Computer Support for Collaborative Learning

Gerry Stahl,2023-01-13

Computer Support for Collaborative Learning CSCL is a field of study centrally concerned with meaning and the practices of meaning making in the context of joint activity and the ways in which these practices are mediated through designed artifacts This volume includes abstracts of papers that were presented during interactive poster sessions at CSCL 2002 Documenting an extremely heterogeneous productive phase of inquiry with broad social consequences these proceedings reflect the current state of CSCL research particularly in North America and Western Europe

Management and Leadership Development

Christopher Mabey,Tim Finch Lees,2007-12-12 This is the first really thought provoking book that I have read on management development It is a book primarily addressed to students but in this field we are all students It merits a wide readership both among practising managers as well as among those responsible for developing them Max Boisot ESADE

Mabey and Finch Lees inject a breath of fresh air into the management development field by expanding upon its heretofore functionalist base They offer an informative critique of mainstream views featuring alternative discourses to examine such hard questions as why management development hasn't quite delivered on management's considerable investment in it As a veritable tour de force in its absorbing integration and review of a large tract of literature the book informs both management scholars and practitioners what might be expected from management development's intended but also unanticipated outcomes Joe Raelin Northeastern University

In a well written accessible and yet sophisticated text Mabey and Finch Lees show themselves to be as familiar with the latest in management development practice as they are with the sometimes arcane theoretical literature that surrounds it Its great strength is to recognize the plurality of discourses some overlapping and complementary others distinct and oppositional about the subject This book can be recommended as a unique resource for students and scholars of management development

Chris Grey University of Warwick This book represents a significant step forward in the theory of management and leadership development It offers an international perspective in this era of globalisation and a new and questioning perspective on the common belief that leadership is something completely different to and more important than management This book will be of great help to the serious theorist and researcher of management and leadership development It is an invaluable point of reference for a broad range of theory and research in this area which it summarises with admirable brevity and clarity

John G Burgoyne Lancaster University Management School and Henley Management College

Management development is a potent and high profile human resource activity involving some of the organizations key players and attracting huge hopes and investments from governments organizations and individuals alike Yet at several levels the high expectations often remain unfulfilled So why is this a subject and activity that continues to command such intense interest from scholars and practitioners alike

Chris Mabey and Tim Finch Lees provide a fresh analysis of the concept and practice of management and leadership development

MLD Grounded in research the authors set out the current state of management and leadership development practices before

introducing readers to competing theories of MLD and offering them a more critical perspective Throughout the book ideas are illustrated by international case studies and vignettes that evoke the perceptions and interests of the whole range of stakeholders in the management development process Management Development has been written for upper level undergraduate and masters level students pursuing courses in HRM HRD Leadership Development Organizational Behaviour Management Organization Change Personnel Management and training and development modules Small Business Exposed Scott Holmes, Michael T. Schaper, 2018-02-01 This book is a look into the world of the small business owner through their eyes how the five different tribes of business perceive the world around them how they run their businesses their motivations and goals It is not another how to book or an academic treatise Everyone's needs and hopes are different however by using cutting edge social scientific research techniques we break the business community into five groups or tribes The Seekers Whatnows Drifters Satisficers and Digitals Each tribe has its own set of issues And there are also some things which cut across all the tribes the consistent elements in small business owners DNA Understanding which tribe you belong to could make the difference in growing your business or help you better advise businesses to achieve their goals Small Business Exposed will bridge the gap between the frontiers of small business research and the popular business book market As such it will become an essential text not only for the small businessperson but also enter the libraries of advisors accountants bankers and anyone else with a vested interest in the business economy Equality and Sustainable Human Development - Issues and Policy Implications Dr.K Sivachithappa, 2014-05-17 Equality and Sustainable Human Development is the need of our under Globalisation This volume is useful to Social Sciences Commerce and General Readers in Particular

Leadership for the Future Sustainable Development of Business and Education Wadim Strielkowski, Oksana Chigisheva, 2018-03-30 This proceedings volume examines leadership from the perspectives of business economics social sciences cross cultural management and education as a means to establish a future of sustainable development Featuring contributions from the 2017 Prague Institute for Qualification Enhancement PRIZK and International Research Centre IRC Scientific Cooperation International Conference held in the Czech Republic this volume focuses particularly on business models and higher education schemes from BRICS nations and examines topics such as social and educational practices academic policies and business development Leadership is becoming a key element for the future sustainable development of business and education in the quickly globalizing world In this regard a special emphasis should be made on the formation of high quality human resources the leading experts in their field who will create innovations and introduce breakthrough technologies The development of a creative economy and knowledge economy requires highly educated human capital thus education becomes a key element of this process Education must keep pace with time be competitive and stay in touch with the process of technology The enclosed papers identify the key steps for sustainable growth and development in business and education Featuring contributions on theory and practice this book is appropriate for academics researchers policy makers
