Redeemer Nation The Idea Of Americas Millennial Role:

Redeemer Nation Ernest Lee Tuveson, 1980-02-15 Ernest Tuveson here shows that the idea of the redemptive mission which has motivated so much of the United States foreign policy is as old as the Republic itself He traces the development of this element of the American heritage from its beginning as a literal interpretation of biblical prophecies Pointing to the application of the millenarian ideal to successive stages of American history notably apocalyptic events like the Civil War Tuveson illustrates its pervasive cultural influences with examples from the writings of Jonathan Edwards Harriet Beecher Stowe Timothy Dwight and Julia Ward Howe among others

Redeemer Nation Ernest Lee Tuveson, 1974 **Redeemer Nation** Ernest Lee Tuveson, 1980 More Desired than Our Own Salvation Robert O. Smith, 2013-06-06 Millions of American Christians see U S support for the State of Israel as a God ordained responsibility American sympathies for the State of Israel are consistently and often substantially higher than for Arab states or Palestinians More Desired than Our Own Salvation is a compelling historical look at how this consensus came to be In 2006 John Hagee founded Christians United for Israel Several high level policymakers both Christians and Jews rushed to endorse the effort Soon however questions arose about anti Catholic and anti Islamic ideas contained in Hagee s preaching and writing More Desired than Our Own Salvation shows that these ideas draw from a long heritage of Anglo American Protestant culture Contemporary Christian Zionism may say more about American culture than most Americans care to admit The roots of Christian Zionism in sixteenth and seventeenth century Protestant interpretations of scripture and history formed not only Anglo American theology but the foundations of American culture itself Black Protestant views show for instance how Christian Zionism is connected intimately with racial identity and American exceptionalism not just Christian beliefs Martin Luther and John Calvin s identification of the Pope and the Turk as the two heads of the Antichrist echoes in our world today Robert O Smith has identified an English Protestant tradition of Judeo centric prophecy interpretation that shaped Puritan commitment In New England this tradition informed the foundations of American identity From the Cartwright Petition in 1649 to the Blackstone Memorial in 1891 to the work of John Hagee today Christian Zionism has prepared the ground for Christians in the U S to see the modern State of Israel as a prophetic counterpart a modern nation state whose preservation may be more desired than our own salvation *America, the Vietnam War, and the World* Andreas W. Daum, Lloyd C. Gardner, Wilfried Mausbach, 2003-07-14 Publisher s description This book presents new perspectives on the Vietnam War its global repercussions and the role of this war in modern history The volume reveals America s War as an international event that reverberated all over the world in domestic settings of numerous nation states combatants and non combatants alike as well as in transnational relations and alliance systems The volume thereby covers a wide geographical range from Berkeley and Berlin to Cambodia and Canberra The essays address political military and diplomatic issues no less than cultural and intellectual consequences of Vietnam The authors also set the Vietnam War in comparison to other major conflicts in world

history they cover over three centuries and develop general insights into the tragedies and trajectories of military conflicts as phenomena of modern societies in general For the first time America's War is thus depicted as a truly global event whose origins and characteristics deserve an interdisciplinary treatment The Bible Among Scriptures and Other Essays Heikki Räisänen, 2017-12-01 The essays by Heikki Räisänen 1941-2015 collected in this volume deal with a broad array of topics ranging from early Christian identities to bibliodrama and other modern day approaches to the scriptures The exegetical studies in the first part explore issues related to early Christian eschatology virginal conception and Paul's complex argumentation about the Jews and their salvation in Romans 9-11 The essays on ancient and modern interpretations of the Bible in the second part pay special attention to ethical issues address the dark sides of its reception and discuss the biblical interpretations of Marcion and Joseph Smith The third section comprises studies on the Bible and Qur'an while the concluding chapter provides a comprehensive description of the Bible as scripture from a comparative perspective **Time No Longer** Patrick Smith, 2013-05-21 DIV Americans cherish their national myths some of which predate the country's founding But the time for illusions nostalgia and grand ambition abroad has gone by Patrick Smith observes in this original book Americans are now faced with a choice between a mythical idea of themselves their nation and their global mission on the one hand and on the other an idea of America that is rooted in historical consciousness To cling to old myths will ensure America's decline Smith warns He demonstrates with deep historical insight why a fundamentally new perspective and self image are essential if the United States is to find its place in the twenty first century In four illuminating essays Smith discusses America's unusual and dysfunctional relation with history the Spanish American War and the roots of American imperial ambition the Cold War years and the effects of fear and power on the American psyche and the uneasy years from 9-11 to the present Providing a new perspective on our nation's current dilemmas Smith also offers hope for change through an embrace of authentic history div **The New Cambridge History of American Foreign Relations: Volume 1, Dimensions of the Early American Empire, 1754-1865** William Earl Weeks, 2013-02-28 Since their first publication the four volumes of the Cambridge History of American Foreign Relations have served as the definitive source for the topic from the colonial period to the Cold War This entirely new first volume narrates the British North American colonists' pre-existing desire for expansion security and prosperity and argues that these desires are both the essence of American foreign relations and the root cause for the creation of the United States They required the colonists to unite politically as individual colonies could not dominate North America by themselves Although ingrained localist sentiments persisted a strong durable Union was required for mutual success thus American nationalism was founded on the idea of allegiance to the Union Continued tension between the desire for expansion and the fragility of the Union eventually resulted in the Union's collapse and the Civil War **God in Public** Mark G. Toulouse, 2006-01-01 In this important study Mark Toulouse maps the ambiguous landscape between American Christianity and American public life Built on an extensive study of religious periodical

