Red Wind:

Japanese Drama and Culture in the 1960s D.G. Goodman, 2017-09-08 This title was first published in 1988 In this book the author has translated five postwar experimental Japanese plays and recreated the artistic social and spiritual milieu in which they were created He describes the turning point in Japanese thinking about the nature and limitations of a Western oriented modern culture and the creation of underground theatres which in which evolved a new mythology of history Professor Goodman sees these developments as an interplay between personal and political ie revolutionary salvation

Science with Storytelling Jane Stenson, Sherry Norfolk, Lynette J. Ford, 2017-02-06 This book is about the intersection of storytelling and science Recognizing that humans are hard wired for narrative this collection of new essays integrates the two in a special way to teach science in the K 6 classroom As science education changes its focus to concepts that bridge various disciplines along with science and engineering practices storytelling offers opportunities to enhance the science classroom Lesson plans are provided each presenting a story its alignment with science Next Generation Science Standards language arts Common Core State Standards and theater arts standards National Core Arts Standards Instructional plans include a rationale preparation activities and assessment

Historical Common Names of Great Plains Plants Volume I: Historical Names (paperback) Elaine Nowick, 2014-10 Containing thousands of entries of both vernacular and scientific names of Great Plains plants the literature that informs this exhaustive listing spans nearly 300 years Author Elaine Nowick has drawn from sources as diverse as Linnaeus Lewis and Clark and local university extension publications to compile the gamut of practical and often fanciful common plant names used over the years Each common name is accompanied by a definitive scientific name with references and authority information Interspersed with scientifically correct botanical line drawings the entries are written in standard ICBN format making this a useful volume for scholars as well as lay enthusiasts alike Volume 1 presents in alphabetical order all the historical common names of plants recorded in Great Plains flora herbaria and botanical collections together with the scientific names of species to which those common names have been applied

Ecoacoustics Almo Farina, Stuart H. Gage, 2017-05-22 The sounds produced by geophonic biophonic and technophonic sources are relevant to the function of natural and human modified ecosystems Passive recording is one of the most non invasive technologies as its use avoids human intrusion during acoustic surveys and facilitates the accumulation of huge amounts of acoustical data For the first time this book collates and reviews the science behind ecoacoustics illustrating the principles methods and applications of this exciting new field Topics covered in this comprehensive volume include the assessment of biodiversity based on sounds emanating from a variety of environments the best technologies and methods necessary to investigate environmental sounds implications for climate change and urban systems the relationship between landscape ecology and ecoacoustics the conservation of soundscapes and the social value of ecoacoustics areas of potential future research An invaluable resource for scholars researchers and students Ecoacoustics The Ecological Role of Sounds
