Rape Defense Robert O. Wright,1999-11 **A New Approach to the History of Violence** Francisca Loetz,2015-06-02

Up to now historical research has treated violence mainly with reference to war murder or massacre Francisca Loetz argues for a new complementary approach to history of violence as an interpersonal form of social action experienced as unacceptable behavior and aiming to subjugate the victim in everyday life Analyzing cases of what the sources call sexual assault and sexual abuse in the city state of Zurich between 1500 and 1850 Loetz discusses fundamental methodological problems such as how can violence be defined as a concept What makes violence what it is in a given society Why is early modern sexual assault and sexual abuse not equivalent to modern rape and abuse How does Zurich compare with pre modern Europe *Remaking Relapse Prevention with Sex Offenders* D. Lempert, Stephen A. Saltzburg, 1982 **The Unexpected Scalia** David M. Dorsen, 2017-02-06 Antonin Scalia was one of the most important outspoken and controversial Justices in the past century

His endorsements of originalism which requires deciding cases as they would have been decided in 1789 and textualism which limits judges in what they could consider in interpreting text caused major changes in the way the Supreme Court decides cases. He was a leader in opposing abortion, the right to die, affirmative action and mandated equality for gays and lesbians and was for virtually untrammelled gun rights, political expenditures and the imposition of the death penalty. However, he usually followed where his doctrine would take him, leading him to write many liberal opinions. A close friend of Scalia, David Dorsen explains the flawed judicial philosophy of one of the most important Supreme Court Justices of the past century.

The Verdict of the Court Jenny McEwan, 2003-10-02 Courts are constantly required to know how people think. They may have to decide what a specific person was thinking on a past occasion, how others would have reacted to a particular situation, or whether a witness is telling the truth. Be they judges, jurors or magistrates, the law demands they penetrate human consciousness. This book questions whether the arm chair psychology operated by fact finders and indeed the law itself in its treatment of the fact finders bears any resemblance to the knowledge derived from psychological research. Comparing psychological theory with court verdicts in both civil and criminal contexts, it assesses where the separation between law and science is most acute and most dangerous.

Violence against Women Stanley G. French, Wanda Teays, Laura M. Purdy, 2018-10-18 This is the first anthology to take a theoretical look at violence against women. Each essay shows how philosophy provides a powerful tool for examining a difficult and deep rooted social problem. Stanley G. French, Wanda Teays and Laura M. Purdy all philosophers present a familiar phenomenon in a new and striking fashion. The editors employ a two tiered approach to this vital issue. Contributors consider both interpersonal violence such as rape and battering and also systemic violence such as sexual harassment, pornography, prostitution and violence in a medical context. The editors have further broadened the discussion to include such cross cultural issues as rape in war, dowry deaths, female genital mutilation and international policies on violence against women. Against this wide range of topics which integrate personal perspectives with the philosophical, the contributors offer powerful analyses of the causes and effects of violence against women as well as potential policies for effecting change.
