decencies and civilities make up the stuff of their ordinary everyday encounters within refugeedom defining both its sharper edges and its more inadvertent and quietly political ones Thus refugeedom as we conceive it includes the humanitarian condition but goes a little beyond it to become also a human condition of political alterity In navigating refugeedom the young Syrians and Iraqis become sophisticated political and moral actors using emotional reflexivity as they engage layered subjectivities to define the terms of their own forced displacement This book will be of interest to policymakers humanitarian organisations social science scholars and students working on refugees displacement humanitarianism intimacies and emotions racism and discrimination It may also be of interest to displaced youth

**Refugees and the Ethics of Forced Displacement** Serena Parekh, 2016-11-25 This book is a philosophical analysis of the ethical treatment of refugees and stateless people a group of people who though extremely important politically have been greatly under theorized philosophically The limited philosophical discussion of refugees by philosophers focuses narrowly on the question of whether or not we as members of Western states have moral obligations to admit refugees into our countries This book reframes this debate and shows why it is important to think ethically about people who will never be resettled and who live for prolonged periods outside of all political communities Parekh shows why philosophers ought to be concerned with ethical norms that will help stateless people mitigate the harms of statelessness even while they remain formally excluded from states The Open Access version of this book available at <https://doi.org/10.4324/9781315883854> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Confronting the Global Forced Migration Crisis** Tom Ridge, Gayle Smith, 2018-06-22 The size and scope of the global forced migration crisis are unprecedented Almost 66 million people worldwide have been forced from home by conflict If recent trends continue this figure could increase to between 180 and 320 million people by 2030 This global crisis already poses serious challenges to economic growth and risks to stability and national security as well as an enormous human toll affecting tens of millions of people These issues are on track to get worse without significant course correction soon the forced migration issues confronted today will seem simple decades from now Yet efforts to confront the crisis continue to be reactive in addressing these and other core issues The United States should broaden the scope of its efforts beyond the tactical and reactive to see the world through a more strategic lens colored by the challenges posed and opportunities created by the forced migration crisis at home and abroad CSIS convened a diverse task force in 2017 to study the global forced migration crisis This report is a result of those findings
