

Social Sources of the Spirit: Connecting Rational Choice and Interactive Ritual Theories in the Study of Religion*

Joseph O. Baker

East Tennessee State University

In recent years rational choice approaches have increasingly been employed in the sociological study of religion; however, theory and research from this perspective typically overlook the role of emotionally efficacious collective rituals. This study synthesizes interactive ritual theory with the rational choice concept of strictness, which highlights the level of behavioral prohibitions religious groups place on adherents. Analyses of data from the first wave of the National Congregations Study indicate a positive relationship between a group's level of behavioral strictness and the production of an enthusiastic, outwardly emotive worship style. In general, the effort is made to highlight the utility of combining a focus on the production of collective, social "goods" in religious groups with considerations of interactive rituals and emotion.

Key words: Pentecostalism; rational choice theory; ritual; theory; emotions.

A focus on ritual, collective effervescence, and membership in a particular community permeates *The Elementary Forms of Religious Life* ([1912] 1995). Considering Durkheim's auspicious place in the sociological cannon, it is surprising that these elements have been overlooked by some prominent theoretical approaches to religion. This neglect may stem from a desire to leave the trails pioneered by classical theorists (e.g., Stark 2004), or perhaps from the ever-increasing focus on quantitative analysis and the difficulty of measuring empirically amorphous concepts like collective effervescence. Nevertheless, there remains an important place for studying rituals, emotion, and attachment to a collectivity in the sociology of religion. The optimal course for integrating these elements remains debatable however, as recent

Rational Choice Theories Of Religion

James A Beckford, Jay Demerath

Rational Choice Theories Of Religion:

Choice and Religion Steve Bruce, 1999 The orthodox view is that the democracies of the western world have become increasingly secular over the twentieth century Fewer and fewer people have chosen to believe and the church has declined markedly as religion has changed from being part of an identity ascribed at birth to being a matter of personal choice *Choice and Religion* provides a detailed critique of the rational choice approach to religion to demonstrate that industrialisation has secularised the western world and that diversity far from making religion more popular by allowing individuals to maximize their returns undermines it The claim that diversity and competition promote religion is refuted with evidence from a wide variety of western societies Bruce examines the Nordic countries and the ex communist states of eastern Europe to explore the consequences of different sorts of state regulation and to show that ethnicity is a more powerful determinant of religious change than market structures Where religion matters it is not because individuals are maximising their returns it is because it defines group identity and is heavily implicated in social conflict

Rational Choice Theory and Religion Lawrence A. Young, 2016-04-29 Rational Choice Theory and Religion considers one of the major developments in the social scientific paradigms that promises to foster a greater theoretical unity among the disciplines of sociology political science economics and psychology Applying the theory of rational choice the theory that each individual will make her choice to maximize gain and minimize cost to the study of religion Lawrence Young has brought together a group of internationally renowned scholars to examine this important development within the field of religion for the first time

Religion and Rational Choice Shivesh Chandra Thakur, 1981 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com

Marx, Critical Theory, and Religion, 2006-08-01 The Sociology of Religion has had several frameworks guiding its analysis including functionalism interpretive sociology phenomenology symbolic interactionism and now rational choice theory Marxism has tended to ignore religion assuming it is something that would eventually disappear even though it retained theological elements This collection of essays brings together a group of scholars who use frameworks provided by Marx and Critical Theory in analyzing religion Its goal is to establish a critical theory of religion within the sociology of religion as an alternative to rational choice In doing so it engages in a critique of the positivism uncritical praise of the market neoconservatism and one dimensional conception of rationality of the rational choice theory of religion

An Introduction to the Sociology of Religion Inger Furseth, Pål Repstad, 2017-03-02 Is it true that religion is weakening in modern times or are we facing religious resurgence What is fundamentalism How does it emerge and grow What role does religion play in ethnic and national conflicts Is religion a fundamental driving force or do political leaders use religion for their own purposes Do all religions oppress women These are some of the questions addressed in this book *An Introduction to the Sociology of Religion* provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from

Karl Marx to Zygmunt Bauman and their perspectives on social life including religion Throughout the book illustrations and examples are taken from several religious traditions *21st Century Theories of Religion* Michael Stausberg, 2024-11-08

What is religion and how does it originate What are its functions and how does it work These are some of the key questions addressed by theories of religion Far from being a past concern a series of new answers have been proposed since the beginning of our present millennium by evolutionary biologists and psychologists philosophers sociologists and scholars of religion In *21st Century Theories of Religion* Michael Stausberg is joined by leading scholars from Europe and North America to present and critically discuss fifteen contemporary theories Contributions introduce the theoreticians unpack their arguments review their reception and engage in critical debates The volume provides a cutting edge point of entry into a key conversation that no student and scholar of religion s can afford to ignore Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution ShareAlike CC BY SA 4 0 license

The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline

Research in the Social Scientific Study of Religion, Volume 12, 2021-10-01 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in the current volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social

sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research The SAGE Handbook of the Sociology of Religion James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook's 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009

Sociology of Religion Kevin J. Christiano, William H. Swatos, Jr., Peter Kivisto, 2008-05-29 By way of introduction Studying religion The religion of secularization and the history of religions Religion in the United States denominationalism and beyond Social class religion and power a classic field of inquiry Religion and ethnicity a complex relationship Gender sexuality and religion spirituality in different voices Religious change the case of Catholicism in the United States The globalization dynamic historic animosities or postmodern politics Mediating meaning religion in and as contemporary culture Boundary issues church state and new religions Religion and Everyday Life Stephen Hunt, 2013-01-11 This introductory text explores the historical and contemporary relevance of religion to social life through an examination of practice and belief Author Hunt reconsiders how theories and concepts are lived at the level of selfhood and cultural identity through religious

and spiritual belief At the same time he looks at contemporary changes in religious life and how these are impacted by socialization institutional belonging and belief and at the significance of class gender age and ethnicity Individual chapters cover a range of issues such as religion identity and community secularization and pluralism traditional Christianity change and continuity globalization and the global context religion and ethnicity The text challenges much current sociological thought and deals with contemporary Christianity a range of world faiths and new and developing expressions of religion and spirituality With tables and diagrams to illustrate key points and trends it provides an accessible and captivating introduction to the sociology of religion

Social Theory and Religion James A. Beckford, 2003-08-21 Many aspects of religion are puzzling these days This book looks at ways of improving our understanding of religious change by strengthening the links between social theory and the social scientific study of religion It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and self identity James A Beckford reviews the current state of social scientific knowledge about religion

Paradigms, Poetics, and Politics of Conversion Jan N. Bremmer, Wout Jac. van Bakkum, Arie L. Molendijk, 2006 In the terms of Durheimian sociology conversion is a fait social Although they are rarely treated as a cultural phenomenon conversions can obviously be examined for the norms values and presuppositions of the cultures in which they take place Thus conversion can help us to shed light on a particular culture At the same time the term evokes a dramatic appeal that suggests a kind of suddenness although in most cases conversion implies a more gradual process of establishing and defining a new religious identity From 21-24 May 2003 the University of Groningen hosted an international conference on Cultures of Conversion The contributions have been edited in two volumes which pay special attention to the modes of language and idiom in conversion literature the meaning and sense of religious ideological discourse the variety of rhetorical tropes and the effects of the conversion narrative with allusions to religious or political conventions and idealizations The present volume contains theoretical contributions on the theory of conversion with special attention to the rational choice theory and on the history of research into conversion It also offers stimulating case studies ranging from the late Middle Ages to present times and taken from Germany Great Britain and The Netherlands The other volume Cultures of Conversion offers in depth studies of conversion that are mainly taken from the history of India Islam and Judaism ranging from the Byzantine period to the new Muslims of the West

