates the importance of this for providing a viable starting point for interfaith dialogue
