findings *Connecting Reading & Writing in Second Language Writing Instruction* Alan Hirvela, 2004-08-20 Academic writing often requires students to incorporate material from outside sources like statistics ideas quotations paraphrases into their own written texts a particular obstacle for students who lack strong reading skills In *Connecting Reading and Writing in Second Language Instruction* Alan Hirvela contends that second language writing students should be considered as readers first and advocates the integration of reading and writing instruction with a survey of theory research and pedagogy in the subject area Although the integrated reading writing model has gained popularity in recent years many teachers have little more than an intuitive sense of the connections between these skills As part of the popular Michigan Series on Teaching Multilingual Writers *Connecting Reading and Writing in Second Language Instruction* will provide invaluable background knowledge on this issue to ESL teachers in training as well as teachers who are already practicing **Second Language Reading and Vocabulary Learning** Thomas Huckin, Margot Haynes, James Coady, 1993 Reading ability and vocabulary knowledge are two of the most important components of performance in a second language especially in academic settings Each depend on the other as vocabulary knowledge is the single most important factor in reading comprehension while reading is the single most important means by which intermediate and advanced learners acquire new words This symbiotic relationship is the subject of this volume The authors argue that building vocabulary through reading is a fruitful but complex activity that needs better understanding and more careful guidance This book is unique in its emphases on original research Eight of the 14 chapters are empirical studies published for the first time including classroom based case studies experimental research and think aloud protocol analysis In every chapter consideration is given to the pedagogical implications and possible applications of the research findings Lengthy editorial comments at the end of each chapter reinforce this practical concern *Teaching Metacognitive Reading Strategies to Second Language Learners in a Classroom Setting*, 2010-05-19 Seminar paper from the year 2009 in the subject Didactics for the subject English Pedagogy Literature Studies grade 2 University of Münster language English abstract Reading is an important skill which does not only provide the ability to gain new information but also acquires new language skills Grabe identifies effective approaches for reading and determines that good readers need rapid and automatic word recognition skills a large recognition of vocabulary sound knowledge of syntactic structure and discourse organization and metacognitive awareness of reading purposes and text comprehension Successful readers are those who use learning strategies effectively Academic reading requires the development of strategic reading Readers have to be aware of their goals in reading and be able to administer strategies effectively These strategies are to be chosen carefully depending on their purpose in reading Only then will the reader be able to check his/her understanding of the text and solve comprehension problems successfully Out of the various aspects of teaching reading to second language L2 learners in a classroom setting the present essay will focus on metacognitive reading strategies First the question will be answered what is meant by the term metacognitive reading strategies A definition will be

presented Then the essay provides a theoretic framework of metacognitive reading strategies before reading while reading and after reading Finally there will be two examples of how metacognitive reading strategies can be taught in a classroom setting

From Reader to Reading Teacher Jo Ann Aebersold, Mary Lee Field, 1997-03-13 From Reader to Reading Teacher is a self contained student centred methods text that connects reading theory to practical classroom activities The paperback edition ideal for introductory courses on the teaching of second language reading connects reading theory to practical classroom activities Teachers begin by exploring their beliefs and assumptions about reading and analyzing their own reading strategies This leads to a critical examination of the pedagogical issues central to the reading classroom

including selecting appropriate activities and effective lesson planning

Extensive Reading in the Second Language Classroom Richard R. Day, Julian Bamford, 1998-01-13 This book is a comprehensive examination of extensive reading In this approach to the teaching and learning of second language reading learners read large quantities of books and other materials that are well within their linguistic competence In this text the case is made that extensive reading is an important addition to any second language reading program Extensive reading not only provides essential practice in learning to read but also develops a positive attitude toward reading so often missed in second language reading classrooms The authors provide a theoretical foundation for this approach by examining the cognitive and affective nature of reading They also offer a wealth of practical suggestions for implementing extensive reading including integrating it into the curriculum establishing a library selecting reading material record keeping evaluation and a wide variety of classroom activities to supplement individualized silent reading
