Right To Die Caring Alternatives To Euthanasia:

The Right to Die? Mark Blocher,1999 The Right to Die challenges us to accept that there is no disgrace in human mortality that human dignity can be cared for and respected in the midst of life's worst experiences Mark suggests that Christians must become proactive in providing alternatives to assisted suicide and euthanasia while offering at least three promises to the terminally ill person to the best of our ability we will not allow you to die in pain we will not allow you to die alone you will not be a burden to anyone *Euthanasia* Josef Kuře,2011-09-15 No one really wants to die or do they From classical times to our post modern era of medical high tech societies have struggled with the thorny issue of euthanasia and what it entails Who shall be entitled to a good death and in what form shall it arrive This book provides the reader with insight and enlightenment on the medical philosophical social cultural and existential aspects of good death amid our digitized individualized and ageing society hampered by rising health care costs but unchained from one standardized level of care Community Care in Hong Kong Kar-wai TONG,Kenneth Nai-kuen FONG,2014-10-16 Different global healthcare challenges bring threats to the healthcare system Like other developed countries Hong Kong is also focusing on how to manage the ageing population how to meet the rising public expectations and how to finance the ever increasing medical costs Strengthening community care services may provide a way out for settling these concerns Written by a team of renowned scholars and leading practitioners this book aims at evaluating how different parties can assist in building up local community capacity to achieve sustainable health and wellness The book is divided into three sections The first section discusses the different roles and practices of specialised community care that contribute to the relative success of the healthcare system in Hong Kong The second section makes use of various research practices to extrapolate future healthcare needs and practices in Hong Kong And the last one addresses the values of health care which underlie the healthcare culture structure and practice in Hong Kong over time Apart from pointing out the limitation of the current system this book will also discuss the future directions of the healthcare system in order to cope with the challenges in a changing society Published by City University of Hong Kong Press Ministering to the Mourning Warren Wiersbe,David Wiersbe,2006-04-01 Formerly titled Comforting the Bereaved this practical insightful guide gives direction to pastors and lay leaders of all levels of experience Included are recommended Scriptures to read an explanation of the stages of grief approaches to conducting funerals in special circumstances such as suicide victims of crime multiple family deaths or when the deceased is unknown to the pastor signs of healthy and unhealthy grief and how to help survivors cope *The Popular Encyclopedia of Apologetics* Ed Hindson,Ergun Caner,2008-05-01 The perfect combination of scholarship and accessible presentation for Christians who desire to know how to better understand and defend their faith Bestselling authors Ed Hindson and Ergun Caner have brought together a who's who of apologetic experts including Lee Strobel Norm Geisler Josh McDowell and John Ankerberg to produce a resource that's both easy to understand and comprehensive in scope Every entry provides a biblical perspective

and mentions the key essentials that believers need to know about a wide variety of apologetic concerns including issues concerning God Christ and the Bible scientific and historical controversies ethical matters genetic engineering homosexuality ecology feminism a Christian response to world religions and cults a Christian response to the major worldviews and philosophies of our day Included with each entry are practical applications for approaching or defending the issue at hand along with recommendations for additional reading on the subject

Euthanasia Moral Debate Winston Cellini, 2025-01-08

Euthanasia Moral Debate offers a comprehensive exploration of one of healthcare's most challenging ethical dilemmas the complex intersection of end of life decisions personal autonomy and medical ethics The book navigates this sensitive terrain by examining three fundamental perspectives philosophical foundations legal frameworks across different jurisdictions and real world experiences of patients families and healthcare providers Through this multifaceted approach readers gain deep insight into how different societies approach the delicate balance between the right to live and the right to die with dignity The work traces the evolution of euthanasia debates from the Hippocratic Oath to modern times highlighting how advances in life sustaining technologies have transformed traditional concepts of natural death It presents compelling evidence through a combination of medical studies legal precedents and personal narratives while maintaining strict objectivity in addressing both active and passive euthanasia physician assisted death and palliative care options The book's structure thoughtfully progresses from theoretical foundations to practical applications making complex concepts accessible to both professional and general audiences What sets this work apart is its balanced integration of multiple disciplines including medical science legal studies bioethics and social policy It addresses crucial contemporary issues such as the tension between patient autonomy and medical paternalism the role of advance directives and the challenges of protecting vulnerable populations Through careful analysis and comprehensive evidence the book equips readers with the necessary tools to engage meaningfully with these profound ethical questions while remaining sensitive to their real world implications

