Readings In Interpretation Holderlin Hegel Heidegger:

Readings in Interpretation Andrzej Warminski, 1987 *Hegel After Derrida* Stuart Barnett, 2002-01-04 Hegel After Derrida provides a much needed insight not only into the importance of Hegel and the importance of Derrida's work on Hegel but also the very foundations of postmodern and deconstructionist thought It will be essential reading for all those engaging with the work of Derrida and Hegel today and anyone seeking insight into some of the basic but neglected themes of deconstruction **A Hermeneutics of Poetic Education** Catherine Homan, 2020-01-14 A Hermeneutics of Poetic Education The Play of the In Between explores the ways in which both play and poetry orient us toward what surpasses us Catherine Homan develops an original account of poetic education that builds on Friedrich Hölderlin's idea of poetry as a teacher of humanity Whereas aesthetic education emphasizes judgments of taste and rational autonomy poetic education foregrounds self formation and openness to the other Critically engaging the works of Eugen Fink Hans Georg Gadamer and Paul Celan this book argues that poetry and play call for a particular stance in the world and with others Open toward the infinite while simultaneously reaching toward its own finitude the poetic work addresses us and invites our response Poetry reveals the human condition as in between and dialogical even at the limits of language Although many philosophers mistakenly view play as frivolous Homan takes play seriously Play spontaneous and creative resists mastery and instead requires an active attunement to the to and fro movement of the world of others and ourselves A Hermeneutics of Poetic Education demonstrates that poetic education as learning to listen provides vital resources for responding to alterity in meaningful ways that resist totalization **Lunar Voices** David Farrell Krell, 1995-07 In his search to understand the insatiable desire for completeness that patterns so much art and philosophy Krell investigates the identification of the lunar voice with woman in various roles lover friend sister shadow and narrative voice By reading literary works through a constant dialogue with critical texts Lunar Voices traces the border between philosophy and literature and expands on issues central to contemporary literary theory Material Inscriptions Andrzej Warminski, 2016-06-30 This book focuses on the practice and pedagogical value of rhetorical reading Its readings follow an itinerary from poetic texts such as those by Wordsworth and Keats through theoretical or philosophical texts by Descartes and Nietzsche to narrative *Maurice Blanchot* Carolyn Bailey Gill, 1996 This timely collection of essays is the first to be written on the work of Maurice Blanchot in English One of the finest writers of our time Blanchot is a contemporary of Bataille and Levinas his writing has influenced the likes of Derrida and Foucault *Blanchot* Leslie Hill, 2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought Although Blanchot's work is characterised by a fragmentary and complex style Leslie Hill introduces clearly and accessibly the key themes in his work He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot's later work and considers the

relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work Placing Blanchot at the centre stage of writing in the twentieth century Blanchot also sheds new light on Blanchot's political activities before and after the Second World War This accessible introduction to Blanchot's thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years **The UberReader** Avital

Ronell, 2010-10-01 Avital Ronell has put together what must be one of the most remarkable critical oeuvres of our era Zeugmatically yoking the slang of pop culture with philosophical analysis forcing the confrontation of high literature and technology or drug culture Avital Ronell produces sentences that startle irritate illuminate At once hilarious and refractory her books are like no others Jonathan Culler *Diacritics* For twenty years Avital Ronell has stood at the forefront of the confrontation between literary study and European philosophy She has tirelessly investigated the impact of technology on thinking and writing with groundbreaking work on Heidegger dependency and drug rhetoric intelligence and artificial intelligence and the obsession with testing Admired for her insights and breadth of field she has attracted a wide readership by writing with guts candor and wit Coyly alluding to Nietzsche's gay science *The berReader* presents a solid introduction to Avital Ronell's later oeuvre It includes at least one selection from each of her books two classic selections from a collection of her early essays *Finitude's Score* previously uncollected interviews and essays and some of her most powerful published and unpublished talks An introduction by Diane Davis surveys Ronell's career and the critical response to it thus far With its combination of brevity and power this Ronell primer will be immensely useful to scholars students and teachers throughout the humanities but particularly to graduate and undergraduate courses in contemporary theory *Finitude's Score* Avital

Ronell, 1994-01-01 Suspending the distinction between headline news and high theory Avital Ronell examines the diverse figures of finitude in our modernity war guerrilla video trauma TV AIDS music divorce sadism electronic tagging rumor Her essays address such questions as How do rumors kill How has video become the conscience of TV How have the police come to be everywhere even where they are not Is peace possible Writing to the community of those who have no community to those who have known the infiniteness of abandonment her work explores the possibility one possibility among many that this time we have gone too far One last word It is possible that we have gone too far This possibility has to be considered if we as a species as a history are going to get anywhere at all **Romantic Theory** Leon Chai, 2006-07-31 Winner of the Jean

Pierre Barricelli Prize given by the International Conference on Romanticism This original study explores the new idea of theory that emerged in the wake of the French Revolution Leon Chai sees in the Romantic age a significant movement across several broad fields of intellectual endeavor from theoretical concepts to an attempt to understand how they arise He contends that this movement led to a spatial treatment of concepts the primacy of development over concepts and the creation of metatheory or the formal analysis of theory Chai begins with P B Shelley on the need for conceptual framework or theory He then considers how Friedrich Wolf and Friedrich Schlegel shift from a preoccupation with antiquity to a

heightened self awareness of Romantic nostalgia for that lost past He finds a similar reflexivity in Napoleon s battle plan at Jena and subsequently in Hegel s move from substance to subject Chai then turns to the sciences Xavier Bichat s rejection of the idea of a unitary vital principle for life as process the chemical theory of matter developed by Humphry Davy and the work of variste Galois whose proof of the solvability of equations using radicals ushered in the age of metatheory Chai concludes with reactions to theory Coleridge s proposal of the conflict between reason and understanding as a model of theory Mary Shelley s effort to replace theory with a different kind of relationship to external others and H lderlin s reflection on the limits of representation and the possibility of fulfillment beyond it **Essays and Letters** Friedrich