The Origins of John's Gospel Stanley E. Porter, Hughson T. Ong, 2015-09-29 The essays in *The Origins of John's Gospel* gathered by Stanley E Porter and Hughson T Ong either survey or discuss in detail various areas and topics in Johannine scholarship especially in the study of John's Gospel These include the authorship and dating sources and traditions of John's Gospel its structure and composition the Johannine community and Johannine anti Judaism and the Son of Man sayings Collectively these essays offer important contributions to various areas and topics of research relating to the origins of John's Gospel

New Approaches to the

Study of Religion Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Chinese in Dubai Yuting Wang, 2020-09-07

Chinese in Dubai offers the first book length study of the experiences of overseas Chinese living in the most prominent global city in the Arabian Gulf and the broader Middle East region. Evolving around three themes: money, pride, and spirituality, this book delineates the changing shape of Chinese spaces in metropolitan Dubai, explicates how a frontier mentality affects intergroup relations, identity construction, and religious experiences in the Chinese diaspora. It documents how the Chinese make sense of their struggles, sufferings, prosperity, and success in relation to Dubai's fast-changing social environment. This book is a timely endeavour to gauge the implications of a rising China and the shifting patterns of the international economic and political order for the global Chinese diaspora. *Attractive Performances* Frits Naerebout, 2023-07-17

This book is not another history of the dance in ancient Greece but wants to lay the groundwork on which such a history should properly be built. The three preliminary studies offered here are: first, an extensive historiography of the subject which seeks to illuminate where we stand at present in reference to the large amount of work done on ancient Greek dance for the past 500 years; Secondly, an exercise in source criticism embracing both texts and imagery in order to establish the limits to which we can push any investigation; and thirdly, an attempt at model building to provide an explicit theoretical framework for future research. This is the first time that some of the approaches of the new dance scholarship which has arisen during the past few decades have been systematically applied to the dancing of the ancient world. **Contemporary Theories of Religion**

Michael Stausberg, 2009-06-19. Interest in theories of religion has never been greater. Scholars debate single theoretical approaches in different scholarly journals while the new atheists such as Richard Dawkins and Daniel Dennett criticize the whole idea of religion. For everyone eager to understand the current state of the field, *Contemporary Theories of Religion* surveys the neglected landscape in its totality. Michael Stausberg brings together leading scholars of the field to review and discuss seventeen contemporary theories of religion. As well as scholars of religion, it features anthropologists, archaeologists, classicists, evolutionary biologists, philosophers, and sociologists. Each chapter provides students with background information on the theoretician, a presentation of the theory's basic principles, an analysis of basic assumptions, and a review of previous critiques. Concluding with a section entitled 'Back and Forth', Stausberg compares the different theories and points to further avenues of discussion for the future. *The Sociological Ambition* Chris Shilling, Philip A. Mellor, 2001-09-05

The Sociological Ambition is a superb book. It is beautifully written, expertly edited, and renders complex and original ideas entirely accessible. This is a modern classic. *Journal of Contemporary Religion*. For all social scientists who are fed up with corporate style textbooks which appeal to the lowest common denominator, *The Sociological Ambition* must come as a relief. Shilling and Mellor have written an account of their discipline but they have done so with a multi-purpose task in mind. *Irish Journal of Sociology*. In a comprehensive reassessment of the field, Chris Shilling and Philip A. Mellor examine the various attempts that have been made to reconstruct sociology over the last century, arguing that classical and contemporary social theories must

be studied in relation to the ambition that first shaped and established the discipline The authors begin by situating sociology in its historical philosophical and theological contexts examining how the founders of the discipline developed competing analyses of the processes elementary to social and moral life through their unique contributions The result is a landmark work in recent sociological study Accomplished and erudite this book will be required reading for students of sociology social theory religious studies and cultural studies Sacred Markets, Sacred Canopies Ted G. Jelen, 2003-04 In *Sacred Markets Sacred Canopies* Ted G Jelen brings together the leading scholars in the sociology of religion to debate market theories of religion As the contributors examine whether or not religious choices can be understood as responding to the same laws of supply and demand as other forms of consumer behavior they bring out many of the issues controversies and concerns surrounding this innovative theory

Immerse yourself in the artistry of words with is expressive creation, **Rational Choice Theories Of Religion** .
