Rievaulx Abbey and Its Social Context, 1132-1300 Emilia Jamroziak, 2005 Rievaulx abbey was one of the most prominent houses of white monks Cistercians in England and became in the course of the twelfth and thirteenth centuries an important feature of the ecclesiastical and social landscape of Yorkshire The present work is the first in depth study devoted to Rievaulx's social history The abbey's once extensive archives were largely destroyed after the Dissolution but the surviving late twelfth century cartulary provides a fascinating insight into the process of creating institutional memory preserving and shaping information about various neighbours of the abbey and creating a map of social networks that developed around Rievaulx The complex picture of building and sustaining connections between the abbey and its lay patrons benefactors and neighbours forms a core to this book This study also examines how Rievaulxco existed with other religious institutions in the area and particularly the practical dimension of friendships between abbots declarations of mutual support between monastic communities and how these were reconciled with a fierce competition for land and donations Contacts between Rievaulx abbey and the nearby archbishops of York and bishops of Durham were intense and these contacts demonstrate how important these prelates were as potential supporters and how broader ecclesiastical issues influenced their relationships with Rievaulx Whilst exploring the case of one particular monastery this book is an important contribution to the current debate on the shaping of Cistercian practice and particularly the mechanisms for the interaction between laity and monastic communities during the High Middle Ages

Plympton Priory Allison D. Fizzard,2008 A case study examining the history of a house of English Augustinian canons this book reveals the ways in which Plympton Priory formed connections with the laity the episcopacy the secular clergy and the Crown in the late Middle Ages *Inventing Sempringham* Katharine Sykes,2011 This book explores the origins of the role of the Master or head of the order of Sempringham the only monastic order to be founded in medieval England from the foundation of the order to the final drafting of its legislation in the 1230s The book demonstrates that many previous assumptions about the early development of this important role are flawed most notably the standard portrait of Gilbert of Sempringham founder of the order as a stereotypical charismatic leader big on ideas but short on the capacity to provide his followers with effective leadership Series Vita regularis Ordningen und Deutungen religiosen Lebens im Mittelalter Abhandlungen Vol 46 *The Use and Abuse of Sacred Places in Late Medieval Towns* Paul Trio,Marjan de Smet,2006 Church buildings dominated medieval towns The faithful flocked to the parish and monastic churches and chapels to attend masses to receive the Sacraments to offer up their prayers However secular authorities from the ruler to the town government the trades or guilds also made use of these ecclesiastical buildings for storage and preservation for defense and to host large gatherings such as coronations elections and meetings This book discusses how secular authorities made use of churches and monasteries in the Low Countries the German regions and the British Isles during the late medieval period Mediaevalia Lovaniensia 38 **Rievaulx Abbey and Its Social Context, 1132-1300** Emilia Jamroziak,2004 Rievaulx abbey was one of the most prominent houses of white monks Cistercians in England and became in the course of the twelfth and thirteenth centuries an important feature of the ecclesiastical and social landscape of Yorkshire The present work is the first in depth study devoted to Rievaulx's social history The abbey's once extensive archives were largely destroyed after the Dissolution but the surviving late twelfth century cartulary provides a fascinating insight into the process of creating institutional memory preserving and shaping information about various neighbours of the abbey and creating a map of social

networks that developed around Rievaulx The complex picture of building and sustaining connections between the abbey and its lay patrons benefactors and neighbours forms a core to this book This study also examines how Rievaulx co existed with other religious institutions in the area and particularly the practical dimension of friendships between abbots declarations of mutual support between monastic communities and how these were reconciled with a fierce competition for land and donations Contacts between Rievaulx abbey and the nearby archbishops of York and bishops of Durham were intense and these contacts demonstrate how important these prelates were as potential supporters and how broader ecclesiastical issues influenced their relationships with Rievaulx Whilst exploring the case of one particular monastery this book is an important contribution to the current debate on the shaping of Cistercian practice and particularly the mechanisms for the interaction between laity and monastic communities during the High Middle Ages *Leprosy and Charity in Medieval Rouen* Elma Brenner,2015 An investigation into the effects of leprosy in one of the major towns in medieval France illuminating urban religious and medical culture at the time **Do Ut Des** Arnoud-Jan Bijsterveld,2007 *The Journal of Ecclesiastical History* Clifford William Dugmore,2005 **Monastic Hospitality** Julie Kerr,2007 Drawing on a wide range of sources this text explores the practice and perception of monastic hospitality in England c 1070 c 1250 an important and illuminating time in a European and an Anglo Norman context
