Jung and the Jungians on Myth

Steven Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In Jung and the Jungians on Myth Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology

In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover

Masculinity in Crisis R.

Horrocks, 1994-08-30 This book argues that masculine identity is in deep crisis in Western culture the old forms are disintegrating while men struggle to establish new relations with women and with each other This book offers a fresh look at gender particularly masculinity by using material from the author's work as a psychotherapist The book also considers the contributions made by feminism sociology and anthropology to the study of gender and suggests that it must be studied from an interdisciplinary standpoint Masculinity is seen to have economic political and psychological roots but the concrete development of gender must be traced in the relations of the male infant with his parents Here the young boy has to separate from his mother and his own proto feminine identity and identify with his father but in Western culture fathering is often

deficient Male identity is shown to be fractured fragile and truncated Men are trained to be rational and violent and to shut out whole areas of existence and feeling Many stereotypes imprison men particularly machismo which is shown to be deeply masochistic and self destructive **Jungian Psychology in Perspective** Mary Ann Mattoon,1985 **Cultural**

Image Darkly Forming Bani Shorter,2015-08-11 Originally published in 1987 a well known Jungian analyst the late Bani Shorter writes here about how women are initiated into becoming themselves Her book was an important contribution to the field of analytical psychology at the time as well as to the increasingly popular study of women s spirituality In former times transitions from one stage of life to another were prepared for and marked by ritual initiation in modern times this necessity is overlooked and women s natural development is made more difficult as a consequence Through working in close therapeutic relationships with women Bani Shorter found that when challenged by crises and transitions in their lives today s women instinctively create rituals nevertheless to mark their journey towards maturation wholeness and meaning In this process they discover something of who they are and recognise dimensions of themselves which have been previously repressed and undreamed of The stories unfolded here can be a guide for all women through their own rites of passage
