Rastafari And Politics:

Reggae, Rastafari, and the Rhetoric of Social Control Stephen A. King, 2014-07-10 Who changed Bob Marley's famous peace and love anthem into 'Come to Jamaica and feel all right' When did the Rastafarian fighting white colonial power become the smiling Rastaman spreading beach towels for American tourists Drawing on research in social movement theory and protest music **Reggae Rastafari and the Rhetoric of Social Control** traces the history and rise of reggae and the story of how an island nation commandeered the music to fashion an image and entice tourists Visitors to Jamaica are often unaware that reggae was a revolutionary music rooted in the suffering of Jamaica's poor Rastafarians were once a target of police harassment and public condemnation Now the music is a marketing tool and the Rastafarians are no longer a violent counterculture but an important symbol of Jamaica's new cultural heritage This book attempts to explain how the Jamaican establishment's strategies of social control influenced the evolutionary direction of both the music and the Rastafarian movement From 1959 to 1971 Jamaica's popular music became identified with the Rastafarians a social movement that gave voice to the country's poor black communities In response to this challenge the Jamaican government banned politically controversial reggae songs from the airwaves and jailed or deported Rastafarian leaders Yet when reggae became internationally popular in the 1970s divisions among Rastafarians grew wider spawning a number of pseudo Rastafarians who embraced only the external symbolism of this worldwide religion Exploiting this opportunity Jamaica's new Prime Minister Michael Manley brought Rastafarian political imagery and themes into the mainstream Eventually reggae and Rastafari evolved into Jamaica's chief cultural commodities and tourist attractions **Race, Class, and Political Symbols**

Anita M. Waters, 2017-09-08 Dr Waters is one of a new breed of analysts for whom the interpenetration of politics culture and national development is key to a larger integration of social research **Race Class and Political Symbols** is a remarkably cogent examination of the uses of Rastafarian symbols and reggae music in Jamaican electoral campaigns The author describes and analyzes the way Jamaican politicians effectively employ improbable strategies for electoral success She includes interviews with reggae musicians Rastafarian leaders government and party officials and campaign managers Jamaican democracy and politics are fused to its culture hence campaign advertisements reggae songs party pamphlets and other documents are part of the larger picture of Caribbean life and letters This volume centers and comes to rest on the adoption of Rastafarian symbols in the context of Jamaica's democratic institutions which are characterized by vigorous campaigning electoral fraud and gang violence In recent national elections such violence claimed the lives of hundreds of people Significant issues are dealt with in this cultural setting race differentials among Whites Browns and Blacks the rise of anti-Cubanism the Rastafarians response to the use of their symbols and the current status of Rastafarian ideological legitimacy **Rastafari and Politics** Everton S. P. McPherson, 1991 **Feminists Contest Politics and Philosophy** Lisa Nicole Gurley, Claudia Leeb, Anna Aloisia Moser, 2005 The color of the book's cover alludes to the time and context in which this important volume

originated the 3rd Interdisciplinary Conference Celebrating International Women's Day at the New School for Social Research in New York City. At that time, orange alerts were issued by the United States to create a climate of fear and thereby stifle any critical debate of its foreign and domestic policy. The feminist thinkers presented in this volume are alert that such a critique is needed. They draw on the various languages of their fields to address wide-ranging topics and key questions in feminist politics, theory, and philosophy. They all confront the state of urgency concerning the role of women in all classes of society in all fields of research and the academy. This unique collection ranges across disciplines as such: the four major topics—aesthetics and female representation, love and psychoanalysis, care and ethics, the different understandings of women—represent current topics of cross-disciplinary interest for Women's and Gender Studies, Philosophy, and Political Science.

Public Religion and the Politics of Homosexuality in Africa Adriaan van Klinken, Ezra Chitando, 2016-04-14. Issues of same-sex relationships and gay and lesbian rights are the subject of public and political controversy in many African societies today. Frequently, these controversies receive widespread attention both locally and globally, such as with the Anti-Homosexuality Bill in Uganda. In the international media, these cases tend to be presented as revealing a deeply rooted homophobia in Africa, fuelled by religious and cultural traditions. But so far, little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them. This is the first book with multidisciplinary perspectives on religion and homosexuality in Africa. It presents case studies from across the continent, from Egypt to Zimbabwe and from Senegal to Kenya, and covers religious traditions such as Islam, Christianity, and Rastafarianism. The contributors explore the role of religion in the politicisation of homosexuality, investigate local and global mobilisations of power, critically examine dominant religious discourses, and highlight the emergence of counter-discourses. Hence, they reveal the crucial yet ambivalent public role of religion in matters of sexuality, social justice, and human rights in contemporary Africa.

Rastafari Ennis Barrington Edmonds, 2003. Traces the history of the Rastafarian movement, discussing the impact it has had on Jamaican society, its successful expansion to North America, the British Isles, and Africa, its role as a dominant cultural force in the world, and other related topics.

Political Sentiments and Social Movements Claudia Strauss, Jack R. Friedman, 2018-03-22. This unique volume is about how ordinary people construct political meanings, form political emotions and identities, and become involved in or disengaged from political contests. Drawing on psychological anthropology, it illustrates the complexities of political subjectivities through engaging personal stories that complicate our understanding of the relationship between culture and politics. Chapters examine the Tea Party and Occupy Wall Street in the United States, third gender activism in India, Rastafari in Jamaica, Courage to Refuse in Israel, the environmental movement in the U.S., Salafi movements in northern Nigeria, post-socialist labor politics in Romania, and anti-immigrant activism in Denmark.
