Reform Of Prisoners 1830 1900:

The Reform of Prisoners Willam James Forsythe,2020-09-10 This study first published in 1987 focuses on Victorian approaches to the moral reformation of prisoners and aims to emphasise the ways in which the human value and social inclusion of prisoners were pursued The author begins by discussing the evangelical view of social problems and human value in early industrial Britain as well as the associationist psychological analysis of human attitude developed by theorists from John Locke to Jeremy Bentham The workings of these two theoretical frameworks in the practice of British prisons are then analysed arguing that by 1860 both theories were basic to the approach to the incarceration of wrongdoers After 1860 the picture changed radically to an unambiguous deterrent severity This was linked to a more scientific and evolutionist analysis of human conduct and attitude theological objections to reformism were also brought into play In the last forty years of the nineteenth century prisoners came to be seen as constitutionally inferior beings for whom no hope of reform could be generally entertained This title will be of interest to students of history and of criminology

A History of Women's Prisons in England Susanna Menis,2019-11-19 This book presents a revisionist prison history which brings to the forefront the relationship between gender and policy It examines women's prisons in England from the late 18th century to the beginning of the 20th century drawing attention to the detrimental effect the orthodox closed prison has on penal reform The text investigates the clash between what was conceptualised as desirable prison policy and the actual implementation and implications of such a penalty on the prisoner It challenges previous claims made about the invisibility of women prisoners in historical penal policy and provides an original analysis of the open prison taking HMP Askham Grange as a case study where the history of such an initiative is explored and debated

Crime and Law in England, 1750-1840 Peter King,2006-12-07 How was law made in England in the eighteenth and early nineteenth centuries Through detailed studies of what the courts actually did Peter King argues that parliament and the Westminster courts played a less important role in the process of law making than is usually assumed Justice was often remade from the margins by magistrates judges and others at the local level His book also focuses on four specific themes gender youth violent crime and the attack on customary rights In doing so it highlights a variety of important changes the relatively lenient treatment meted out to women by the late eighteenth century the early development of the juvenile reformatory in England before 1825 i.e. before similar changes on the continent or in America and the growing intolerance of the courts towards everyday violence This study is invaluable reading to anyone interested in British political and legal history

provincial England He explores the ways in which power was exercised and reconstructs the social and cultural foundations of political authority in provincial England Professor Eastwood demonstrates the crucial role played by local elites in policy making and shows how English public institutions and political culture can only be understood in terms of the long run development of the English state The Oxford History of the Prison Norval Morris, David J. Rothman, 1998 Ranging from ancient times to the present a survey of the evolution of the prison explores its relationship to the history of Western criminal law and offers a look at the social world of prisoners over the centuries

Religion, Public Life, and the American Polity Luis F. Lugo, 2003-06 Religion Public Life and the American Polity brings together ten essays exploring the continuing vitality of religion in American public life Featuring contributions by leading political scientists and legal scholars the volume locates current debates within the broader contexts of history society and constitutional theory The book opens with an investigation of the contending positions on church state relations in current American thought The next section offers fresh reappraisals of the thinking of the Founders especially the contributions of Madison and Jefferson some important challenges to conventional wisdom including the common view of Jefferson as a strict separationist emerge from this section The essays in the third section examine the relationship between religion and the law showing that the courts decisions in First Amendment cases reveal a tendency toward incoherence and

majoritarian bias In the final section the discussion extends to the more indirect and subtle ways in which religion and American liberal culture influence each other for better and for worse Taken together these essays shed a much needed light on how the state can accommodate the multiplicity of faiths held by its citizens especially as those faiths take on public expression beyond the institutional church *Prison Worlds* Didier Fassin, 2017-05-23 The prison is a recent invention hardly more than two centuries old yet it has become the universal system of punishment How can we understand the place that the correctional system occupies in contemporary societies What are the experiences of those who are incarcerated as well as those who work there To answer these questions Didier Fassin conducted a four year long study in a French short stay prison following inmates from their trial to their release He shows how the widespread use of imprisonment has reinforced social and racial inequalities and how advances in civil rights clash with the rationales and practices used to maintain security and order He also analyzes the concerns and compromises of the correctional staff the hardships and resistance of the inmates and the ways in which life on the inside intersects with life on the outside In the end the carceral condition appears to be irreducible to other forms of penalty both because of the chain of privations it entails and because of the experience of meaninglessness it comprises Examined through ethnographic lenses prison worlds are thus both a reflection of society and its mirror At a time when many countries have begun to realize the impasse of mass incarceration and question the consequences of the punitive turn this book will provide empirical and theoretical tools to reflect on the meaning of punishment in contemporary societies **Evangelicalism, Penal Theory and the Politics of Criminal Law** R. Follett, 2000-11-30 Following the abolition of the British slave trade in 1807 a group of politicians began to agitate for reform of England's bloody code of criminal statutes This examines the politics and propaganda of criminal law reform from 1808 to the Whig succession to power in 1830 **Architecture and Justice** Jonathan Simon, 2016-04-15 Bringing together leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society *Dictionary of Prisons and Punishment* Yvonne Jewkes, Jamie Bennett, 2013-01-11 Contemporary prison practice

