Reference Services for Archives and Manuscripts Laura B. Cohen,1997 From the creation and dissemination of finding aids for electronic resources to the implementation of marketing strategies to increase support and strengthen service Reference Services for Archives and Manuscripts shows you how to thrive in the changing world of archival reference. Intended to foster an appreciation of the issues both within and beyond the field of archives this book reveals that today's archivist is straddling the world of the traditional with the world of the new. *Providing Reference Services for Archives & Manuscripts* Mary Jo Pugh,2005 **Reference Services for Archives and Manuscripts** ,1996 **Reference Services in Archives** Lucille Whalen,2019-12-05 In this comprehensive volume on the reference process in archives first published in 1986 experts offer a wealth of ideas on making both the reference archivists and the users' tasks more exciting and enjoyable. *Managing Historical Records Programs* Bruce W. Dearstyne,2000-09-20 Historical records are a focus and collecting area for many historical societies, history museums and other historical agencies. Yet many historical records programs face special challenges and needs from inadequate resource levels, physical preservation problems, underdeveloped documentation, appraisal and collecting policies, etc. In *Managing Historical Records* Dearstyne's goal is to foster stronger, more vibrant historical records programs by introducing archival work and describing strategies, approaches, principles and practices of strong programs. Lots of examples, checklists and appendices help in finding solutions and approaches. A must-have resource for anyone considering starting a historical records program or who already has one and wants to strengthen it. **Encyclopedia of Library and Information Sciences** John D. McDonald,Michael Levine-Clark,2017-03-15 The *Encyclopedia of Library and Information Sciences* comprising of seven volumes now in its fourth edition compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries. As more people encounter archives for scholarly and avocational research as part of creative pursuits or to exercise their rights as citizens to access records, the possibilities for how collections are used will continue to evolve. Archivists need to be familiar with who their users are, understand why they're using archival collections and engage in outreach so that they can provide excellent reference services. *Reference and Access for Archives and Manuscripts* outlines the various components of providing physical, intellectual and virtual access, acquiring reference knowledge and skills, navigating legal regulations and ethics and designing use policies and effective outreach. Cheryl Oestreicher contextualizes how all of these components fit

within other archival functions and offers strategies and detailed practices for creating comprehensive reference programs that archivists can adapt for any type of institution Both new and experienced archivists will find Reference and Access for Archives and Manuscripts a solid foundation on which to add their own ideas for how to bring people into the archives as well as bring archives to the people Readers are encouraged to examine these concepts and practices in conversation with others and to consider how archivists can continue to advance reference and access
