## **Redefining Europe New Patterns Of Conflict And Cooperation:**

**Redefining Europe** Hugh Miall,1994 At a time of great fluidity and upheaval across the whole European continent this book offers an authoritative assessment of the key forces defining Europe's post Cold War order It covers both Eastern and Western Europe and includes a chapter on Russia and the CIS Four years after the end of the Cold War the shape of international politics in the wider Europe is still unclear This book brings together an international group of authors to consider the dynamics of change in the region

**Redefining Europe** Hugh Miall,1994 **Rethinking the European Union** Alice Landau,Richard Whitman,2016-07-27 Rethinking the European Union draws together contributors from across Europe to reflect upon methods of conceptualising the European Union within both changing global and European contexts The book takes the themes of institutions interests and identities as its organising framework within which each contributor offers a distinctive commentary on the EU The outcome is a text that goes beyond an exploration of the existing methods of conceptualising the European integration process and reflects upon the nature of the EU itself

**Rethinking Security in Post-Cold-War Europe** William Park,G.Wyn Rees,2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned

The Emerging Euro-Mediterranean System Dimitris Xenakis,Dimitris N. Chrysoschoou,2001 Focusing on the principal challenges facing the Euro Mediterranean partnership since the signing of the Barcelona Declaration in November 1995 this study assesses past European policies towards the region

**The EU-Russia Strategic Partnership** Hiski Haukkala,2010-02-25 This book explores why despite the initial promise and enthusiasm at the beginning of the 1990s the European Union EU and the Russian Federation have encountered severe difficulties in developing their institutionalised relationship

**Euro-Mediterranean Security: A Search for Partnership** Sven Biscop,2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this

approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy *Germany's Civilian Power Diplomacy* C. Arora,2006-08-07 This book assesses the diplomatic path of influence taken by German decision makers during the early nineties in pursuit of their cautiously articulated interest in and commitment to the eastward enlargement of NATO **What is Europe?** The Open University,1995-01-01 This 10 hour free course explored the different understandings of Europe that underlie the debates and disputes over the development of Europe Recasting the European Order James Sperling,Emil Joseph Kirchner,1997 The dramatic events since the late 1980s which witnessed the end of the Cold War the dissolution of the Warsaw Pact the fragmentation of the Soviet Union and the emergence of a united Germany have set in motion a recasting of the European security order **European Identity in the Context of National Identity** Bettina Westle,Paolo Segatti,2016 This book provides an unprecedented insight into the multiple ways through which citizens of 16 countries connect their own national identity to European identity

**Federalism Doomed?** Andreas Heinemann-Grüder,2002-01-01 The conceptual uncertainty when dealing with processes of integration and disintegration in Europe is striking because traditional notions of the nation state constitutionalism sovereignty and federalism do not account for emerging realities in either Western or Eastern Europe This volume explores the complex inter relationship between federal arrangements and their effects on integrating multi ethnic societies in Europe and takes stock of current debates on the effects of federalism on integration and disintegration in Eastern and Western Europe For the first time federalism is addressed in a pan European context and an attempt is made to look for remedies to overcome nationalism in both East and West within a federalist institutional framework Dangerous Peace Alpo M Rusi,2021-11-28 Alpo Rusi provides a broad vision of the strategic landscape for the coming century warning against dangers inherent in the emerging world order He predicts a more complex and potentially hostile multipolar system based on four or five rival trading blocs Despite the centrality of trade rivalries the role of military force will not vanish Although he considers superpower conflict unlikely he expects that lower level conflicts will become more prevalent Consequently Rusi believes that the trading blocs will have to actively pursue security arrangements that will safeguard the traditional role of the nation state Examining the international system from a geopolitical and geoeconomic perspective Alpo Rusi provides a broad vision and bold forecast of the emerging strategic landscape for the coming century An asymmetrical world system is emerging The United States is now the sole true world power it forms the core of a unipolar order characterized by an uneven division of world power and economic resources Rusi argues however that this postCold War order will not survive into the next century Rusi suggests that the power vacuum in the former Soviet empire will be filled by China in Asia and by the European Union in Eastern Europe Russias disintegration and decline in world power status will continue but may have reached its bottom line economically and Islam will gain strength in various parts of the world embracing a new international role He also

predicts that the world will be split into four or five distinct trading blocs A European bloc formed around the European Union an East Asian bloc potentially strong interventionist and even aggressive formed around China and the Singapore economic region Japan as a strong and still competitive economic power and a Pan American bloc also strong but potentially isolationist formed around the United States One of the question marks will be the future ability of an orthodox Russia to facilitate conditions for an economic space According to Rusi these trading blocs will develop new political or geopolitical interests For example the European bloc will extract fossil fuels from the former Soviet Union instead of the Middle East thereby changing the existing global trade system Each bloc will have certain internal problems the Europeans will be linked to the unstable successors to the Soviet Union the East Asian Bloc will have to contemplate whether China's economic growth and geopolitical expansions will create a new bipolar world in the early twenty first century and the Pan American bloc will struggle with continuing political and economic instability in South and Central America Finally Rusi warns that it is crucial for the European and Pan American blocs to build upon the traditional Euro Atlantic relationship Without it he argues a truly polarized and potentially hostile bloc system will take root most likely lining the Western pan regions against China's expansiveness

