Redefining Russian Society And Polity Mary E.a. Inappropriate Relationships Robin Goodwin,Duncan Cramer,2005-04-11 In one of the great euphemisms of our time an embattled President Clinton admitted to an inappropriate relationship with his White House intern Monica Lewinsky But what exactly is an inappropriate relationship For that matter what is an appropriate relationship And how can an understanding of the rules of appropriateness help us understand personal relationships in our modern world Contributors to this book discuss the personal boundaries and taboos of modern relationships Together they examine the power struggles

that can occur when individuals are involved in inappropriate relationships and the ways individuals in such a relationship may attempt to buffer themselves against sanctions or even embrace this relationship as an agent of social change. Representing work from a range of disciplines this collection will appeal to scholars, researchers, students and professionals working on relationships issues in areas across the social sciences including those working in the fields of social psychology, family studies, social anthropology, cultural studies and communication.

Global Responses to Terrorism Mary Buckley, Rick Fawn, 2004-02-24. This book examines how the world has reacted to and been affected by the terrorist attacks on September 11th, the ensuing war in Afghanistan and President George Bush's declaration of a war on terror as the first war of the 21st Century.

The NEBI YEARBOOK 2003 Pertti Joenniemi, Lars Hedegaard, Heikki Eskelinen, Bjarne Lindström, Karin Peschel, Carl-Einar Stalvant, 2012-12-06. Björn Tore Godal, Norwegian Ambassador to Germany, Chairman of the Editorial Advisory Board. Several of the contributions to the present volume of The NEBI Yearbook have been inspired by the fact that roughly speaking ten years have passed since the first steps were taken to initiate cross border co-operation in the Barents and Baltic Sea areas. One of the most important co-operative organisations in the European Northeast is the Council of the Baltic Sea States, which was launched in 1992. The Barents Euro-Arctic Council was established in 1993. An avalanche of co-operative and cross border initiatives has since hit this part of Europe with all kinds of actors participating: states, regional and municipal authorities, universities, national organisations, businesses and private interests. Even international organisations and actors from outside the immediate NEBI area have taken a special interest in this dynamic part of the world. Among the most important is the European Union whose Finnish inspired Northern Dimension initiative has become a permanent fixture. As many of the chapters in NEBI 2003 testify, integration in the NEBI area across old political and ideological borders and cultural and socio-economic divides that are among the most pronounced anywhere in the world has on the whole been a great success.

Women and Political Change Sue Bridger, 2016-07-27. This collection of essays looks at the impact on women of the political changes which have taken place in East Central Europe since the 1930s. It is unusual in combining a strong contemporary focus with re-evaluations of what the socialist experience has meant for women. It brings together specialists from both East and the West to offer insights into women's lives and responses to change in countries which have a shared legacy of state socialism yet are as culturally diverse as Russia and Germany, Poland and Estonia.

The Politics of Gender after Socialism Susan Gal, Gail Kligman, 2012-01-06. With the collapse of communism a new world seemed to open for the peoples of East Central Europe. The possibilities this world presented and the costs it exacted have been experienced differently by men and women. Susan Gal and Gail Kligman explore these differences through a probing analysis of the role of gender in reshaping politics and social relations since 1989. The authors raise two crucial questions: How are gender relations and ideas about gender shaping political and economic change in the region? And what forms of gender inequality are emerging as a result? The book provides a rich understanding of gender relations and their

significance in social and institutional transformations Gal and Kligman offer a systematic comparison of East Central European gender relations with those of western welfare states and with the presocialist bourgeois past Throughout this essay the authors attend to historical comparisons as well as cross regional interactions and contrasts Their work contributes importantly to the study of postsocialism and to the broader feminist literature that critically examines how states and political economic processes are gendered and how states and markets regulate gender relations Democracy and the Media Richard Gunther,Anthony Mughan,2000-08-28 This book presents a systematic overview and assessment of the impacts of politics on the media and of the media on politics in authoritarian transitional and democratic regimes in Russia Spain Hungary Chile Italy Great Britain Germany Japan the Netherlands and the United States Its analysis of the interactions between macro and micro level factors incorporates the disciplinary perspectives of political science mass communications sociology and social psychology These essays show that media s effects on politics are the product of often complex and contingent interactions among various causal factors including media technologies the structure of the media market the legal and regulatory framework the nature of basic political institutions and the characteristics of individual citizens The authors conclusions challenge a number of conventional wisdoms concerning the political roles and effects of the mass media on regime support and change on the political behavior of citizens and on the quality of democracy **Why Did the Soviet Union Collapse?: Understanding Historical Change** Robert Strayer,2016-06-16 Taking the Soviet collapse the most cataclysmic event of the recent past as a case study this text engages students in the exercise of historical analysis interpretation and explanation In exploring the question posed by the title the author introduces and applies such organizing concepts as great power conflict imperial decline revolution ethnic conflict colonialism economic development totalitarian ideology and transition to democracy in a most accessible way Questions and controversies and extracts from documentary and literary sources anchor the text at key points This book is intended for use in history and political science courses on the Soviet Union or more generally on the 20th century *A History Of Russia Volume 2* Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world *Kosovo* Mary Buckley,Sally Cummings,2001-01-01 Nato intervention in Kosovo marked a major turning point in post cold war international relations While some western commentators argued that it was the first war to be fought on purely moral grounds Serbian Russian and Chinese assessments were sharply different This highly original addition to the literature on Kosovo highlights the importance of perspective to an understanding of both the causes and consequences of war It makes clear that the conceptual lenses paradigms or frameworks through which political actors view reality in turn affect their understanding of

the behaviour of others and their reactions to it The authors a team of regional experts on the countries covered examine the way the war has been understood in countries involved in and peripheral to the conflict Their aim is to provide a broad yet highly nuanced picture of this focal point of Balkan unrest The book opens with an introduction to the historical and regional context of the conflict The authors go on to present twelve case studies ranging from Serbia and the other former Yugoslav republics to the USA and to China These detailed regional studies highlight the considerable variation in the key states perceptions of their national interest and their perceptions of what constitutes legality or legitimacy In each case domestic constraints are explored and the ways in which differing perspectives of political and military leadership fed into the crisis are examined Further thematic chapters determine the war s consequences and the lessons to be drawn in terms of the wider issues of refugees humanitarian intervention European security and geopolitics
