Reframing America:

Handmaking America Bill Ivey, 2012-08-28 America has survived an economic near disaster While the state of employment and housing will one day improve we will never return to the delusional prosperity that defined the first decade of the 21st century Progressives should hold the key to quality of life in our coming post consumerist society but today Democrats have become timid our vision of the good life marginalized by three decades of partisan attacks and the think tank induced assumption that an unfettered marketplace low taxes and international adventurism will somehow give us an America capable of inspiring the world Handmaking America reaches back to the Arts and Crafts roots of progressive thought confronting the way right wing ideology and the power of post industrial capitalism have undermined work government our very way of life advancing a practical achievable vision for a good society that can use the capacity of government to recover the essential strength of the American idea

An End to al-Qaeda Malcolm Nance, 2025-06-25 Osama Bin Laden is unquestionably the leader of the world's most deadly terrorist cult He has perverted the teachings of Islam to create a fringe religious ideology Bin Ladenism where only al Qaeda speaks for God In his cult suicide bombing is the highest form of worship and the mass murder of Muslims proves one's devotion Al Qaeda's 9/11 attack on the United States was just a small part of Bin Laden's long term strategy to win a civil war for control of Islam By fighting his terrorists solely with bullets and bombs and ignoring his war on Islam we have bolstered Bin Laden's recruiting efforts abroad undermined civil liberties and economic security at home and tarnished America's reputation internationally Career intelligence officer Malcolm Nance proposes a quantum shift in how to eliminate al Qaeda in less than twenty four months while recreating America's reputation as a force for good around the world His plan includes Exposing al Qaeda's mission to create a nuclear armed terror Emirate incite a Muslim civil war and eventually seize control of Islam Challenging and breaking the perceived spiritual link between the mainstream Islam and al Qaeda's cultist ideology Attacking al Qaeda fighters through precision intelligence and special operations missions thereby reducing the deaths of innocent civilians Reframing and restoring America's shattered image in the developing world in order to support the global counterterrorism and counterinsurgency campaign An End to al Qaeda is both a revolutionary blueprint for destroying al Qaeda and a fierce critique of America's poorly executed war on Bin Laden's terrorists

A Desire Called America Christian Haines, 2019-10-01 Critics of American exceptionalism usually view it as a destructive force eroding the radical energies of social movements and aesthetic practices In A Desire Called America Christian P Haines confronts a troubling paradox Some of the most provocative political projects in the United States are remarkably invested in American exceptionalism Riding a strange current of U S literature that draws on American exceptionalism only to overturn it in the name of utopian desire Haines reveals a tradition of viewing the United States as a unique and exemplary political model while rejecting exceptionalism's commitments to nationalism capitalism and individualism Through Walt Whitman Emily Dickinson William S Burroughs and

Thomas Pynchon Haines brings to light a radically different version of the American dream one in which political subjects value an organization of social life that includes democratic self governance egalitarian cooperation and communal property A Desire Called America brings utopian studies and the critical discourse of biopolitics to bear upon each other suggesting that utopia might be less another place than our best hope for confronting authoritarianism neoliberalism and a resurgent exclusionary nationalism

Passionate Uncertainty Peter McDonough, Eugene C. Bianchi, 2002-03-05 Founded by Ignatius Loyola in 1540 the Society of Jesus remains the largest and most controversial religious order of men in Catholicism Since the 1960s however Jesuits in the United States have lost more than half of their members and they have experienced a massive upheaval in what they believe and how they work and live In this groundbreaking book Peter McDonough and Eugene C Bianchi draw on interviews and statements gathered from more than four hundred Jesuits and former Jesuits to provide an intimate look at turmoil among Catholicism s legendary best and brightest Priests and former priests speak candidly about their reasons for joining and leaving the Jesuits about their sexual development and orientation about their spiritual crises and their engagement with other religious traditions They discuss issues ranging from celibacy to the ordination of women homosexuality the rationale of the priesthood the challenges of community life and the divinity of Jesus Passionate Uncertainty traces the transformation of the Society of Jesus from a fairly unified organization into a smaller looser community with disparate goals and an elusive corporate identity From its role as a traditional subculture during the days of immigrant Catholicism the order has changed into an amalgam of countercultures shaped around social mission sexual identity and an eclectic spirituality The story of the Jesuits reflects the crisis of clerical authority and the deep ambivalence surrounding American Catholicism s encounter with modernity

