The Narrow Edge Deborah Cramer, 2015-01-01 Thousands of ravenous tiny shorebirds race along the water's edge of Delaware Bay feasting on pin sized horseshoe crab eggs Fueled by millions of eggs the migrating red knots fly on When they arrive at last in their arctic breeding grounds they will have completed a near miraculous 9 000 mile journey that began in Tierra del Fuego Deborah Cramer followed these knots whose numbers have declined by 75 percent on their extraordinary odyssey from one end of the earth to the other from an isolated beach at the tip of South America all the way to the icy tundra In her firsthand account she explores how diminishing a single stopover can compromise the birds entire journey and how the loss of horseshoe crabs ancient animals that come ashore but once a year threatens not only the survival of red knots but also human well being the unparalleled ability of horseshoe crab blood to detect harmful bacteria in vaccines medical devices and intravenous drugs safeguards human health Cramer offers unique insight into how on an increasingly fragile and congested shore the lives of red knots horseshoe crabs and humans are intertwined She eloquently portrays the tenacity of small birds and the courage of many people who bird by bird and beach by beach keep red knots flying

In the Face of Diversity Nathan D. Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have

produced over the years as well as interviews with ten past and present leaders. Instead of a single community, the evidence demonstrates the existence of many diverse Chinese Australian communities. Consequently, the book advances two ideas: Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations. Imagining the Chinese Australian community has nonetheless produced real world outcomes, the most prominent being a highly participatory style of Australian multiculturalism. These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities. *I Am You Are We Are* conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious. The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities.

Conquering Asthma Michael T. Newhouse, Peter J. Barnes, 1994. During the past decade, major scientific advances have occurred in our understanding of asthma and associated diseases of the airways such as rhinitis and sinusitis. These developments have been accompanied by new potent and safe medications and better drug delivery systems. As a result, most people with asthma and similar problems involving the nose, eyes, and ears can now have their conditions completely controlled so that they no longer suffer from breathlessness, cough, or wheeze. The end result is an improved quality of life for people who no longer need miss school work or recreational activities. *Conquering Asthma* will show most asthmatics how to live a healthier and happier life, hardly aware that they have asthma. We hope that you will enjoy understanding and participating actively with your doctor in the self-care of your disease.
