The Calling of History Dipesh Chakrabarty, 2015-07-15 A leading scholar in early twentieth century India Sir Jadunath Sarkar 1870 1958 was knighted in 1929 and became the first Indian historian to gain honorary membership in the American Historical Association By the end of his lifetime however he had been marginalized by the Indian history establishment as postcolonial historians embraced alternative approaches in the name of democracy and anti colonialism The Calling of History examines Sarkar's career and poignant obsolescence as a way into larger questions about the discipline of history and its public life Through close readings of more than twelve hundred letters to and from Sarkar along with other archival documents Dipesh Chakrabarty demonstrates that historians in colonial India formulated the basic concepts and practices of the field via vigorous and at times bitter and hurtful debates in the public sphere He furthermore shows that because of its non technical nature the discipline as a whole remains susceptible to pressure from both the public and the academy even today Methodological debates and the changing reputations of scholars like Sarkar he argues must therefore be understood within the specific contexts in which particular histories are written Insightful and with far reaching implications for all historians The Calling of History offers a valuable look at the double life of history and how tensions between its public and private sides played out in a major scholar's career

What Is History For? Arthur Alfaix Assis, 2014-01-01 A scholar of Hellenistic and Prussian history Droysen developed a historical theory that at the time was unprecedented in range and depth and which remains to the present day a valuable key for understanding history as both an idea and a professional practice Arthur Alfaix

Assis interprets Droysen's theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history and focuses on Droysen's claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically. In addition, Assis examines the connections and disconnections between Droysen's theory of historical thinking, his practice of historical thought, and his political activism. Ultimately, Assis not only shows how Droysen helped reinvent the relationship between historical knowledge and human agency but also traces some of the contradictions and limitations inherent to that project.

A Companion to the Philosophy of History and Historiography Aviezer Tucker, 2011-06-28. A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY. The philosophy of historiography examines our representations and knowledge of the past, the relation between evidence, inference, explanation, and narrative. Do we possess knowledge of the past? Do we just have probable beliefs about the past, or is historiography a piece of convincing fiction? The philosophy of history is the direct philosophical examination of history, whether it is necessary or contingent, whether it has a direction or whether it is coincidental, and if it has a direction, what it is and how and why it is unfolding. The fifty entries in this Companion cover the main issues in the philosophies of historiography and history, including natural history and the practices of historians. Written by an international and multi-disciplinary group of experts, these clearly written entries present a cutting-edge, updated picture of current research in the philosophies of historiography and history. This Companion will be of interest to philosophers, historians, natural historians, and social scientists.

The Politics of Moderation in Modern European History Ido de Haan, Matthijs Lok, 2019-09-04. This book charts the varieties of political moderation in modern European history from the French Revolution to the present day. It explores the attempts to find a middle way between ideological extremes from the nineteenth century: *Juste Milieu* and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism. The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse. The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate. At the same time, the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view.

Historicism Sheila Greeve Davaney. No other movement or insight has challenged Christian theology so steeply in the modern period as historicism. The two hundred-year-old notion that concepts, ideas, and theories all are influenced or occasioned by historical circumstances is today a commonplace in all fields. Davaney's authoritative text

traces with clarity and skill the history of historicism and its various meanings for the German Enlightenment through its Continental and distinctly American developments to its contemporary postmodern incarnations BOOK JACKET Droysen and the Prussian School of History Robert Southard, 2021-12-14 The Prussian School of History first predicted and advocated then celebrated and defended the unification of Germany by Prussia Experts in German historiography and the history of German liberalism have often complained about the lack of a book in any language that traces the origins and explains the ideas of this school of history Here is that book Robert Southard finds that for the Prussian School history had an agenda These historians generally expected history to complete its main tasks in their own time and country The outcome of their politics was really an end of history not a cessation to historical occurrences but a cessation of onward historical movement because the historical process had already achieved its long term beneficent purposes Leading us through the intricacies of important but untranslated works of J G Droysen Max Duncker Rudolph Hayn and Heinrich von Sybel Southard demonstrates their belief that the historical sequence was a continual unfolding of God s plan Indispensable for those interested in the history of German historical writing this book also has major implications for understanding the history of political liberalism

Clark, 2004-10-30 A historian of early Christianity considers various theoretical critiques to examine the problems and opportunities posed by the ways in which history is written Clark argues for a renewal of the study of premodern Western history through engagement with the critical methods that have transformed other humanities disciplines in recent decades
