# Reflexology A Patients Guide

**Betty J. Ackley**

## **Reflexology A Patients Guide:**

*Reflexology* Nicola M. Hall,1986      **The Complete Illustrated Guide to Reflexology** Inge Dougans,1996 This volume introduces the art and science of reflexology describing the typical treatments and including many practical examples and case studies Reflexology is an alternative medicine involving the physical act of applying pressure to the feet hands or ears with specific thumb finger and hand techniques without the use of oil or lotion It is based on what reflexologists claim to be a system of zones and reflex areas that they say reflect an image of the body on the feet and hands with the premise that such work effects a physical change to the body      Reflexology INGE DOUGANS,2016-01-28 Reflexology is a form of therapeutic foot massage based on the tried and tested theory that the human body has its own internal energy lines or acupuncture meridians In this clearly written introduction to the subject Inge Dougans shows how to find and use the reflexology points and the associated meridians on the foot in order to restore the body to its state of natural balance prevent ill health and assist relaxation Learn how reflexology and the meridian theory work Follow the illustrated step by step reflexology techniques Use reflexology to balance the body s functions Improve the body s circulation and general health      **N101 - Foot Reflexology Course** Donald A. Bisson,Ontario College of Reflexology,2001      Secrets of Reflexology Chris McLaughlin,Nicola Hall,2017-08-15 Here is an exciting new series focused on today s most popular healing approaches and spiritual insights Presented in a clear concise format the Secrets of Series demystifies popular alternative approaches and teaches proper application providing a perfect balance of theory and practice Learn how to balance negative emotions with Bach Flower Remedies or study the use of pressure points in Reflexology Perfect for new or casual readers these handbooks are simple to follow yet thorough and authoritative Covering a wide range of topics they appeal to readers from every background      The New Reflexology Inge Dougans,2006-04-11 With practical examples throughout The New Reflexology is a complete teaching handbook perfect for all levels This revolutionary method will help you get the best from reflexology to relieve stress alleviate pain and combat illness **BOOK JACKET      Reflexology II (Speedy Study Guides)** Speedy Publishing,2014-07-03 Reflexology is a form of therapeutic massage concerning the feet that involves applying pressure to particular areas such as the arch Each specific area on the sole of a foot is aligned to a particular area of the internal or exterior of the human body By applying pressure to a specific part of a foot clients feel relief from health conditions such as stress or anxiety A reference guide is necessary for students learning about reflexology in a massage school

*Complementary Medicine for Nurses, Midwives and Health Visitors* Brian Booth,Joanna Trevelyan,1994-11-11 The most up to date and comprehensive overview of the 14 therapies that nurses midwives and health visitors have expressed particular interest in Each therapy is discussed in detail and the implications for use in health care are examined The vexed question of research is dealt with throughout and the book ends with a look at likely future trends This text written in response to the growth of interest in complementary medicine amongst health professionals and the general public is a must

for those nurses midwives and health visitors considering incorporating the use of complementary medicine into their practice

*Discovering the Body's Wisdom* Mirka Knaster, 1996 An informative guide to the principles theories and practices of Eastern and Western body therapies explains how to get the most out of some seventy five different treatment approaches from massage and yoga to Roling and reflexology Original

**Principles of Reflexology** Nicola Hall, Elisabeth Shaw, 2013 Each book offers an overview of a particular type of alternative medicine in a concise format that will not overwhelm readers new to the subject Original

**Historical Dictionary of New Age Movements** Michael York, 2004 The Historical Dictionary of New Age Movements examines various New Age concepts spokespeople and leaders a range of human potential and self help practices countercultural spiritual developments and different groups and organizations that identify themselves as New Age without judging or categorizing them More than 240 entries make this dictionary a valuable resource for students practitioners and serious academics

BOOK JACKET

**The Art of Reflexology** Inge Dougans, Suzanne Ellis, 1992 Shows how to find and use the reflexology points on the foot which relate to different parts of the body in order to restore the balance of energy to prevent ill health and also to assist relaxation

Clinical Reflexology Denise Tiran, Peter A. Mackereth, 2010-12-01 Clinical Reflexology takes the practitioner on a journey of examination critical review and debate prior to making recommendations for best practice in reflexology The phenomenal rise in interest by health professionals in Complementary and Alternative Medicine CAM and in particular touch therapies has led to a need for texts that relate and integrate theory and practice to health care settings Clinical Reflexology does this expanding and exploring concepts introduced in the first edition Many CAM books have been written for therapists working in private practice but many of these practitioners are also now working in healthcare settings This book allows both groups to facilitate the greater integration of clinical reflexology in clinical practice The book is divided into two sections The first deals with key themes including an up to date review of the research evidence and appropriate methodology safe and supported practice and integration issues All these themes are explored and discussed utilizing the available literature analysis of models and concepts and are related specifically to health care practice The second section focuses on the clinical application of reflexology and how it can be best adapted to the context The contributors are committed pioneers in their field with a track record of integrating reflexology within clinical settings Many are teachers coordinators of therapy services and supervisors

ABOUT THE AUTHORS Dr Peter Mackereth is the Clinical Lead for Complementary Therapies and Smoking Cessation Services at The Christie NHS Foundation Trust Manchester He is a registered nurse and has worked in intensive care neurology and oncology Peter has an MA in Medical Ethics and has completed a PhD project examining reflexology vs relaxation training for people with Multiple Sclerosis An author and renowned speaker Peter has held academic post in number of universities most recently as Reader in Integrative Health at the University of Derby Denise Tiran a midwife lecturer and reflex zone therapist is an internationally acclaimed authority on complementary therapies in pregnancy and

childbirth She is Director of Expectancy the leading provider of professional education on the safe use of complementary therapies in maternity care including a special pregnancy course for reflexologists Her latest book *Reflexology for Pregnancy and Childbirth* was published in January 2010

**Symptom Management Guidelines for Oncology Nursing** Anne Katz, 2024-03-16 Uses a systems based approach to for rapid access to symptoms commonly experienced during and after treatment Written in an easy to read format for use in daily practice this evidence based resource delivers the most current comprehensive clinical guidelines for key pharmaceutical and supportive interventions with patients suffering from cancer The book is distinguished by its systems based approach which addresses from head to toe the symptoms commonly experienced by cancer patients during and after treatment Each section of the book offers a comprehensive examination of common cancer symptoms along with clinical guidance on the most effective means of management Sections cover general symptoms fatigue pain alopecia as well as those experienced in specific areas including gastrointestinal genitourinary pulmonary neurological cutaneous and psychosocial Chapters within each section consistently address such salient issues as prevalence contributing factors assessment and management along with a supporting case study and review questions to reinforce information Textboxes and callouts pinpoint critical information throughout Ancillaries include an Instructor s PowerPoint slide deck Key Features Delivers evidence based guidance for oncology specialists and for those who care for individuals with cancer in their general practice Provides the most up to date information on key pharmaceutical and supportive interventions Highlights critical information with textboxes and callouts Includes a case study and review questions in each chapter to reinforce content Presents information based on established and validated guidelines from NCCN ONS ASCO NCI and others Includes PowerPoint slides for use by staff educators
