## **Refugees And International Relations:**

Refugees in International Relations Alexander Betts, Gil Loescher, 2010-11-04 Refugees lie at the heart of world politics. The causes and consequences of and responses to human displacement are intertwined with many of the core concerns of International Relations. Yet scholars of International Relations have generally bypassed the study of refugees and Forced Migration Studies has generally bypassed insights from International Relations. This volume therefore represents an attempt to bridge the divide between these disciplines and to place refugees within the mainstream of International Relations. Drawing together the work and ideas of a combination of the world's leading and emerging International Relations scholars, the volume considers what ideas from International Relations can offer our understanding of the international politics of forced migration. The insights draw from across the theoretical spectrum of International Relations from realism to critical theory to feminism, covering issues including international cooperation, security and the international political economy. They engage with some of the most challenging political and practical questions in contemporary forced migration, including peacebuilding, post-conflict reconstruction and statebuilding. The result is a set of highly original chapters yielding not only new concepts of wider relevance to International Relations but also insights for academics, policy makers and practitioners working on forced migration in particular and humanitarianism in general.

**Refugees in International Politics** Leon Gordenker, 2023-02-01 Originally published in 1987, *Refugees in International Politics* explores the nature of forced migration. It sets out systematically the factors that set refugees in motion and explains how and why a flexible network of organizations copes with the inescapable results of their presence. It suggests measures to reduce both the human suffering involved in forced migration and the disturbing effects of international relations.

**The Refugee in International Society** Emma Haddad, 2008-03-20 With the unrelenting unrest in places such as Iraq, Afghanistan and the Sudan, the plight of refugees has become an increasingly discussed topic in international relations. Why do we have refugees? When did the refugee problem emerge? How can the refugee ever be reconciled with an international system that rests on sovereignty? Looking at three key periods—the inter-war period, the Cold War and the present day—Emma Haddad demonstrates how a specific image has defined the refugee since the international states system arose in its modern form and that refugees have thus been qualitatively the same over the course of history. This historical and normative approach suggests new ways to understand refugees and to formulate responses to them. By examining the issue from an international society perspective, this book highlights how refugees are an inevitable if unanticipated result of erecting political borders.

*The Oxford Handbook of Refugee and Forced Migration Studies* Elena Fiddian-Qasbiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014-06-12 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political

Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice

**The UNHCR and World Politics** Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years

shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today

Harbisch, 2025-01-21 This book centres refugees and asylum seekers as agents of global politics broadening our thinking about political agency beyond statism citizenship and organized political protest Arguing that to understand forced migration we must understand the construction of refugees as individual human subjects and how subconscious ideas about refugees influence daily practices and policies the author studies how refugees make meaning about themselves Forced migration is a key formative phenomenon of international politics but debates habitually discuss displacement only as an abstract number economic challenge or security issue This volume shifts attention to the individual human subjects as overlooked agents of international relations To this end the book rethinks individual subjects altogether and develops a comprehensive practice theoretical framework of subject construction Through extensive ethnographic data generated with refugees in Germany and
