Rassegna Di Studi Etiopici Volume 4:

The Orthodox Church of Ethiopia John Binns, 2016-11-28 Surrounded by steep escarpments to the north south and east Ethiopia has always been geographically and culturally set apart It has the longest archaeological record of any country in the world Indeed this precipitous mountain land was where the human race began It is also home to an ancient church with a remarkable legacy The Ethiopian Church forms the southern branch of historic Christianity It is the only pre colonial church in sub Saharan Africa originating in one of the earliest Christian kingdoms with its king Ezana supposedly descended from the biblical Solomon converting around 340 CE Since then it has maintained its long Christian witness in a region dominated by Islam today it has a membership of around forty million and is rapidly growing Yet despite its importance there has been no comprehensive study available in English of its theology and history This is a large gap which this authoritative and engagingly written book seeks to fill The Church of Ethiopia or formally the Ethiopian Orthodox Tewahedo Church has a recognized place in worldwide Christianity as one of five non Chalcedonian Orthodox Churches As Dr Binns shows it has developed a distinctive approach which makes it different from all other churches His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia He discusses the famous rock hewn churches the Ark of the Covenant claimed by the Church and housed in Aksum the medieval monastic tradition relations with the Coptic Church co existence with Islam missionary activity and the Church s venerable oral traditions especially the discipline of qene a kind of theological reflection couched in a unique style of improvised allegorical poetry There is also a sustained exploration of how the Church has been forced to re think its identity and mission as a result of political changes and upheaval following the overthrow of Haile Selassie who ruled as Regent 1916 1930 and then as Emperor 1930 74 and beyond *Bookseller's catalogues* Thornton J. and son, 1883

The God in Us Hlumelo Biko, 2024-06-07 This book traces the unitary source of all of the world s major religions The book underscores the fact that there are many ways in which humanity has sought revelation of God yet there is a common inspiration behind humanity s God concept The author s analysis of world religions or faiths adopts a multi interdisciplinary approach taking the reader through historical anthropological archaeological and theological viewpoints to make juxtapositions God in us is a rich resource that helps the readers understand the origins of human civilisation and how humans began to worship God domesticate animals like sheep invent astrology and create languages Biko s research also delves deeper into unveiling African indigenous knowledge systems and science that predate the arrival of the colonisers on the African soil Print edition not for sale in Sub Saharan Africa

One-Volume Libraries: Composite and Multiple-Text Manuscripts Michael Friedrich, Cosima Schwarke, 2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i.e. they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses The Cambridge History of Christianity: Volume 5, Eastern Christianity Michael Angold, 2006-08-17 This volume encompasses the whole Christian Orthodox tradition from 1200 to the present Its central theme is the survival of Orthodoxy against the odds into the modern era It celebrates the resilience shown in the face of hostile regimes and social pressures in this often neglected period of Orthodox history

Historical Dictionary of Ethiopia David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa First of all with about 75 million people it is the third most populous country in Africa Second it is very strategically located in the Horn of Africa and bordering Eritrea Sudan Kenya and Somalia with some of whom it has touchy and sometimes worse relations Yet its capital Addis Ababa is the headquarters of the African Union the prime meeting place for Africa's leaders So if things went poorly in Ethiopia this would not be good for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia

González-Ruibal,2014-03-27 An Archaeology of Resistance Materiality and Time in an African Borderland studies the tactics of resistance deployed by a variety of indigenous communities in the borderland between Sudan and Ethiopia The Horn of Africa is an early area of state formation and at the same time the home of many egalitarian small scale societies which have lived in the buffer zone between states for the last three thousand years For this reason resistance is not something added to their sociopolitical structures it is an inherent part of those structures a mode of being The main objective of the work is to understand the diverse forms of resistance that characterizes the borderland groups with an emphasis on two essentially archaeological themes materiality and time by combining archaeological political and social theory ethnographic methods and historical data to examine different processes of resistance in the long term *Catalogue* Peabody Museum of

Cyril ibn Laqlaq's Book of Confession Botros K. Sadek, 2023-10-09 Cyril ibn Laqlaq's Book of Confession offers the critical edition and translation of a treatise that is published here for the first time Cyril the 75th Coptic Patriarch was a controversial figure who was judged for simony by his own bishops in an official synod Despite his failure to promote auricular confession during his lifetime the widespread distribution of his treatise had a significant impact on the practice's adoption The Book of Confession is well attested in the manuscript tradition The vast inventory of manuscripts attests to its popularity among diverse Christian denominations throughout the Middle East Undoubtedly it has been a highly influential text in the formation of spiritual life and penitential theology in the Middle Ages

The Wisdom of the Aramaic Book of Ahiqar Seth Bledsoe, 2021-10-25 This book offers fresh readings of the Aramaic book of Ahiqar an oft underappreciated ancient wisdom text In undertaking a comprehensive literary analysis incorporating both the drama and the sayings together Bledsoe shows that Ahiqar's didactic impulse is founded on a sense of uncertainty about life offering advice for those in times of distress much like the titular character himself While Ahiqar shares many features with instructional literature like Proverbs the ambiguous cosmic and social order imagined in the text resonate more strongly with the likes of Qoheleth or Job Bledsoe also takes seriously the Elephantine context suggesting that

the social and political ethic evinced by the work would have resonated strongly with the Judean community in Achaemenid Egypt
