

Random Thoughts are stray thoughts. It is also called automatic semantic memories that may or may not hold a deep seated meaning.

Are you doing the right thing by doing nothing?

McDonalds have 'Happy meals'. Do they keep 'Sad meals' too?

You can call someone and tell them 'you cannot call now'

Life is not by chance and choice, rather it is by change

If you enjoy wasting time then it cannot be a 'wasted time'

We say noses run but they are fixed in one place. How is it possible?

Random Thoughts:

Random Thoughts Alexander Villarasa M.D.,2019-04-15 I titled this book Random Thoughts overtly tongue in cheek because as I have argued in the introduction and preface I do not believe in anything random about why and how we exist in a nonrandom universe I strongly believe in creationism one that does not deny the factuality of evolution in that creative process The way I see it the universe and our existence was schemed designed and finely tuned by a transcendent supremely sentient impulse God who is not into acts of futility The essay titled It s All about God specifically argues the idea that God s creation of sentient beings was His act of utmost utility because if we are not here to perceive experience and witness the universe in all its glory it would just be cold dead space out here there and everywhere with neither usefulness nor timeliness
