Range Of Religion:

Free-Range Religion Adrienne Krone, 2025-10-01 Ethical and moral concerns about food and diet commonly feature in individuals religious identities and expressions These concerns extend beyond what one should eat to include how food should be prepared and produced As Adrienne Krone demonstrates in this ethnographic study participants in alternative food movements are developing new ways to see food preparation and production as religious acts Following two Christian and two Jewish food organizations Krone complicates our understanding of American religion as religious people come together across a range of differences to change the food system Free Range Religion showcases the complex ways that religion lives and works within food production marketing and distribution These free range religious practices blend belief and practice with secular concerns and constitute a key albeit understudied part of the American alternative food movement *Religions in Global Society* Peter Beyer, 2013-01-11 Peter Beyer a distinguished sociologist of religion presents a way of understanding religion in a contemporary global society by analyzing it as a dimension of the historical process of globalization Introducing theories of globalization and showing how they can be applied to world religions Beyer reveals the nature of the contested category of religion what it means what it includes and what it implies in the world today Written with exceptional clarity and illustrated with lively and diverse examples ranging from Islam and Hinduism to African traditional religions and new age spirituality this is a fascinating overview of how religion has developed in a globalized society It is recommended reading for students taking courses on sociology of religion religion and globalization and religion and modernity **Religion Online** August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 Religion Online provides new insights about religiosity in a contemporary context offering a comprehensive look at the intersection of digital media faith communities and practices of all sorts Recent research on Apple users video games virtual worlds artificial intelligence digital music and sports as religion supports the idea that media and religion once considered separate entities are in many cases the same thing New media and religious practice can no longer be detached this two volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization autonomous religious worship millennials affinity for new media and the rise of fundamentalism in the global south While other works describe case studies this book explains how new media are interwoven into the very fabric of religious belief behavior and community Chapters break down the past present and projected future of the use of digital media in relation to faith traditions of many varieties extending from mainline Christianity to new religious movements The book also examines the impacts of digital media on beliefs and practices around the world In exploring these subjects it calls on the study of culture namely anthropology to conceptualize a technological period as significant as the industrial revolution *Comparative Approaches to Law and Religion* Renae Barker, Camilla Baasch Andersen, Mohammad Rasmi Alumari, 2025-06-03 Comparative Approaches to Law and Religion examines the methodological challenges of studying the interplay between law and religion across diverse jurisdictions This

volume fills a critical gap in the literature by focusing on how to conduct comparative research offering both theoretical foundations and practical applications. Scholars from varied legal and cultural backgrounds contributed chapters that showcase innovative methodologies tailored to specific issues in law and religion. The book is divided into three parts. Part I explores the foundational theories, methods, and frameworks of comparative research in law and religion, addressing state religion, models of legal pluralism, and the inclusion of minors in research. Part II applies these approaches through comparative case studies tackling topics such as medical treatment for minors, religious freedom in the EU, and judicial populism in religion-related cases. Part III provides a critical evaluation of the methodologies employed, encouraging reflection and dialogue on their strengths, limitations, and broader applicability. This volume is an essential resource for scholars of law and religion and comparative law. By offering a blend of theoretical insights and practical examples, it equips researchers with the tools to navigate the complexities of interdisciplinary and comparative legal studies across varied jurisdictions and traditions.

Religions of the World J. Gordon Melton, Martin Baumann, 2010-09-21. This masterful six-volume encyclopedia provides comprehensive global coverage of religion, emphasizing larger religious communities without neglecting the world's smaller religious outposts. *Religions of the World: Second Edition: A Comprehensive Encyclopedia of Beliefs and Practices* is an extraordinary work bringing together the scholarship of some 225 experts from around the globe. The encyclopedia's six volumes offer entries on every country of the world, with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works. Entries include profiles on religion in the world's smallest countries, the Vatican and San Marino; profiles on religion in recently established or disputed countries, Kosovo and Nagorno Karabakh; as well as profiles on religion in some of the world's most remote places, Antarctica and Easter Island. *Religions of the World* is unique in that it is based on religion on the ground, tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world, its major geographical sites, and its major celebrations. Unlike other works, the encyclopedia also covers the world of religious unbelief as expressed in atheism, humanism, and other traditions. *The National Curriculum Handbook for Secondary Teachers in England*, 2005-09-30.
