The Seduction of the Female Body Eva De Clercq,2013-02-18 Drawing on the ambiguous meaning of the notion of vulnerability the book offers an innovative approach to the topic of the female body in relation to women s rights going beyond the age old dichotomy of casting women as either passive victims or conscious agents *The Body* Mariam Fraser,Monica Greco,2020-07-24 The body has become an increasingly significant concept in recent years and this Reader offers a stimulating overview of the main topics perspectives and theories surrounding the issue This broad consideration of the body presents an engagement with a range of social concerns from the processes of racialization to the vagaries of fashion and performance art enacted as surgery on the body Individual sections cover issues such as the body and social dis order bodies and identities bodily norms bodies in health and dis ease bodies and technologies Containing an extensive critical introduction contributions from key figures such as Butler Sedgwick Martin Scheper Huges Haraway and Gilroy and a series of introductions summarizing each section this Reader offers students a valuable practical guide and a thorough grounding in the fascinating topic of the body Dreambody Arnold Mindell,2011 Bridging the gaps between depth psychology somatic psychology spirituality and energy based mind body practices Dreambody is the foundational introduction to process oriented psychology by its founder Mindell an MIT physicist and Jungian analyst The Consumer Society Jean Baudrillard,2016-12-13 Jean Baudrillard s classic text was one of the first to focus on the process and meaning of consumption in contemporary culture Originally published in 1970 the book makes a vital contribution to current debates on consumption The book includes Baudrillard s most organized discussion of mass media culture the meaning of leisure and anomie in affluent society A chapter on the body demonstrates Baudrillard s extraordinary prescience for flagging vital subjects in contemporary culture long before others This English translation begins with a new introductory essay The Image of St Francis Rosalind B. Brooke,2006-11-30 An important reappraisal of the image of St Francis as it was recorded in literature documents architecture and art Highly illustrated throughout including colour and black and white plates and containing key extracts from the major sources this book bridges the boundaries of history and the history of art *Religion and the Order of Nature* Seyyed Hossein Nasr,1996 Nasr argues that the current ecological crisis has been exacerbated by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the belief that nature is sacred Yoga Journal ,1977-09 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty The Show and the Gaze of Theatre Erika Fischer-Lichte,Jo Riley,1997 Theatre in some respects resembles a market Stories rituals ideas perceptive modes conversations rules techniques behavior patterns actions language and objects constantly circulate back

and forth between theatre and the other cultural institutions that make up everyday life in the twentieth century These exchanges which challenge the established concept of theatre in a way that demands to be understood form the core of Erika Fischer Lichte's dynamic book Each eclectic essay investigates the boundaries that separate theatre from other cultural domains Every encounter between theatre and other art forms and institutions renegotiates and redefines these boundaries as part of an ongoing process Drawing on a wealth of fascinating examples both historical and contemporary Fischer Lichte reveals new perspectives in theatre research from quite a number of different approaches Energetically and excitingly she theorizes history theorizes and historicizes performance analysis and historicizes theory Core Sociological Dichotomies Chris Jenks, 1998-07-08 In this sociology text the contributors provide an introduction to the subject without over simplifying or writing down to their audience The book aims to furnish undergraduates with the knowledge that will help them to understand and practice sociology and also to develop a self perpetuating sociological imagination to enable them to think through new issues and new problems It consists of a series of specially commissioned chapters around binary or dichotomous themes Although many sociologists are critical of dichotomous models of sociological theory and research the device crops up again and again in the history and practice of the subject Jenks and his colleagues use the dichotomies to situate students in current sociological arguments and topical debates For example by examining contradictory pairs of concepts like structure agency local global continuity change students are introduced to alternative explanations for aspects of human conduct over a whole series of issues Yoga Journal, 1977-09 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty

Theorizing Rituals, Volume 1: Issues, Topics, Approaches, Concepts Jens Kreinath, J.A.M. Snoek, Michael Stausberg, 2018-08-14 Volume one of *Theorizing Rituals* assembles 34 leading scholars from various countries and disciplines working within this field The authors review main methodological and meta theoretical problems part I followed by some of the classical issues part II Further chapters discuss main approaches to theorizing rituals part III and explore some key analytical concepts for theorizing rituals part IV The volume is provided with extensive indices **Etienne Decroux and his Theatre Laboratory** Marco de Marinis, 2023-05-31 Etienne Decroux and His Theatre Laboratory is based on the long awaited translation of Marco De Marinis' monumental work on mime in the twentieth century *Mimo e teatro nel Novecento* 1993 Now revised and updated the volume focuses specifically on the seminal role played by French mime artist and pedagogue Etienne Decroux Mime is a theatrical form of ancient tradition In the nineteenth century it saw both apogee and crisis in the west with the realistic and gesticulating white pantomime In the twentieth century it underwent a radical overhaul transforming into an abstract corporeal art that shunned imitation and narrative and which instead tended towards

the plastic elliptic allusive and symbolic transposition of actions and situations This book is the result of detailed investigations based on contemporary accounts and obscure or unpublished materials Through the examination of the creative pedagogical and theoretical work of the inventor of the new mime art Etienne Decroux De Marinis focuses on the different assumptions underlying the various modes of the problematic presence of mime in the theatre of the twentieth century from the utopia of a pure theatre attributed to the sole essence of the actor to its decline into a closed poetic genre often nostalgically stuck in the past from mime as a pedagogical tool for the actor to mime as an expressive and virtuosic means in the hands of the director

Excitement Processes Jan Haut, Paddy Dolan, Dieter Reicher, Raúl Sánchez García, 2017-07-18 The book focuses on major aspects of Norbert Elias's social theory through research on supposed minor topics such as manners sports leisure and cultural practices While many of his publications became essential for scholars in the different disciplines concerned the development of the figurational approach towards these fields was not always completed The edited volume picks up some loose ends by including archive manuscripts by Elias on the genesis of sport developments of cultural practices and the sociology of the body which are published here for the very first time Based on critical reviews of these texts international experts show how the new material adds up to Elias's oeuvre and how it can be fruitfully applied to current research

Performing the Body/Performing the Text Amelia Jones, Andrew Stephenson Nfa, Andrew Stephenson, 2005-08-12 This book explores the new performativity in art theory and practice examining ways of rethinking interpretive processes in visual culture Since the 1960s visual art practices from body art to minimalism have taken contemporary art outside the museum and gallery by embracing theatricality and performance and exploding the boundaries set by traditional art criticism The contributors argue that interpretation needs to be recognised as much more dynamic and contingent Offering its own performance script and embracing both canonical fine artists such as Manet De Kooning and Jasper Johns and performance artists such as Vito Acconci and Gunter Brus this book offers radical re-readings of art works and points confidently towards new models for understanding art

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 The *Metaphysics of Night* acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion

rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture
