*Revisiting Prussia's Wars against Napoleon* Karen Hagemann, 2015-03-30 In 2013 Germany celebrated the bicentennial of the so called Wars of Liberation 1813-15. These wars were the culmination of the Prussian struggle against Napoleon between 1806 and 1815 which occupied a key position in German national historiography and memory. Although these conflicts have been analyzed in thousands of books and articles much of the focus has been on the military campaigns and alliances. Karen Hagemann argues that we cannot achieve a comprehensive understanding of these wars and their importance in collective memory without recognizing how the interaction of politics, culture, and gender influenced these historical events and continue to shape later recollections of them. She thus explores the highly contested discourses and symbolic practices by which individuals and groups interpreted these wars and made political claims beginning with the period itself and ending with the centenary in 1913.

*Voices of the Reformation* John A. Wagner, 2015-05-05 This fascinating collection of primary source documents furnishes the accounts in their own words of those who initiated, advanced, or lived through the Reformation. Starting in 1500, Europe transformed from a united Christendom into a continent bitterly divided between Catholicism and Protestantism by the end of the century. This illuminating text reveals what happened during that period by presenting the social, religious, economic, political, and cultural life of the European Reformation of the 16th century in the words of those who lived through it. Detailed and comprehensive, the work includes 60 primary source documents that shed light on the character, personalities, and events of that time and provides context, questions, and activities for successfully incorporating these documents into academic research and reading projects. A special section provides guidelines for better evaluating and understanding primary documents. Topics include late medieval religion, Martin Luther's reformation in Germany, and the Peasants' War, the rise of Calvinism, and the English Reformation.

*The German People and the Reformation* R. Po-chia Hsia, 1988 In the past, scholars tended to treat the Reformation as a chapter in the history of ideas, emphasizing the thought of the major reformers and the changes in Christian doctrine. Today, however, more and more historians are asking how the revolution in theology affected the lives of ordinary men and women. Aware that religious faith is part of the larger cultural and material universe of early modern Europeans, these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people's Reformation. The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the

German Reformation Historians from various countries offer a panorama of different methodological approaches and thematic concerns Some of the essays represent original research others address current historiographical debates still others offer concise syntheses of recently published monographs including seminal works in German The essays are centered around four themes cities and the Reformation the transmitting of the Reformation in print ritual and song women and the family and lastly the impact of the Reformation on education and other aspects of lay culture Back cover      **The European Reformation, 1500-1610** Alastair Armstrong,2002 A study of the European Reformation from 1500 to 1610 It is designed to fulfil the AS and A Level specifications in place from September 2000 The AS section deals with narrative and explanation of the topic The A2 section reflects the different demands of the higher level examination      *Tolerance and Intolerance in the European Reformation* Ole Peter Grell,Robert W.
