**Teaching Right Livelihood. Eine Handreichung für Lehrkräfte und Lehrerbildner. Mit englischsprachigen Unterrichtsmaterialien** Ellen Christoforatu, 2012 *VIMALAKIRTI NIRDESA SUTRA - The Teachings of Vimalakirti* Jung-Ho Yoon, 2024-04-04 The Teaching of Vimalakirti presents in 14 fairly short chapters the core teachings of Mahayana Buddhism 1 Considered the jewel of Mahayana Sutras the teaching is addressed to very advanced arhats and bodhisattvas by Vimalakirti Undefined Reputation a supposedly ill advanced lay bodhisattva Especially influential in East Asian Buddhism the teaching clarifies the meaning of nonduality and stresses the importance of the Bodhisattva ideal of saving all beings as well as many other important themes in Mahayana Buddhism 2 The teaching does this in an insightful and spiritually imaginative if complex manner that includes humor satire extravagant drama magic poetry and lavish description as well as straightforward doctrinal discussion The style of presentation makes The Teaching of Vimalakirti one of the most fascinating inspiring and readable if bizarre Mahayana Sutras in fact a Sutra that is so extraordinary that readers are urged to relax their logical discursive habitual way of thinking in order to fully absorb the teaching Most importantly the Sutra stresses the nondual teaching that all dichotomies like nirvana and samsara sickness and health sacred and secular and men and women are ultimately empty and thus make no sense 3 When this teaching is fully realized one understands completely as Dogen and Susuki Roshi continually point out that everything is already whole so just try your best and show up **Middle Discourses** Bhikkhu Sujato, SuttaCentral, SuttaCentral has published an entirely new translation of the four Pali nikayas by Bhikkhu Sujato which is the first complete and consistent English translation of these core texts This is an ebook version of Bhikkhu Sujato's translation of the Majjhima Nikaya which can also be read at SuttaCentral website The Middle Discourses Majjhima Nikaya abbreviated MN is a collection of 152 discourses in the Pali canon Tipi aka of the Theravada school of Buddhism The word middle refers to the length of the individual discourses This is perhaps the most popular collection of early discourses It contains a wide variety of teachings many of them presented as narratives between the Buddha and a diverse range of his contemporaries The collection parallels the Madhyama gāyātrī of the Sarvstivada school which survives as a translation in the Chinese canon This translation of Majjhima Nikaya was updated on March 6th 2023 [Human Rights from Exclusion to Inclusion: Principles and Practice](#) Fons Coomans, Cees Flinterman, Fred Grünfeld, Ingrid Westendorp, Jan Willems, 2021-10-25 Professor Theo van Boven has made his mark in the field of human rights by writing a vast number of scholarly articles reports studies congress papers and the like covering many topics Most of his work has been published in law journals textbooks Festschriften and other sources Since not all of these publications are easily accessible it is the purpose of this anthology to bring together a selection of his writings from 1966 to 1998 The editors have focused on those subjects that played a major part during Theo van Boven's career and that are in their view the most interesting to the reader That is why this volume contains papers on such issues as the United Nations and its role as regards human rights racial discrimination

the right to rehabilitation the international criminal tribunals the role of NGOs and many more The papers have been arranged in different groups under general headings Within each group articles dealing with the same subject have been put in chronological order A detailed bibliography covering most of Theo van Boven's publications is included in this book as an annex All through his work Theo van Boven displays his sound theoretical background as well as his enormous practical experience This combination makes his writings so attractive and compelling to read The Other Side of Nothing Brad Warner, 2022-05-10 A reader friendly guide to Zen Buddhist ethics for modern times In the West Zen Buddhism has a reputation for paradoxes that defy logic In particular the Buddhist concept of nonduality the realization that everything in the universe forms a single integrated whole is especially difficult to grasp In The Other Side of Nothing Zen teacher Brad Warner untangles the mystery and explains nonduality in plain English To Warner this is not just a philosophical problem nonduality forms the bedrock of Zen ethics and once we comprehend it many of the perplexing aspects of Zen suddenly make sense Drawing on decades of Zen practice he traces the interlocking relationship between Zen metaphysics and ethics showing how a true understanding of reality and the ultimate unity of all things instills in us a sense of responsibility for the welfare of all beings When we realize that our feeling of separateness from others is illusory we have no desire to harm any creature Warner ultimately presents an expansive overview of the Zen ethos that will give beginners and experts alike a deeper understanding of one of the world's enduring spiritual traditions Humanity's Last Stand Nicanor Perlas, 2018-07-25 Although still in its earliest stages artificial intelligence AI is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism mankind stands at a crossroads In Humanity's Last Stand Nicanor Perlas makes an urgent plea It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Further if we do not master it now ASI will transform mankind into its own image Ultimately it will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but gave clear alternatives Steiner the founder of a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from the abyss It is the task of the global anthroposophical movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas gives an overview of the phenomenon of AI together with its related transhuman concepts of perfecting humanity and outlines the critical internal and external responses required to meet them with consciousness In particular he addresses the movement connected to the work of Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says the author is humanity's last stand and failure is not
