Primary Care Mental Health Linda Gask, Helen

Lester, Robert Peveler, 2009-10 In this book internationally respected authors provide a conceptual background and dispense practical advice on delivering mental health services for the clinician They discuss ways of improving joint working between primary and secondary care as well as issues affecting the professional development of all practitioners within primary care teams

Refugees and general practitioners - partners in care? C. Titia Feldmann, 2006

Migrant Health

Bernadette N. Kumar, Esperanza Diaz, 2019-06-10 In this time of large scale global migration at levels unrivalled since World War II primary care practitioners are providing the first line of care to economic immigrants and refugees In doing so they face daily the considerable challenges that this heterogenic group brings in terms of communication culture and legal status as well as physical and mental health This accessible book has been carefully crafted to enable primary health care professionals to develop the skills and competencies required to deliver appropriate services to this diverse group of patients and in turn to ensure equity in health care for all Key features Highly practical focus with clinical cases learning objectives concept and What this Means in Practice boxes and Practical Tools for Meeting the Patient sections Covers widely applicable themes in health care including health literacy communication the cultures and sub cultures of systems Fully referenced combining policy academic literature and practical advice with a broad international scope Prestigious author team with chapters written by international contributors with in depth subject expertise curated by expert editors Endorsed and supported by the WONCA Special Interest Group on Migrant Care International Health and Travel Medicine The book satisfies the urgent need for a hands on guide to support and help general practitioners and other members of the primary health care team improve their provision of care not only to immigrants but to other vulnerable groups and the whole society

Refugees and Mental Health Civis Trust, 2004

Refugee Health Care Aniyizhai Annamalai, 2020-10-01

Refugee health is growing as an academic medical discipline More and more health care providers are coming together to exchange research information educational curricula and social policies related to refugee health The number of practitioners

attending the annual North American Refugee Healthcare Conference has doubled since 2014. Refugees arriving in the United States from different parts of the world undergo a medical screening soon after arrival as recommended by the U.S. Department of State, and it is usually primary care practitioners who usually evaluate these patients at this first visit. Psychiatrists and other specialists may also evaluate them soon after arrival. Though physicians receive a variable amount of training in cross-cultural medicine, virtually none is in the area of refugee evaluations. There are several major ways that the field has changed: U.S. refugee policies and refugee admission numbers have changed dramatically in the past four years, as has the epidemiology of medical conditions because the demographics of refugees have changed. The CDC guidelines for domestic screening have also been modified significantly as some of the screening tests are no longer recommended. Protocols have also been updated for presumptive treatment received by refugees before departure to the United States or from other countries. A new chapter on end-of-life care for refugees has been added to the book. Now fully revised and expanded, this second edition reflects the many changes that have occurred in the field of refugee health since 2014. *Refugee Health Care* remains the definitive resource for primary care physicians and mental health practitioners who see and evaluate refugees. It is also relevant for medical nursing and public health students involved with refugee health, as well as resettlement agency workers and public health officials overseeing refugee care.

Refugee Resettlement Program

United States. Office of Refugee Resettlement, 1994. [The Health of Refugees](#) Pascale Allotey, Daniel Reidpath, 2019-01-03. At the moment over 65 million people are forcibly displaced from their homes. The reasons for movement range from extreme weather conditions and environmental disasters to war, civil and political crises to the need for basic economic survival. Amongst these 65 million people are those that have been forced to leave a country that is no longer willing or able to offer protection, and those who are displaced within their own country's borders. In order to improve conditions for displaced people all over the globe, we need to look at the reason behind their move, as this defines their migration status under international law. In its turn, the migration status affects the requirements of other countries to grant asylum and the individual's right to protection and support. The definition of migration status and its implications has created tension in the public debate on refugees for decades and is today more relevant than ever. In *The Health of Refugees: Public Health Perspectives from Crisis to Settlement*, the challenges and vulnerabilities created from this debate are addressed by public health policy makers, clinical practitioners, and researchers. An analysis of public health, international law, the history of migration, and the media's role in refugee health, it is a comprehensive and critical work with a strong message in favour of international and interdisciplinary cooperation. With a focus on what international obligations entail when it comes to refugees and migrants, the authors present a reinforced take on our collective responsibility to leave no one behind. *The Health of Refugees: Public Health Perspectives from Crisis to Settlement* traces the health repercussions on individuals and populations from the moment of forced mass movement due to conflict and other disasters through to the process of

resettlement in other countries These issues are addressed within the context of other global public health priorities and are part of the book's critical analysis not only of the particular vulnerabilities created by mobility but also how these interact and intersect with existing considerations across gender and age in health systems and international law With a wider geographical area and case studies from all over the globe as a basis for the studies presented this is a fully updated edition with new material discussing the current political landscape A truly multidisciplinary book The Health of Refugees is ideal for public health practitioners researchers and postgraduate students It is also an important work for those involved in non governmental organisations international aid and international development Furthermore it provides a critical background for clinicians mental health workers and policymakers from health welfare and migration Models for Practice With Immigrants and Refugees Aimee Hilado, Marta Lundy, SAGE Publications, Inc., 2017-04-06

Designed to establish a foundational framework for working with trauma exposed immigrants and refugees this important work introduces innovative approaches to address client mental health problems while supporting adjustment to life in a new country This practice oriented book emphasizes the relevance of Western approaches while reorienting Western concepts to be more culturally sensitive from a domestic and international perspective Grounded in critical thinking and strengthened by an ecological systems perspective the book presents six different models for applying and integrating Western theory and related practice strategies for working with individuals families groups communities organizations volunteers and local workforces **Oxford Handbook of Primary Care and Community Nursing** Judy Brook, Caroline McGraw, Val Thurtle, 2021-02-01 Fully updated for its third edition the Oxford Handbook of Primary Care and Community Nursing is the essential guide to caring for patients in primary care and in community settings Concise and comprehensive the book provides the reader with both evidence based clinical knowledge as well as the organizational structure of community health services Chapters range from common adult and paediatric health problems to more specific targeted advice for service users with extra needs and people with long term conditions The handbook includes information on how health and social care services are organised and funded from common technical care procedures to complex situations alongside detailed aspects of health promotion in adults children and adolescents With new topics on consultation frameworks and models supporting young people in their transition to the adult services and female genital mutilation all clinical guidelines epidemiology and statistics have been revised to reflect developments since the previous edition Providing an accessible and instant resource for everyday nursing and a benchmark of good practice the Oxford Handbook of Primary Care and Community Nursing is a unique and invaluable companion for all health care professionals working in the primary care and community setting **Mapping health systems' responsiveness to refugee and migrant health needs**, 2021-10-19

Understanding the Refugee Experience in the Canadian Context Bharati Sethi, Sepali Guruge, Richard Csiernik, 2021-01-26 This volume on the resilience commitment and survival of refugees brings together the latest research

and insights from 32 authors across multiple disciplines united in their pursuit of social justice for the economic social and political rights of refugees The book adopts a reflexive and relational stance without compromising the rigour and quality of research to allow the reader to appreciate the shared and distinct immigration and re settlement experiences of refugees and their communities in all of their complexity This book will be a valuable resource to and a source of reflection for researchers educators students service providers and policymakers who are committed to envisioning Canada as a country where all newcomers feel rooted and safe

Models that Work, 1995

Bosnian Refugees in America Reed Coughlan, Judith Owens-Manley, 2006-08-02 In April of 1992 war began in Bosnia Sarajevo site of the 1984 Winter Olympics and we were told one of the most beautiful cities in the world became a city under siege For all of the people of Bosnia life shifted in unimaginable ways in a matter of hours days or weeks An immediate exodus began from Bosnia and people who had never anticipated leaving their country became refugees dependent upon a world system of resettlement for displaced persons This book relates the experiences of a hundred Bosnian families who came to Utica a town in upstate New York Bosnians in Utica came here as refugees ginning in 1993 having ed from the wars of succession in the former Yugoslavia Our study evolved over several years as a result of our interests in the war in Bosnia and the massive ow of refugees that it precipitated We began work on the project in the late 1990s as we set out to learn about the war and to explore refugee experiences of displacement transit and resettlement Our intent is to portray the experience of Bosnian refugees in one American city and to capture in their words in as much detail as possible their adjustment to a new community and a new culture

Interprofessional Approach to Refugee Health Emer McGowan, Djenana Jalovcic, Sarah Quinn, 2025-09-09 As global displacement reaches unprecedented levels health and social care professionals increasingly find themselves supporting people with refugee experience whose health and wellbeing needs are complex urgent and often unmet This timely and practical book provides essential guidance for professionals particularly those new to working in this context on how to deliver compassionate culturally responsive and effective care to forcibly displaced individuals and communities Drawing on personal narratives of displacement international research global best practices and firsthand professional experience this volume addresses the many challenges refugees face in accessing

appropriate health and social care including trauma chronic illness mental health conditions housing insecurity and language barriers Contributions from a diverse range of professionals across nursing occupational therapy psychology psychotherapy physiotherapy speech and language therapy and more highlight the interprofessional collaboration necessary to meet these multifaceted needs Through real life case studies reflective prompts and a strong focus on person centred equitable care this book centres the lived experiences of refugees and emphasizes the importance of listening learning and adapting care to each individual s story A vital resource for practitioners students policymakers and educators this book bridges the gap between evidence and practice and empowers professionals to build inclusive and responsive systems of care for those affected by forced migration

Enjoying the Track of Term: An Mental Symphony within **Refugees Primary Care**

In a world used by monitors and the ceaseless chatter of instantaneous transmission, the melodic elegance and mental symphony developed by the written term often disappear into the backdrop, eclipsed by the constant noise and interruptions that permeate our lives. However, situated within the pages of **Refugees Primary Care** a marvelous literary prize filled with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, that captivating masterpiece conducts readers on an emotional journey, skillfully unraveling the hidden tunes and profound influence resonating within each carefully constructed phrase. Within the depths of the moving review, we shall explore the book is key harmonies, analyze its enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