literature since the mid 1950s and on an analysis of landmark events in American history Toulouse develops an insightful typology for understanding how Americans have related their Christian faith to public life For Toulouse the relationship between American Christianity and American public life exists in four styles of interaction iconic faith priestly faith the public Christian and the public church with each model appearing in various forms across the terrain of American history Carefully examined and accessibly written this study is sure to generate discussion and bring clarity to the many ambiguities and diversities that continue to mark American Christianity

Tinkering toward Utopia David B. TYACK, Larry Cuban, David B Tyack, 2009-06-30 For over a century Americans have translated their cultural anxieties and hopes into dramatic demands for educational reform Although policy talk has sounded a millennial tone the actual reforms have been gradual and incremental Tinkering toward Utopia documents the dynamic tension between Americans faith in education as a panacea and the moderate pace of change in educational practices In this book David Tyack and Larry Cuban explore some basic questions about the nature of educational reform Why have Americans come to believe that schooling has regressed Have educational reforms occurred in cycles and if so why Why has it been so difficult to change the basic institutional patterns of schooling What actually happened when reformers tried to reinvent schooling Tyack and Cuban argue that the ahistorical nature of most current reform proposals magnifies defects and understates the difficulty of changing the system Policy talk has alternated between lamentation and overconfidence The authors suggest that reformers today need to focus on ways to help teachers improve instruction from the inside out instead of decreeing change by remote control and that reformers must also keep in mind the democratic purposes that guide public education

Technological Utopianism in American Culture Howard P. Segal, 2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal s acclaimed work on utopian visionaries

transatlantic context newly defined by political revolution Chapters examine political writing as a means for Americans to explore the Anglo American relationship the appropriation of John Bull by American writers the challenge the War of 1812 posed to the reconstructed Anglo American relationship the Paper War between American and English authors that began around the time of the War of 1812 accounts by Americans lured to England as a place of poetry story and history and the work of American writers who dissected the Anglo American relationship in their fiction Carefully contextualised historically Clark s persuasive study shows that any attempt to examine what it meant to be American in the New Nation and immediately beyond must be situated within the context of the Anglo American relationship

The Politics of Consolation Christina Simko,2015-07-28 What meaning can be found in calamity and suffering This question is in some sense perennial reverberating through the canons of theology philosophy and literature Today The Politics of Consolation reveals it is also a significant part of American political leadership Faced with uncertainty shock or despair Americans frequently look to political leaders for symbolic and existential guidance for narratives that bring meaning to the confrontation with suffering loss and finitude Politicians in turn increasingly recognize consolation as a cultural expectation and they often work hard to fulfill it The events of September 11 2001 raised these questions of meaning powerfully How were Americans to make sense of the violence that unfolded on that sunny Tuesday morning This book examines how political leaders drew upon a long tradition of consolation discourse in their effort to interpret September 11 arguing that the day s events were mediated through memories of past suffering in decisive ways It then traces how the struggle to define the meaning of September 11 has continued in foreign policy discourse commemorative ceremonies and the contentious redevelopment of the World Trade Center site in lower Manhattan
