Right Word In Chinese:

How to Read Chinese Prose in Chinese Zong-qi Cai, Jie Cui, Liu Yucai, 2022-01-18 This book is at once a guided introduction to Chinese nonfictional prose and an innovative textbook for the study of classical Chinese. It is a companion volume to *How to Read Chinese Prose: A Guided Anthology* designed for Chinese language learners. *How to Read Chinese Prose in Chinese* presents more than forty prose works either excerpts or in full from antiquity through the Qing dynasty. While teaching readers how to appreciate the rich tradition of Chinese prose in its original form, the book uses these texts to introduce classical Chinese to advanced learners, helping them develop reading comprehension and vocabulary. It offers a systematic guide to classical Chinese grammar and abundant notes on vocabulary and features an extensive network of notes, exercises, and cross references. The book includes modern translations of the forty prose works in simplified Chinese presented alongside the original texts in traditional Chinese. It also includes expert commentaries on each text's distinctive aesthetic qualities as well as historical and cultural contexts. The book comprises thirty-eight lessons within eight units organized chronologically to reflect the emergence of major prose genres. It is a major contribution to the teaching and study of classical Chinese language and literature. Audio recordings of all forty texts are available online free of charge.

Chinese dual language immersion (DLI) education experienced unprecedented growth in recent years; hence it has become critical that Chinese DLI research catches up to inform Chinese DLI teachers and administrators of the most effective ways to teach and run their programs. The purpose of *Chinese English Dual Language Immersion Programs: Content Area Instruction, Learners, and Evaluations* is to explore three DLI themes that are under-researched: content area instruction, learners, and evaluations. The first section of this edited volume is dedicated to exploring current teaching designs and practices in different content subjects in Chinese DLI programs in order to make useful teaching suggestions to the programs. The second section includes studies which look into K-12 Chinese DLI learners' learning variables such as motivations, learning strategies, learner perception and engagement, and learner background differences. The last section of this edited volume intends to fill the research gap by including studies which adopt various methods to evaluate Chinese DLI students' target language level to better illustrate their learning progress in different language skills.

Case Analysis of Cognitive Switch Between Chinese and English Languages Zhong Chen, 2016-08-29

The Chinese language contains a set of mind sets that differ from those in English. Such differences between languages require mind set conversion in cross cultural communication. In applying cognitive linguistic theories to examining cross cultural communication cases, this book explores cognitive mind sets in English and Chinese as well as the processes of converting them from one language to another. It focuses on the principles by which a language selects its cognitive perspective based on its cultural convention, perception, and the conventional ways of representation of the world. In analyzing the linguistic rules and culturally driven cognitive motivation through an issue-driven and case study approach, this book helps students and other readers understand better the cross cultural cognitive motivation between English and Chinese. In so doing, this book aims at enhancing the interest level and study efficacy for foreign language learning. This book can serve as a reference for instructors in syllabus designing as well as for linguistic professional training. The book is also suitable to be used as a reference for undergraduate and postgraduate students majoring in linguistics, translation, and teaching Chinese as a foreign language to speakers of other languages. Finally, it can be a useful reference for undergraduates who learn Chinese as a foreign language.

The Chinese Puzzle Miles Burton, 2025-06-09T00:00:00Z

Bradford's first instinct was to blow a resounding blast on his whistle, hoping that one or more of his colleagues on adjoining beats would hear it. Then he pounded up Swanton Street until he reached the source of the clamour, which came from the area of Number Fifteen. He knew the house well for it was occupied by one Spotty Jim, who had for some time been under police observation.
