**Chrysler's Turbine Car** Steve Lehto, Jay Leno, 2010-10-01 In 1964 Chrysler gave the world a glimpse of the future They built a fleet of turbine cars automobiles with jet engines and loaned them out to members of the public The fleet logged over a million miles the exercise was a raging success These turbine engines would run on any flammable liquid tequila heating oil Chanel 5 diesel alcohol kerosene If the cars had been mass produced we might have cars today that do not require petroleum derived fuels The engine was also much simpler than the piston engine it contained one fifth the number of moving parts and required much less maintenance The cars had no radiators or fan belts and never needed oil changes Yet Chrysler crushed and burned most of the cars two years later the jet car's brief glory was over Where did it all go wrong Controversy still follows the program and questions about how and why it was killed have never been satisfactorily answered Steve Lehto has interviewed all the surviving members of the turbine car program from the metallurgist who created the exotic metals for the interior of the engine to the test driver who drove it at Chrysler's proving grounds for days on end Lehto takes these first hand accounts and weaves them into a great story about the coolest car Detroit ever produced

**Storied Independent Automakers** Charles K. Hyde, 2009-11-15 Auto historians and readers interested in business history will enjoy Storied

**Independent Automakers** *Hybrid Factories in the United States* Tetsuji Kawamura, 2011-07-07 This book assesses the transferability of Japanese style management and production systems to 81 factories in North America owned by Japanese companies All of the book's investigations are based on an original methodology hybridization analysis which quantifies the degree to which features of the Japanese system have been transplanted using an elaborate checklist and scoring system With its wealth of data it should serve as a handy reference volume to anyone interested in the issue of international management and the impact of globalization upon production models

**Auto Mania** Tom McCarthy, 2007-01-01 The twentieth century American experience with the automobile has much to tell us about the relationship between consumer capitalism and the environment Tom McCarthy contends In Auto Mania he presents the first environmental history of the automobile that shows how consumer desire and manufacturer decisions created impacts across the product lifecycle from raw material extraction to manufacturing to consumer use to disposal From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s Auto Mania explores developments that touched the environment Along the way McCarthy examines how Henry Ford's fetish for waste reduction tempered the environmental impacts of Model T mass production how Elvis Presley's widely shared postwar desire for

Cadillacs made matters worse how the 1970s energy crisis hurt small cars and why baby boomers ignored worries about global warming McCarthy shows that problems were recognized early The difficulty was addressing them a matter less of doing scientific research and educating the public than implementing solutions through America s market economy and democratic government Consumer and producer interests have rarely aligned in helpful ways and automakers and consumers have made powerful opponents of regulation The result has been a mixed record of environmental reform with troubling prospects for the future

**The Last Great Senate** Ira Shapiro, 2017-12-28 The Last Great Senate tells the story of the final four years of the progressive Senate of the 1960s and 1970s which compiled a record of accomplishment unmatched in our country s history It is a narrative history of the statesman who working with an outsider president Jimmy Carter helped steer America through the crisis years of the late 1970s transcending partisanship and overcoming procedural roadblocks that have all but crippled the Senate over the past quarter century The Last Great Senate recalls a critical juncture in American politics offering a new view of the kind of leadership that will be required to restore the nation s upper house to greatness The book brings to life the renowned senators of the time Ted Kennedy Howard Baker Henry Scoop Jackson Ed Muskie Jacob Javits Robert Byrd and others while capturing the Senate as an ensemble cast in a way that no previous book has Mr Shapiro recounts a series of legislative battles including the historic fight over the Panama Canal treaty and the rescues of New York City and Chrysler that are remarkable case studies of the legislative process in action His preface to this second edition provides a compelling summary

of the Senate's struggles since 1980 including the first six months of the Trump presidency. The author's love of the Senate and his deep belief in its special role in our political system make the book an antidote to cynicism, leaving readers with some hope that the Senate can reverse its long decline to become again what Walter F. Mondale called the nation's mediator.

Dream Car Dimitry Anastakis, 2024-03-26 *Dream Car* tells the story of entrepreneur Malcolm Bricklin's fantastical 1970s era Safety Vehicle 1 (SV1) audaciously launched during a tumultuous breakpoint in postwar history. The tale of the sexy yet safe SV1 reveals the influence of automobiles on ideas about the future technology, entrepreneurship, risk, safety, showmanship, politics, sex, gender, business, and the state, as well as the history of the auto industry's birth, decline, and rebirth. Written as an open road, the book invites readers to travel a narrative arc that unfolds chronologically and thematically. *Dream Car*'s seven chapters have been structured so that they can be read in any order determined by whichever theme each reader finds most interesting. The book also includes a musical playlist of car songs from the era and songs about the SV1 itself.