faces many challenges is developing rapidly and is becoming increasingly professionalized influenced by the new National Offender Management Service As well as bringing an increased emphasis on skills and qualifications it has also introduced a new set of ideas and concepts into the established prisons and penal lexicon At the same time courses on prisons and penology remain important components of criminology and criminal justice degree courses This will be the essential source of reference for the increasing number of people studying in working in prisons and working with prisoners This Dictionary is part a new series of dictionaries covering key aspects of criminal justice and the criminal justice system and designed to meet the needs of both students and practitioners approximately 300 entries of between 500 and 1500 words on key terms and concepts arranged alphabetically designed to meet the needs of both students and practitioners entries include summary definition main text and key texts and sources takes full account of emerging occupational and Skills for Justice criteria edited by a leading academic and practitioner in the prisons and penology field entries contributed by leading academic and practitioners in prisons and penology

Unruly Women Karlene Faith, 2011-07-26 Winner of the VanCity Book Prize *Unruly Women* The Politics of Confinement institutionalized violence and sexual abuse against incarcerated women women loving women in prison motherhood inside prison battered woman syndrome Hollywood's formulaic women in prison films political education in prisons and acts of resistance inside and out Karlene Faith challenges misconceptions of deviant women and celebrates the unruly woman the unmanageable woman who claims her own body and who cannot be silenced As the drug war wages on riddled with excessive and inequitable prison sentences the incarcerated population skyrockets toward 2.5 million up from less than 200 000 nationwide in 1970 and private prisons burgeon around the coasts now is a critical moment to educate ourselves about what is at stake with our prison system Faith's incisive work causes us to question the usefulness of the forced confinement and surveillance of mostly nonviolent people

Punishing the Black Body Dawn P. Harris, 2017 *Punishing the Black Body* examines the punitive and disciplinary technologies and ideologies embraced by ruling white elites in nineteenth century Barbados and Jamaica Among studies of the Caribbean on similar topics this is the first to look at the meanings inscribed on the raced gendered and classed bodies on the receiving end of punishment Dawn P Harris uses theories of the body to detail the ways colonial states and their agents appropriated physicality to debase the black body assert the inviolability of the white body and demarcate the social boundaries between them Noting marked demographic and geographic differences between Jamaica and Barbados as well as any number of changes within the separate economic political and social trajectories of each island Harris still finds that societal infractions by the subaltern populations of both islands brought on draconian forms of punishments aimed at maintaining the socio racial hierarchy Her investigation ranges across such topics as hair cropping the 1836 Emigration Act of Barbados and other punitive legislation the state reprisals following the 1865 Morant Bay Rebellion in Jamaica the use of the whip and the treadmill in jails and houses of correction and methods of surveillance policing and limiting free movement By focusing on meanings ascribed to the disciplined and

punished body Harris reminds us that the transitions between slavery apprenticeship and post emancipation were not just a series of abstract phenomena signaling shifts in the prevailing order of things For a large part of these islands populations these times of dramatic change were physically felt *Nineteenth-Century Crime and Punishment* Victor Bailey,2022-07-30 This four volume collection looks at the essential issues concerning crime and punishment in the long nineteenth century Through the presentation of primary source documents it explores the development of a modern pattern of crime and a modern system of penal policy and practice illustrating the shift from eighteenth century patterns of crime including the clash between rural custom and law and punishment unsystematic selective public and body centred to nineteenth century patterns of crime urban increasing and a metaphor for social instability and moral decay before a remarkable late century crime decline and punishment reform minded soul centred penetrative uniform and private in application The first two volumes focus on crime itself and illustrate the role of the criminal courts the rise and fall of crime the causes of crime as understood by contemporary investigators the police ways of knowing the criminal the role of moral panics and the definition of the criminal classes and habitual offenders The final two volumes explore means of punishment and look at the shift from public and bodily punishments to transportation the rise of the penitentiary the convict prison system and the late century decline in the prison population and loss of faith in the prison **Punishment and Control in Historical Perspective** H. Johnston,2008-10-24 Bringing together new research this book advances current theoretical understandings of punishment and control in society It provides a critical analysis of institutions punishment and the law and explores the delivery of punishment and experience of incarceration in Western societies from the early nineteenth century **Crime, Policing and Punishment in England, 1660-1914** Drew D.
