

Reflexology is an alternative health therapy that uses knowledge of reflex points to stimulate the body's natural processes. It is based on the principle that there are correspondences between the organs of the body and parts of the feet, hands and ears. Reflexology is a non-invasive therapy that aims to improve the circulation of blood, lymph and energy in the body, and to release tension and stress. The technique of reflexology involves massaging these reflex points with the fingers, thumbs and palms in order to treat them, and thereby cause organs connected to the points.
