Reading In Focus:

Reading in Focus 1, 1992 **Reading in Focus 2**, 1993 *Reading in Focus* Esta De Fossard, 1990 **Reading in Focus** Lin Lougheed, 1984 **Reading in the Wild** Donalyn Miller, 2013-10-21

In *Reading in the Wild*, reading expert Donalyn Miller continues the conversation that began in her bestselling book *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong wild reading habits in our students. Based in part on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of wild reading. When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures.

Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant and author of *Do I Really Have to Teach Reading?* With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids' hands.

Franki Sibberson, third grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books*, *Reading in the Wild*, along with the now legendary *The Book Whisperer*, constitutes the complete guide to creating a stimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education.

TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT

The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach, reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, *Reading Reconsidered* takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This Core of the Core comprises the first half of the book and instructs educators on how to teach students to read harder texts closely, read texts rigorously, and intentionally read nonfiction more effectively and write more effectively in direct response to texts. The second half of *Reading Reconsidered* reinforces these principles, coupling them with the

fundamentals of reading instruction a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary interactive reading and student autonomy Reading Reconsidered breaks an overly broad issue into clear easy to implement approaches Filled with practical tools including 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms note for online access of this content please visit my teachlikeachampion.com Recommended book lists Downloadable tips and templates on key topics like reading nonfiction vocabulary instruction and literary terms and definitions Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers
