Refugees and Regional Security in South Asia S. D. Muni, Lok Raj Baral, 1996 Contains papers presented at a seminar

**Regionalism and Regional Security in South Asia** Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism

Regional Security in South Asia Sridhar K. Khatri, 1987 Internal Conflict and Regional Security in South Asia Shiva Hari Dahal, 2003 The South Asia region is one of the most populous and ethnically diverse in the world but its social political and economic development has been severely hindered by numerous inter state and intra state conflicts This paper seeks to provide a more effective multidimensional framework for the analysis and management of internal conflict and security issues in this region through the establishment of Peace Commissions These bodies could operate at national and regional levels in a similar manner to a human rights commission in order to establish effective institutional mechanisms to resolve social and political differences and so avoid violent conflict

**Regional Security in Southeast Asia** Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of

ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management. The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way. The book argues that the ASEAN way has not been impervious to change. As the association finds its way through periods of crises and continues to confront the many challenges ahead, ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way. The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region; the way regionalism is changing in Southeast Asia.

### **Demography and National Security**

Myron Weiner, Sharon Stanton Russell, 2001-08. Political scientists, demographers, legal scholars and historians have come together in this volume under the direction of the late Myron Weiner, one of the leading scholars in this field, to address three of the major sets of questions in the field of political demography: How changes in demographic variables (population size, growth, distribution and composition) influence threats, real or perceived, to a country's political stability and security; how governments respond to demographic trends; and how governments attempt to change demographic variables in order to enhance national security.

### **Pakistan's National Security Approach and Post-Cold War Security**

Arshad Ali, 2021-03-31. This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security proxy wars, and the hyper-military industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security and Cold War Studies.

Ripsman,T.V. Paul,2010-03-18 In the past two decades many have posited a correlation between the spread of globalization and the decline of the nation state In the realm of national security advocates of the globalization thesis have argued that states power has diminished relative to transnational governmental institutions NGOs and transnational capitalism Initially they pointed to declines in both global military spending which has risen dramatically in recent years and interstate war But are these trends really indicative of the decline of nation state s role as a guarantor of national security In *Globalization and the National Security State* T V Paul and Norrin M Ripsman test the proposition against the available evidence and find that the globalization school has largely gotten it wrong The decline in interstate warfare can largely be attributed to the end of the Cold War not globalization Moreover great powers the US China and Russia continue to pursue traditional nation state strategies Regional security arrangements like the EU and ASEAN have not achieved much and weak states the ones most impacted by the turmoil generated by globalization are far more traditional in their approaches to national security preferring to rely on their own resources rather than those of regional and transnational institutions This is a bold argument and Paul and Ripsman amass a considerable amount of evidence for their claims It cuts against a major movement in international relations scholarship and is sure to generate controversy