Talking Adolescence Angie Williams, Crispin Thurlow, 2005 As a major economic relational and identity resource communication is crucial to the well being and success of young people And yet adolescents are typically characterized in the media as inadequate communicators whose language practices adults bemoan as unintelligible and deleterious In looking to critique these pervasive stereotypes the editors of Talking Adolescence have brought together some of the world s leading experts on youth and adolescence whose interdisciplinary research demonstrates how communication powerfully structures and meaningfully facilitates the lives of young people Adding to the growing literature on intergenerational and lifespan communication Talking Adolescence is the first substantive volume devoted to young people

Public Service and Good Governance for the Twenty-First Century James L. Perry, 2020-05-01 Expert analysis of American governance challenges and recommendations for reform Two big ideas serve as the catalyst for the essays collected in this book The first is the state of governance in the United States which Americans variously perceive as broken frustrating and unresponsive Editor James Perry observes in his Introduction that this perception is rooted in three simultaneous developments government's failure to perform basic tasks that once were taken for granted an accelerating pace of change that quickly makes past standards of performance antiquated and a dearth of intellectual capital that generate the capacity to bridge the gulf between expectations and performance The second idea harkens back to the Progressive era when Americans revealed themselves to be committed to better administration of their government at all levels federal state and local These two ideas the diminishing capacity for effective governance and Americans expectations for reform are veering in opposite directions Contributors to Public Service and Good Governance for the Twenty First Century explore these central ideas by addressing such questions as what is the state of government today Can future disruptions of governance and public service be anticipated What forms of government will emerge from the past and what institutions and structures will be needed to meet future challenges And lastly and perhaps most importantly what knowledge skills and abilities will need to be fostered for tomorrow's civil servants to lead and execute effectively Public Service and Good Governance for the Twenty First Century offers recommendations for bending the trajectories of governance capacity and reform expectations toward convergence including reversing the trend of administrative disinvestment developing talent for public leadership through higher education creating a federal civil service to meet future needs and rebuilding bipartisanship so that the sweeping changes needed to restore good government become possible Contributors Sheila Bair William W Bradley John J DiIulio Jr Angela Evans Francis Fukuyama Donald F Kettl Ramayya Krishnan Paul C Light Shelley Metzenbaum Norman J Ornstein James L Perry Norma M Riccucci Paul R Verkuil Paul A Volcker [Dangerous Doctrine](#) Robert G. Kaufman, 2016-05-13 Political scientist Robert G Kaufman argues that Barack Obama has articulated a clear consistent national security policy and has pursued it with remarkable fidelity Yet Kaufman contends that President Obama has imprudently abandoned the muscular internationalism that has marked US foreign policy since the end of World War II

In Sight of America Dr. Anna Pegler-Gordon, 2023-04-28 When restrictive immigration laws were introduced in the late nineteenth and early twentieth centuries they involved new requirements for photographing and documenting immigrants regulations for visually inspecting race and health This work is the first to take a comprehensive look at the history of immigration policy in the United States through the prism of visual culture Including many previously unpublished images and taking a new look at Lewis Hine's photographs Anna Pegler Gordon considers the role and uses of visual documentation

at Angel Island for Chinese immigrants at Ellis Island for European immigrants and on the U S Mexico border Including fascinating close visual analysis and detailed histories of immigrants in addition to the perspectives of officials this richly illustrated book traces how visual regulations became central in the early development of U S immigration policy and in the introduction of racial immigration restrictions In so doing it provides the historical context for understanding more recent developments in immigration policy and at the same time sheds new light on the cultural history of American photography When restrictive immigration laws were introduced in the late nineteenth and early twentieth centuries they involved new requirements for photographing and documenting immigrants regulations for visually inspecting race and health This work is the first