Auto Pact Dimitry Anastakis, 2005-11-26 The 1965 Canada-United States Automotive Trade Agreement fundamentally reshaped relations between the automotive business and the state in both countries and represented a significant step toward the creation of an integrated North American economy. Breaking from previous conceptions of the agreement as solely a product of intergovernmental negotiation, Dimitry Anastakis's *Auto Pact* argues that the big three auto companies played a pivotal role and benefited immensely in the creation and implementation of this new automotive regime. With the border effectively erased by the agreement, the pact transformed these giant enterprises into truly global corporations. Drawing from newly released archival sources, Anastakis demonstrates that for Canada's automotive policy makers, continentalism was a form of economic nationalism. Although the deal represented the end of any notion of an indigenous Canadian automotive industry, significant economic gains were achieved for Canadians under the agreement. Anastakis provides a fresh and alternative view of the auto pact that places it firmly within contemporary debates about the nature of free trade, as well as North American and indeed global integration. Far from being a mere artefact of history, the deal was a forerunner to what is now known as globalization.

Framing Canadian Federalism Dimitry Anastakis, Penny Bryden, 2009-06-07 *Framing Canadian Federalism* assembles an impressive range of scholars to consider many important issues that relate to federalism and the history of Canada's legal, political, and social evolution. Covering themes that include the Supreme Court of Canada, changing policies towards human rights, First Nations, as well as the legendary battles between Mitchell Hepburn and W. L. Mackenzie King, this collection illustrates the central role that federalism continues to play in the Canadian polity. Editors Dimitry Anastakis and P. E. Bryden, and the volume's contributors, demonstrate the pervasive effects that federalism has on Canadian politics, economics, culture, and history, and provide a detailed framework in which to understand contemporary federalism. Written in honour of John T. Saywell's half-century of accomplished and influential scholarly work and teaching, *Framing Canadian Federalism* is a timely and fitting tribute to one of the discipline's foremost

thinkers     *Lost Evansville* Dr. James Lachlan MacLeod, 2023-10-09 From the Wabash and Erie Canal to the Faultless Caster Factory Evansville has seen much of its history disappear In the early twentieth century vestiges of old Evansville like the Bnai Israel temple and Coal Mine Hill gave way to a modern city Numerous changes in the thirty years following World War II altered the physical appearance of the city including the removal of the old Central High School Assumption Cathedral Gear Town and more Less physical but nevertheless vital history like the struggle over Civil Rights in Evansville has been overlooked and until now lost Weaving together a captivating fast paced account illustrated with over eighty images award winning Evansville historian Dr James MacLeod tells the fascinating story of what was lost what came in its place and what was preserved against the odds     **Albert Kahn Inc.** Claire Zimmerman, 2025-08-12 A study of Albert Kahn Incorporated the architecture firm closely associated with the Ford Motor Company and other auto companies that explores capitalism and political economy through the built environment of industry and culture In *Albert Kahn Inc* Claire Zimmerman provides a history of second wave industrialization associated with the growth and development of the United States auto industry and its global footprint A forensic analysis of the architects of Ford the book theorizes how building and capitalism intersected in the case of twentieth century industrial buildings but also in other kinds of architecture and in the built environment writ large Generally a marginal subject in histories of architecture industrialism here exposes the expansionist modern project in Western architecture and culture which was based on natural resource extraction and labor exploitation With more than 140 full color illustrations the book combines an analysis of industrial architecture with compelling photographic evidence drawn from assorted archives Zimmerman offers a political economy of architecture reconceptualizes the design process within a high volume firm in dialogue with fast paced industrial capitalism tracks the feedback loops that industrialization introduced into architecture and maps the unequal effects of these industrial environments on the workers who labored within them Ultimately Zimmerman shows how the coalition of US private capital and state power built industrial installations as imperialist projects and how its practices survive to the present day     *Detroit's Wartime Industry* Michael W. R. Davis, 2007 Just as Detroit symbolizes the U S automobile industry during World War II it also came to stand for all American industry s conversion from civilian goods to war material The label Arsenal of Democracy was coined by Pres Franklin D Roosevelt in a fireside chat radio broadcast on December 29 1940 nearly a year before the United States formally entered the war Here is the pictorial story of one Detroiters unique leadership in the miraculous speed Detroit s mass production capacity was shifted to output of tanks trucks guns and airplanes to support America s victory and of the struggles of civilians on the home front     *Collisions at the Crossroads* Genevieve Carpio, 2019-04-16 There are few places where mobility has shaped identity as widely as the American West but some locations and populations sit at its major crossroads maintaining control over place and mobility labor and race In *Collisions at the Crossroads* Genevieve Carpio argues that mobility both permission to move freely and prohibitions on movement helped shape racial formation in the eastern suburbs of Los Angeles and the Inland

