Reflective Wisdom Richard Taylor On Issues That Matter:

Reflective Wisdom Richard Taylor,1989 Cowboy Metaphysics Peter A. French,2000-01-01 For many of us the image of the cowboy hero facing off against the villain dominates our memories of the movies Peter French examines the world of the western one in which death is annihilation the culmination of life and there is nothing else In that world he finds alternatives to Judeo Christian traditions that dominate our ethical theories alternatives that also attack the views of the most prominent ethicists of the past three centuries More than just a meditation on the portrayal of the good the bad and the ugly on the big screen French s work identifies an attitude toward life that he claims is one of the most distinctive and enduring elements of American culture **Meaning in Life, Volume 1** Irving Singer,2009-12-30 An acclaimed philosopher views the search for meaning in life as the search for a mode of creativity that will make our lives meaningful What is meaning in life Does anything really matter How can a life achieve lasting significance How can we explain the human propensity to struggle for ideals How is meaning related to contentment happiness joy Is meaning something we discover or do we create it What is the nature of value and what are its sources in human experience Can there be a meaning in life without religious faith What is the meaning of death Is life worth living What would enable us to have a love of life Meaning in life writes philosopher Irving Singer and the meaning in our own lives results from creative efforts on our part It is not a prior reality awaiting our discovery Though we talk about a search for meaning what we are seeking is primarily a mode of creativity that will make our lives meaningful In *The Creation of Value* the first volume of his *Meaning in Life* trilogy Singer studies the nature of imagination idealization and love in the context of humanity s attempt to define itself through the pursuit of meanings and values that it creates Singer confronts life s most troubling problems the meaning of death the presence of anxiety in daily existence the conditions needed for us to have a life worth living and the possibility of a love of life in others as well as in ourselves Holy Writ Arie-Jan Kwak,2016-04-22 It has often been remarked that law and religion have much in common One of the most conspicuous elements is that both law and religion frequently refer to a text that has authority over the members of a community In the case of religion this text is deemed to be holy in the case of law some such as the American constitution are widely held as sacred In both examples priests and judges exert a duty to tell the community what the founding document has to say about contemporary problems This therefore involves an element of interpretation of the relevant authoritative texts and this book focuses on such methods of interpretation in the fields of law and religion As its starting point scholars from different disciplines discuss the textualist approach presented here by American Supreme Court Judge and academic scholar Justice Antonin Scalia not only from the perspective of law but also from that of theology The result is a lively discussion which presents a range of diverse perspectives and arguments with regard to interpretation in law and religion A Book About Books, Volume II of III E. H. Bernstein,2020-05-04 This book is Volume II of a three volume book plus accompanying website www.bookaboutbooks.com which adds to subjects already in the book or presents

some books and subjects not contained in the books The other volumes are available from the same booksellers as this volume Note this 2024 publication date is a corrected version of the original version of this volume published in 2020 A Book about Books discusses what nonfiction books and subjects the author believes are important to know about This book tries to point to problems in how we live and to see if books have any answers Even though the books are complete the author will update the website periodically in the future E H Bernstein is a former librarian turned author The subtitle of the book describes the author s objective A handbook in three volumes to a choice of essential books writers and subjects in order to understand the world we live in about big questions and possible answers about books and writers that may improve people s lives about neglected writers and other books and subjects A Book about Books attempts to share what the author has learned from nearly 50 years of nonfiction reading and to provide the reader with samples of the most important authors and subjects from that reading While the book is based on research it is intended to be a handbook or guide by trying to make that research understandable to the general reader and to students and for teachers by pointing to what the author believes is missing from today s education A curriculum proposal for college teachers is on the author s website Note about how the volumes are related each chapter is on a separate subject So the chapters can be read individually but the full message requires reading all the volumes Volume I is important but preliminary to the more important Volumes II and III Note also that the book is not just about books since other sources are also mentioned Note that the author believes we should listen to many voices so the book draws on many types of writers from different times and countries The author says A contemporary writer once said that one of the purposes of writing is that books should be useful I hope that my book will be of use **The Secular Outlook** Paul Cliteur,2010-09-29 The Secular Outlook In Defense of Moral and Political Secularism shows how people can live together and overcome the challenge of religious terrorism by adopting a secular outlook on life and politics Shows how secularism can answer the problem of religious terrorism Provides new perspectives on how religious minorities can be integrated into liberal democracies Reveals how secularism has gained a new political and moral significance Also examines such topics as atheism religious criticism and free speech The Subtlety of Emotions Aaron Ben-Ze'Ev,2001-08-24 An informal yet rigorous exploration of human emotions in all their complexity and subtlety Why do we cry at the movies What is the best way to manage destructive feelings such as jealousy Although emotions pervade our lives their nature causes and effects have only recently been studied by social scientists and philosophers Despite growing scientific interest in the subject empirical findings have not yet caught up with our intuitive knowledge In this book Aaron Ben Ze ev carries out what he calls a careful search for general patterns in the primeval jungle of emotions In an engaging informal style he draws on a variety of theoretical approaches and popular sources to produce a coherent account of emotions in all their subtlety All of the ideas are illustrated with examples drawn from everyday life The book is organized into two parts The first presents an overall conceptual framework for understanding emotions It looks at the typical

characteristics and components of emotions distinguishes emotions from other affective phenomena classifies the emotions and covers such related issues as emotional intelligence regulating emotions and emotions and morality The second part discusses individual emotions including envy jealousy pleasure in others misfortune pity compassion anger hate disgust love sexual desire happiness sadness pride regret and shame The text is laced with insightful and often amusing quotations from sources ranging from Mae West to Montesquieu **A New Introduction to Legal Method** Paul Cliteur,Afshin

Knowledge, Teaching and Wisdom Keith Lehrer,B.J. Lum,Beverly A. Slichta,N.D. Smith,2013-04-17 This book derives from a 1993 National Endowment for the Humanities Summer Institute on Knowledge Teaching and Wisdom The Institute took place at the University of California Berkeley and was co directed by Keith Lehrer and Nicholas D Smith The aims of the Institute were several we sought to reintroduce wisdom as a topic of discussion among contemporary philosophers to undertake an historical investigation of how and when and why it was that wisdom faded from philosophical view and to ask how contemporary epistemological theories might apply to the obviously related subjects of teaching and wisdom In recruiting participants Lehrer and Smith put the greatest emphasis on those with professional interests in epistemology and the history of philosophy of the ancient Greeks especially ancient Greek philosophy because in the writings all three subjects of the Institute were explicitly related and discussed But in addition to these two groups some effort was made also to include others with academic specializations in a variety of fields other than epistemology and the history of philosophy to ensure that a broad perspective could be achieved in our discussions To an obvious extent the papers in this book reflect the recruitment emphases and variety They also testify to the extent that the Institute managed to bring life to our subjects and to raise very old questions in a contemporary context *American Philosophical Quarterly* Nicholas Rescher,1993

Meaning in Life Irving Singer,1992 The nearest thing to a rational discernment of meaning in life Irvin Singer suggests is the discernment of goals and values that we can find gratification and fulfillment in pursuing He offers wise counsel to that end along with rewarding glimpses into a wide range of literature **The New Scholasticism** Edward Aloysius Pace,James Hugh Ryan,1989 Includes section Book Reviews *The Publishers' Trade List Annual* ,1995 Proceedings and Addresses of the American Philosophical Association American Philosophical Association,2004 List of members in v 1 The Philosopher's Index ,2008 Vols for 1969 include a section of abstracts
