Innovations in Circular Economy and Renewable Energy in Africa
Mona-Maria Narra, Satyanarayana Narra, 2024-10-14 In many African countries access to electricity and modern energy fuels remains a significant concern Over 570 million people in Sub Saharan Africa still lack electricity and only 18% have access to

modern cooking fuels The region faces immense challenges including massive debts lack of maintenance and system failures underscoring the urgent need for investment in the energy sector s transition Africa s overreliance on fossil fuels and the growing demand for energy driven by economic expansion and population growth could lead to sharp increases in greenhouse gas emissions Meanwhile urbanization economic activities and rising living standards are increasing waste production making waste management a pressing issue The absence of adequate waste treatment technologies financing and regulatory frameworks exacerbates this challenge Biomass remains a predominant energy source in Sub Saharan Africa often used in its raw state leading to health hazards from incomplete combustion However the continent s abundant agricultural residues and other energetic wastes offer a significant opportunity These can be transformed into various energy carriers helping to meet or supplement Africa s energy and fuel needs The current situation presents a unique opportunity for Africa to shift from a fossil based economy to a sustainable green economy Leveraging technology knowledge and skills can support this rapid transition and drive economic growth Innovations in Circular Economy and Renewable Energy highlights current advancements in waste management biomass utilization for energy and innovations in green hydrogen production in Africa This book showcases predominantly African research and insights first presented at the First International Conference on Circular Economy Renewable Energy and Green Hydrogen in Kumasi Ghana in September 2023 Dive into this essential resource to explore transformative waste to energy technologies the hybridization and flexibilization of renewable energy systems and the path towards a sustainable future for Africa

Occurrence and Behavior of Emerging Contaminants in Organic Wastes and Their Control Strategies Kui Huang,Sartaj Ahmad Bhat,2024-03-09 Occurrence and Behavior of Emerging Contaminants in Organic Wastes and Their Control Strategies provides updated information on the occurrence monitoring and behavior of emerging contaminants discharged into the environment from different anthropogenic activities as well as organic wastes management practices which can be beneficial in classifying and broadly addressing the assessment treatment disposal and management of organic wastes This book will cover the occurrences of nanoparticles microplastics antibiotic resistance genes disinfection by products medical waste pharmaceutical and personal care products and other emerging contaminants discharged in different types of organic wastes Researchers scientists graduate and postgraduate students will find this book to be a timely contribution that will be useful in identifying and comprehensively addressing occurrence and behavior of emerging contaminants in organic wastes Covers a broad range of information on different emerging contaminants presented in different types of organic wastes Deals with insights behaviors monitoring and pathways of emerging contaminants in the classification transport treatment and disposal of organic wastes Illustrates the environmental risks of emerging contaminants in final waste products of organic wastes Highlights feasible control strategies for emerging contaminants during the whole process of organic waste management

Solid waste management and health in Accra, Ghana ,2021-04-26 The Outline of Knowledge: The romance of evolution

James Albert Richards,1924 **Responsible Management in Emerging Markets** Eric Kwame Aday, John Paul Basewe Kosiba, Robert Ebo Hinson, Kojo Kakra Twum, Nathaniel Newman, Francis Fonyee Nutsugah, 2021-10-30 Responsible Management in Emerging Markets A Multisectoral Focus is in response to the dearth of literature on responsible management in emerging economies It discusses diverse themes at the intersection of corporate social responsibility CSR green business marketing and sustainability management with the view to addressing some begging issues in responsible management Hinged on the centrality of SDG 12 responsible production and consumption this volume focusses on how businesses nations and continents across the globe can actualize a sustainable paradigm now and in the future It offers fresh theoretical policy and managerial insights into the complex processes and relationships that mediate businesses ability to deliver on their social development promise through sustainability and green initiatives This book discusses some forward and backward linkages between the emerging economy context and responsible management Featuring cognate topics on CSR green marketing green fashion and green entrepreneurship it offers a Sustainable Development Roadmap SDR that is applicable for businesses in emerging economies This volume is a valuable resource for professionals and academics in emerging economies who desire to understand how firms are demonstrating responsible management through green initiatives corporate social responsibility and sustainable policies and practices Food Technology Murlidhar Meghwal, Megh R.