Empire throughout the nineteenth and twentieth centuries By examining policies and forces as different as historical societies Indian boarding schools bicycle ordinances immigration policy incarceration traffic checkpoints and Route 66 heritage she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others Highlighting the ways people of color have negotiated their place within these systems Carpio reveals a compelling and perceptive analysis of spatial mobility through physical movement and residence *Industries and Global Competition* Bram Bouwens, Pierre-Yves Donzé, Takafumi Kurosawa, 2017-09-18 Changes in the dynamics of economic activities since the last decades of the 20th century have yielded major changes in the composition of industries and the division of labor and production across different regions of the world Despite these shifts in the global economy some industries have remained competitive even without relocating their operations overseas *Industries and Global Competition* examines how and why the specificities of certain industries and firms determined their choice of location and competitiveness This volume identifies the major drivers of this process and explains why some firms and industries moved to other parts of world while others did not Relocation was not the sole determinant of the success or failure of firms and industries Indeed some were able to reinvent themselves at their original location and build new competitive advantages The path that each industry or firm took varied This book argues that the specific characteristics of each industry defined the conditions of competitiveness and provide a wide range of cases as illustrations Aimed at scholars researchers and academics in the fields of business history international business and related disciplines *Industries and Global Competition* examines the unique questions How and why did the specificities of certain industries and firms determine their choice of location and competitiveness Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *American Thunder* Richard C. Anderson Jr., 2024-05-14 This book is a colorful vivid and insightful look at how the U S produced a tank force capable of conducting its own battlefield efforts and sustaining key allies around the world during World War II It will be the go to volume on American tanks for years to come **Rational Leadership** Paul Brooker, Margaret Hayward, 2024-02-16 This work takes examples of iconic corporations to show how business leaders can use rational methods to develop companies and inspire people with confidence It studies General Motors Toyota McDonalds Walmart Intel Armani and eBay through autobiographical writings and historical sources **The Art of Taming the Business** Vallabhi Ey, 2009-04 Business essays for students who want to have a strong foundation in business concepts and for professionals who want to refer back to the basics The simplified form of complex concepts and simple language makes this book a good and a must read A Book by a student for both students and professionals All the business chapters in this book were written as assignments by the author as an MBA Management of Business Administration student in University of Northampton in the years 2007 and 2008 There are twelve altogether some are essays and some are reports Most of these were written with an

intention that these could be published one day Also the chapters were written with an idea that it should not just reach business readers but also general readers who want to know business or just have an interesting read The various chapters and the section of Business Management are given below Chapters 1 2 and 3 are related to Operations Research Chapters 4 and 5 are related to Marketing Chapter 6 is related to Organizational Strategy Chapter 7 is related to Managing Change Chapter 8 is related to Cross Cultural Management Chapters 9 and 10 are related to People Management Chapter 11 is related to Corporate Finance Chapter 12 is related to Leadership The author believes that different departments in an organization cannot be detached or distinguished without overlaps from other departments These subjects mentioned above are related to the important characteristics of the concerned subject and would be useful for any department of business as a whole The conclusion of the last chapter ends with words of Jesus Christ adapted to the business environment *A History of Leadership* Morgen Witzel, 2019-12-06 The evolution of leadership into a widely accepted concept occurred without any shared understanding and acceptance of its meaning and relevance in contemporary society Why do some people become leaders What is the source and legitimacy of leadership power This book journeys into the heart of the relationship between leaders and followers the social space and the arena where both contest and collaboration take place and leadership itself is played out In the book Morgen Witzel moves beyond traditional traits and skills framing offering a fresh historical analysis that involves many different actors with different motives and needs By analysing the evolution of power relationships the book analyses the interactions around how power is used and control is bargained for to illuminate the centrepiece of leadership A wide ranging history of a slippery subject this book provides students scholars and reflective practitioners with an empirical historical base on which to test their own ideas and experiences