Castle on a Hill Rick Fawn, Director of the Institute of Middle East Central Asia and Caucasus Studies Rick Fawn, 2024-12-02 This recasting of modern European history offers new insights into the Visegrad Group's significant role in changing political mind sets and refashioning the continent Rick Fawn has written the first book length account of the Visegrad Group of states which consists of the Czech Republic the Slovak Republic Poland and Hungary Named after Hungary's Visegrád Castle the group's significance includes changing international perceptions of Central Europe since the fall of communism and securing membership in NATO and the European Community It plays an ongoing role today in regional solidarity and politics within the European Union and NATO Castle on a Hill is built on years of uniquely obtained oral and written sources and on the author's sustained engagement in this region Fawn examines Visegrad's origins and major accomplishments and what makes it a unique regional organization In addition to its positive contributions Fawn identifies Visegrad's weaknesses oversteps and missteps including its controversial propulsion to international fame for successfully derailing the European Union's plans to resettle non Europeans during the 2015 migrant crisis This book also offers insights for the wider study of the phenomenon of regionalism in international relations Castle on a Hill shows how the Visegrad Group has changed Central Europe largely for the better and it will appeal to scholars and policymakers interested in international politics European history and the study of regions and regionalism in international relations

**Yugoslavia's Wars: The Problem from Hell , Europe's Experimental Union** Brigid Laffan, Rory O'Donnell, Michael Smith, 2013-01-11 Europe's Experimental Union challenges conventional writings on European integration by situating the analysis of the EU in the context of changing patterns of political and economic order The authors conclude that the union is not evolving towards a federal superstate but rather is an arena of deep economic integration governed by a

prismatic polity characterised by innovation experimentation pragmatism decentralisation and devolution Although it may seem unsettled this book reveals that in fact the experimental nature of the EU enables it to respond to multiple agendas and Europe's diversity in a flexible manner

*Evolution and Devolution* Tom Lansford, 2019-07-18 This title was first published in 2000 This study bridges the gap in the otherwise rich literature on European security through its analysis of past and present efforts at military integration Previous works have concentrated on the transatlantic relationship or the intra European dimension of the effort to create autonomous defense capabilities or even on the ramifications of the changed defense market *Evolution and Devolution* combines these themes and subjects The work integrates these topics against the backdrop of the current scholarly debate over international relations by examining the changing nature of sovereignty and the evolution of the nation state In the end the course toward more integration and yet continued participation of the U S is shown to be the optimum course for EU member states in light of the security threats and constraints facing national governments

**Post-Cold War Identity Politics** Marko Lehti, David J Smith, 2004-11-23 During the past decade northern Europe has started to assume an identity of its own Categories of East and West have become blurred challenging as well the idea of what it means to be Nordic *Post Cold War Identity Politics* maps this process in Scandinavia Looking at projects designed to help regional development in the Nordic countries it assesses whether a new way of defining Northernness is emerging The book highlights the existence of co existing and to some extent competing region building projects in northern Europe It demonstrates how they are all efforts by existing nations to redefine their role in Europe at a time of change and points to how they might develop in the future

*Security Challenges in the Euro-Med Area in the 21st Century* Stephen C. Calleya, 2012 This book provides an empirical analysis of security challenges in the Euro Mediterranean area and highlights the political military economic societal and environmental issues that are already serving as a source of instability in the region

**Transformation at Work** Anna Pollert, 2000-01-13 The book is well written and clearly structured bringing together much dispersed material The most interesting part of the book is the case study of the Czech engineering firm CKD The case study gives an insight into the continuing processes of transition transition is a process rather than a jump from Socialism to capitalism The author provides solid evidence on the ways in which adjusting to the market has proved painful and in the end unsuccessful for CKD which has been merged with another firm Overall *Transformation at Work* provides a valuable insight into the realities of the transition process at the enterprise level *Employee Relations* In this book Anna Pollert questions the values hidden in the burgeoning literature on transformation and addresses the main concerns arising from these In exploring the key issues of post communist transformation the author discusses important theoretical issues about the nature of change and continuity such as historical socio economic and political effects of transformation the broad problems of how workers and their organizations respond to change from command to capitalist economies and case studies of how managers workers and trade unionists experience these changes within their organizations *Transformation at Work*

explores the key issues of post communist transformation in Eastern Europe The author discusses important aspects of the nature of change and continuity including historical socio economic and political effects how workers and their organizations respond to change from command to capitalist economies and how managers workers and trade unionists experience change within their organizations
