Politicians on Social Media Pete Schauer, 2018-07-15 The rise of social media has changed politics forever No longer must citizens go through the trouble of writing letters to their representatives to be heard In turn politicians have been given a direct line to their constituents Is this accessibility an asset or a liability How has the use of social media changed the campaign and election process What happens when the president blocks you on Twitter The thought provoking viewpoints in this volume explore the finer points of a newly emerging controversy Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people s desires fantasies and emotions shape political events and social phenomena It highlights the mythical sources of today s political projects the power of political imagination and the function of symbolism in political thought Eszter Salg argues that the driving force for the formation of political communities is fantasy illusions in a Winnicottian sense phantasies in a Lacanian sense phantoms as described by Nicolas Abraham and Maria Torok and dreams as interpreted by S ndor Ferenczi She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people s deeply felt desire to find in public life the resolution love and wholeness of early childhood and to unveil the political elite s readiness to don the mask of the ideal parent The book is divided into two parts The first part of the book explores the

theories of Donald Winnicott and Jacques Lacan the matrimony on the stage of politics between the good enough mother and the Symbolic Father which inaugurates the story of democracy s fantastic family The second part presents the fantastic families of selected countries such as Hungary Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions Psychoanalytic Reflections on Politics Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy It will be of interest to psychoanalysts and academics from across the disciplines of politics psychology anthropology sociology philosophy literature and art