Devettere, 2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making This third

edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa This edition also includes a new chapter on the latest social and political issues in American health care Devettere s engaging text relies on commonsense moral concepts and avoids academic jargon It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics

Last Rights Barbara Logue,1993-01-01 Several recent trends demographic social and economic are increasing the incidence and public support of deliberate death among the old and sick The number of elderly people is at an all time high Medical technology can prolong the lives of these men and women but it cannot keep them independent free of pain or competent to manage their own affairs Never before have so many been so sick for so long Changes in the size and structure of the American family make long term home care almost impossible while exorbitant health costs and scarce resources limit the provision of highquality care by paid workers Researcher Barbara J Logue refers to any deliberate behavior that causes death as death control She points out that death control like birth control involves very serious and deeply personal decisions choices that ought to be made on the basis of reliable information with care and compassion without coercion She goes on to assert that like birth control death control should be performed legally and with the help of the medical community Without access to assisted deaths many frail old people are left to endure wretched deaths Some die slowly of neglect or malnutrition in nursing homes Others take their own lives sometimes by violent means while they can still act independently because they are afraid that no one will help them if they wait until they are very sick Some die alone fearful of implicating friends or relatives in their back alley euthanasia While some die too soon because they are poor uneducated or hard to manage others are overtreated and their deaths delayed because doctors and hospitals want to increase their income or fearprosecution if they help a patient die Barbara Logue describes these and many other hazards inherent in our present long term care system noting that all too often the system causes suffering instead of alleviating it After assessing the alternatives she urges that we must make compassionate death control as available as birth control We must regulate and monitor it like any other medical procedure taking steps to minimize the risks while maximizing the benefits

Health Care Policy in an Age of New Technologies Kant Patel,Mark E Rushefsky,2015-05-20 Revolutionary

advances in biomedical research and information systems technology pose new and difficult issues for American health care policy especially in the context of managed care Health Care Policy in a New Millennium takes on this challenging array of issues where the dignity of individual life meets the imperatives of national level health care systems patients rights rationing of care organ transplants genetic research confidentiality of medical records the right to die and other ethical dilemmas The book places these critical questions about the quality of life in our society in their political legal social economic and ethical contexts

The Patient's Wish to Die Christoph Rehmann-Sutter, Heike Gudat, Kathrin Ohnsorge, 2015-06-04 Wish to die statements are becoming a frequent phenomenon in terminally ill patients Those confronted by these statements need to understand the complexity of such wishes so they can respond competently and compassionately to the requests If misunderstood the statements can be taken at face value and the practitioner may not recognise that a patient is in fact experiencing ambivalent feelings at the end of life or they may misinterpret the expressed wish to die as a sign of clinical depression Public debate about the morality and ethics of various end of life care options has exploded in recent years However it has never been sensitive to the finer aspects of clinical reality or the experiences of patients The Patient's Wish to Die Research Ethics and Palliative Care brings together that reality and the patient's voice combining them with different research approaches It presents the best available knowledge and research methodologies about patients wishes at the end of life together with a series of ethical views and a discussion about the clinical implications for palliative care The book presents material in an open and unbiased manner whilst remaining sensitive to the spiritual and existential dimensions of dying and to the different cultural views that provide meaning to the individual Written by the best specialists and ethics scholars from around the world including palliative care practitioners and end of life scholars from countries where assisted dying practices are legalized and from those where it isn't The Patient's Wish to Die Research Ethics and Palliative Care will prove essential reading for all those working or studying in the field of palliative care