Rendering Violence Ross Barrett,2014-08-29 Rendering Violence explores the problems and possibilities that the subject of political violence presented to American painters working between 1830 and 1890 a turbulent period during which common citizens frequently abandoned orderly forms of democratic expression to riot strike and protest violently Examining a range of critical texts this book shows for the first time that nineteenth century American aesthetic theory defined painting as a privileged vehicle for the representation of political order and the stabilization of liberal democratic life Analyzing seven paintings by Thomas Cole John Quidor Nathaniel Jocelyn George Henry Hall Thomas Nast Martin Leisser and Robert Koehler Ross Barrett reconstructs the strategies that American artists developed to explore the symbolic power of violence in a medium aligned ideologically with lawful democracy He argues that American paintings of upheaval render their subjects in divergent ways By exploring the inner conflicts that structure these painterly projects Barrett sheds new light on the politicized pressures that shaped visual representation in the nineteenth century and on the anxieties and ambivalences that have long defined American responses to political turmoil

Trump Trudeau Tweets Truth Bill Fox,2022-03-23 Media has long been considered a primary site for political discourse in Western liberal democracies but now with the advent of social media giant multinational digital platforms such as Google and online journalism the way we do politics talk politics and cover politics has completely transformed Trump Trudeau Tweets Truth considers the ways that technology has led to an irreversible transition in power distribution political journalism and public discourse Discussing how the military industrial complex of the 1950s gave way to today s celebrity distribution complex Bill Fox examines the amount of power accorded to people well known for being well known from Donald Trump to Justin Trudeau Taking on a Canadian perspective Fox addresses the disturbing cries of fake news in the post truth age and demonstrates how journalism no longer the domain of a select few political reporters and editors has become decentralized and disaggregated In a world that now plays out on mobile devices Trump Trudeau Tweets Truth seeks a path through the debris left behind by recent seismic shifts in political media and technology

"Women, Workers, and Race in LIFE Magazine " Dolores Flamiano,2017-07-05 The tension between social reform photography and photojournalism is examined through this study of the life and work of German gr ansel Mieth 1909 1998 who made an unlikely journey from migrant farm worker to Life photographer She was the second woman in that role after Margaret Bourke White Unlike her colleagues Mieth was a working class reformer with a deep disdain for Life s conservatism and commercialism In fact her work often subverted Life s typical representations of women workers and minorities Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics birth control vivisection labor unions and Japanese American internment during the Second World War Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s but this role became untenable in Cold War America when her career was cut short Today Mieth s life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth century photojournalism Women Workers and Race in LIFE

Magazine draws upon a rich array of primary sources including Mieth's unpublished memoir, oral histories and labor archives. The book seeks to unravel and understand the multi-layered, often contested stories of the photographer's life and work. It will be of interest to scholars of photography history, women's studies, visual culture and media history.

Power Shifts and Global Governance Ashwani Kumar, Dirk Messner, 2011. *Power Shifts and Global Governance: Challenges from South and North* presents an eclectic theoretical framework for emerging architectures of global governance through examining country and regional case studies from the perspective of great power shifts in the twenty-first century. The book analytically and empirically explores the role of global civil society, discusses the implications of the rise of India and China, analyses regional security issues in Latin America and the Middle East and develops proposals for possible summit and UN reforms.

Build Sadek Wahba, 2024-10-01. A bold plan for the United States to regain the lead in infrastructure development through privatization and public-private partnerships. America's infrastructure—its essential roads, bridges, ports, airports, power grids and telecommunications systems—were once the pride of the nation and an example for the world. But now, after years of neglect and oversight, this infrastructure is crumbling and causing catastrophic changes in the US quality of life. *Build* seeks to explain how American infrastructure collapsed and what can be done to repair it. In a series of colorful, rarely told cases, *Build* takes readers on a revealing tour behind the scenes of the successes and debacles of key infrastructure projects to show what works, why the United States has failed in recent decades to invest in infrastructure and how the private sector can help revitalize the sector, spur job growth and contribute to climate resilience. Sadek Wahba examines the private origins of US infrastructure and the federally funded megaprojects that came after the New Deal, investigating the role the private sector can and should play in building infrastructure. By drawing comparisons with systems in the United Kingdom, France, India and China, Wahba shows that while privatization and public-private partnerships cannot solve all infrastructure challenges, they are essential for closing funding gaps, overcoming political paralysis and driving major infrastructure advances. *Build* will appeal to readers interested in public finance, domestic policy, the role of the federal government, tax policy and urban affairs.