Hölderlin,2009-08-27 One of Germany s greatest poets Johann Christian Friedrich H lderlin 1770 1843 was also a prose writer of intense feeling intelligence and perception This new translation of selected letters and essays traces the life and thoughts of this extraordinary writer H lderlin s letters to friends and fellow writers such as Hegel Schiller and Goethe describe his development as a poet while those written to his family speak with great passion of his beliefs and aspirations as well as revealing money worries and finally the tragic unravelling of his sanity These works examine H lderlin s great preoccupations the unity of existence the relationship between art and nature and above all the spirit of the writer

Entertaining the Idea Lowell Gallagher,James Kearney,Julia Reinhard Lupton,2020-12-07 To entertain an idea is to take it in pay attention to it give it breathing room dwell with it for a time The practice of entertaining ideas suggests rumination and meditation inviting us to think of philosophy as a form of hospitality and a kind of mental theatre In this collection organized around key words shared by philosophy and performance the editors suggest that Shakespeare s plays supply readers listeners viewers and performers with equipment for living In plays ranging from A Midsummer Night s Dream to King Lear and The Winter s Tale Shakespeare invites readers and audiences to be more responsive to the texture and meaning of daily encounters whether in the intimacies of love the demands of social and political life or moments of ethical decision Entertaining the Idea features established and emerging scholars addressing key words such as role play acknowledgment judgment and entertainment as well as curse and care The volume also includes longer essays on Shakespeare Kant Husserl and Hegel as well as an afterword by theatre critic Charles McNulty on the philosophy and performance history of King Lear **The Near and Distant God** Ian Cooper,2017-12-02 Poetry and philosophy from the

time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Holderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper s compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Morike and Gerard Manley Hopkins both churchmen

each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the Duino Elegies and Eliot's response to Bradley in the Four Quartets Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge

Contemporary Scottish Poetry and the Natural World Monika Szuba, 2019-06-24 With an exciting and provocative approach to the reading of landscape and the non human world in the work of four major Scottish poets this groundbreaking book merges phenomenology and ecocritical literary criticism

The Oxford Handbook of European Romanticism Paul Hamilton, 2016-01-14 The Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally interdisciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism

Hölderlin, the Poetics of Being Adrian Del Caro, 1991 Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin The poet is studied in the context of the romantic age but as one who imparted depth to the movement and influenced the critical debates of the 20th century Adrian Del Caro presents as detailed readable discussion of Hölderlin's major poems that clarifies but does not lose sight of the powerful formulations that animate Hölderlinian spirit Hölderlin's specific effort in the determination of the direction of modern man had to do with the relationship of poetry to being Del Caro draws on the contributions of Nietzsche and Heidegger within the theoretical framework of the question of being Hölderlin the poet of poets is presented at work and in his works as the instrument of conviviality binding mortal to mortal and mortal to divine

Reading Proust Maria Paganini-Ambord, 1994

Romanticism Cynthia Chase, 2014-09-25 The essays in this volume have all been carefully chosen by Cynthia Chase to exemplify the most important strands in contemporary critical thought on Romantic literature in particular the best of recent feminist deconstructive and new historicist writing They include contributions from critics such as Paul de Man Mary Jacobus

Marjorie Levinson and Jerome Christensen The collection with its substantial introduction and judicious selection of key work explains the significance of recent critical debate by relating it to fundamental critical questions that define Romanticism Through the course of their analyses the essays offer answers to perhaps the most essential question posed by the Romantic period what is the role of language in history *Reading on the Edge* Cyraia E. Johnson-Roullier, 2000-05-18 *Reading on the Edge* explores the notion of multiple cultural identity and exile in the work of Marcel Proust James Joyce and James Baldwin Focusing on the cultural politics of modernism through the prism of cultural theory the book reconceives each author's work while at the same time redrawing modernism's traditionally Eurocentric disciplinary boundaries The book therefore has wide implications for our understanding of modernism and the modernist canon **The Philosophy of Exemplarity** Jakub Mácha, 2022-10-28 This book offers an original philosophical perspective on exemplarity Inspired by Wittgenstein's later work and Derrida's theory of deconstruction it argues that examples are not static entities but rather oscillate between singular and universal moments There is a broad consensus that exemplary cases mediate between singular instances and universal concepts or norms In the first part of the book Máchá contends that there is a kind of difference between singular examples and general exemplars or paradigms Every example is in part also an exemplar and vice versa Furthermore he develops a paracomplete approach to the logic of exemplarity which allows us to say of an exemplar of X neither that it is an X nor that it is not an X This paradox is structurally isomorphic to Russell's paradox and can be addressed in similar ways In the second part of the book Máchá presents four historical studies that exemplify the ideas developed in the first part This part begins with Plato's Forms understood as standards paradigms before considering Kant's theory of reflective judgment as a general epistemological account of exemplarity This is then followed by analyses of Hegel's conceptual moment of particularity and Kuhn's concept of paradigm The book concludes by discussing the speculative hypothesis that all our knowledge is based on paradigms which following the logic of exemplarity are neither true nor false The Philosophy of Exemplarity will be of interest to scholars and advanced students working in philosophy of language logic history of philosophy and literary theory
