strategic discretionary enforcement of morals laws including disorderly conduct vagrancy and other prostitution related misdemeanors Between Prohibition in the 1920s and the rise of broken windows policing in the 1980s police targeted white and Black women in distinct but interconnected ways These tactics reveal the centrality of racist and sexist myths to the justification and deployment of state power Sexual policing did not just enhance police power It also transformed cities from segregated sites of urban vice into the gentrified sites of Black displacement and banishment we live in today By illuminating both the racial dimension of sexual liberalism and the gender dimension of policing in Black neighborhoods *The Streets Belong to Us* illustrates the decisive role that race gender and sexuality played in the construction of urban police regimes