Hand-Off: The Foreign Policy George W. Bush Passed to Barack Obama Stephen J. Hadley, Peter D. Feaver, William C. Inboden, Meghan L. O'Sullivan, 2023-02-15. *Hand-Off* details the Bush administration's national security and foreign policy as described at the time in then-classified Transition Memoranda prepared by the National Security Council experts who advised President Bush. Thirty of these Transition Memoranda, newly declassified and here made public for the first time, provide a detailed, comprehensive and first-hand look at the foreign policy the Bush administration turned over to President Obama. In a postscript to each memorandum, these same experts now in hindsight take a remarkably self-critical look at that Bush foreign policy legacy after more than a dozen years of watching subsequent administrations attempt to deal with the same vexing agenda of threats and opportunities: China, Russia, Iran, the Middle East, terrorism, proliferation, cyber, pandemics and climate change—an agenda that still dominates America's national security and

foreign policy Hand Off will be an invaluable resource for scholars students policy analysts and general readers seeking to understand afresh the Bush administration s foreign policy particularly in view of the records of the Obama Trump and Biden administrations

Harness the Sun Philip Warburg, 2016-09-06 Going from the inner city to the open desert a seasoned environmental advocate looks at solar energy s remarkable ascent and its promise for America s future Solar power was once the domain of futurists and environmentally minded suburbanites Today it is part of mainstream America Scan the skyline of downtown neighborhoods check out the rooftop of the nearest Walmart and take a close look at your local sports arena Chances are you ll find solar panels in those and many other unexpected places In **Harness the Sun** Philip Warburg takes readers on a far flung journey that explores America s solar revolution Beginning with his solar powered home in New England he introduces readers to the pioneers who are spearheading our move toward a clean energy economy We meet the CEOs who are propelling solar power to prominence and the intrepid construction workers who scale our rooftops installing panels We encounter the engineers who are building giant utility scale projects in prime solar states like Nevada Arizona and California and the biologists who make sure wildlife is protected at those sites Warburg shows how solar energy has won surprising support across the political spectrum Prominent conservatives embrace solar power as an emblem of market freedom while environmental advocates see it as a way to reduce America s greenhouse gas emissions At the same time economic justice activists celebrate solar s potential to lift up low income communities and Native American leaders welcome the income and jobs that the industry will bring to their communities Yet solar energy has its downsides and detractors too Conservationists worry about the impact of large solar farms on protected animal species and some local citizens groups resent the encroachment of solar projects on farmland and open spaces Warburg gives voice to those at the epicenter of these conflicts and points the way to constructive solutions **Harness the Sun** offers a grounded persuasive vision of America s energy future It is a future fueled by clean renewable sources of power with solar at center stage

Scars of War Sabrina Thomas, 2021-12 Best First Book Award from the History Honor Society Phi Alpha Theta **Scars of War** examines the decisions of U S policymakers denying the Amerasians of Vietnam the biracial sons and daughters of American fathers and Vietnamese mothers born during the Vietnam War American citizenship Focusing on the implications of the 1982 Amerasian Immigration Act and the 1987 Amerasian Homecoming Act Sabrina Thomas investigates why policymakers deemed a population unfit for American citizenship despite the fact that they had American fathers Thomas argues that the exclusion of citizenship was a component of bigger issues confronting the Nixon Ford Carter and Reagan administrations international relationships in a Cold War era America s defeat in the Vietnam War and a history in the United States of racially restrictive immigration and citizenship policies against mixed race persons and people of Asian descent Now more politically relevant than ever **Scars of War** explores ideas of race nation and gender in the aftermath of the Vietnam War Thomas exposes the contradictory approach of policymakers unable to reconcile Amerasian biracialism with the U S Code As they created an inclusionary

discourse deeming Amerasians worthy of American action guidance and humanitarian aid federal policymakers simultaneously initiated exclusionary policies that designated these people unfit for American citizenship
