cross references and other reference features      *No Guarantee of a Gun* John Massaro, 2009-12-03 The information in this book proves by means of credible and irrefutable documentary evidence that the Supreme Court's decision on June 26 2008 in *District of Columbia v Heller* which held that the Second Amendment protects the right of an individual to possess and carry weapons was incorrect And the information in this book forms the foundation of what would have been the correct decision in that case Second Amendment commentary and case law are incorrect But unfortunately they are relied upon by today's scholars and jurists However this book written in plain English instead of the legalese that many persons find unappealing about books pertaining to legal subjects takes the bold step of disproving these incorrect authorities on the most controversial and puzzling provision of the United States Constitution and it meets that challenge While other books on the Second Amendment rely largely on incorrect commentary and case law this book uses credible and irrefutable documentary evidence to uncover the substance of the Second Amendment By proving that Second Amendment commentary and case law are incorrect this book will become both the preeminent treatise on the Second Amendment and a landmark book in the field of Constitutional law And while gun control has been a highly controversial issue for a long time the debate on gun control has been improperly bifurcated into what is good public policy and what is Constitutional This book eliminates the Constitutional component of that debate so that the debate can be focused solely on what is good public policy Other books written on the Second Amendment propose incorrect theories or attempt to reconcile its two supposed clauses However this book is the best book ever written on the Second Amendment because it does what no other book has ever done It uncovers by means of documentary evidence instead of mere argument the true meanings of the terms A well regulated Militia people keep and bear arms      **Czesław Miłosz** Czesław Miłosz, 2006 Czesław Miłosz 1911-2004 felt that part of his role as a poet and critic was to bear witness to bloodshed and terror as well as to beauty He survived the Soviet invasion of his beloved Lithuania escaped to Nazi occupied Warsaw where he joined the Socialist resistance then witnessed the Holocaust and the razing of the Warsaw Ghetto After persecution and censorship triggered his defection in 1951 he found not relief but the anguish of solitude and obscurity In the years of loneliness and labor Miłosz continued writing poems and essays learning to love his privacy and preoccupations and enjoying the devotion of his students at the University of California Berkeley International fame came like lightning when Miłosz won the 1980 Nobel Prize for Literature Czesław Miłosz *Conversations* collects pieces from a wide range of sources over twenty five years and includes an unpublished interview between Miłosz and his friend and fellow Nobel Laureate poet Joseph Brodsky This volume acquaints us with a man whose work life and thought defy easy characterization He is a sensualist with a scholar's penchant for history as likely to celebrate Heraclitus as the hooks on a woman's corset He is a devout but doubting Catholic and a thinker tinged with a heretical sensibility Cynthia L Haven is a literary critic for the *San Francisco Chronicle* and a regular contributor to the *Washington Post Book World* the *Times Literary Supplement* and the *Los Angeles Times Book Review* Her work also has been published in *Civilization* the

Jenkins,1997-12-04 Educated people have become bereft of sophisticated ways to develop their religious inclinations A major reason for this is that theology has become vague and dull In *The Character of God* author Thomas E Jenkins maintains that Protestant theology became boring by the late nineteenth century because the depictions of God as a character in theology became boring He shows how in the early nineteenth century American Protestant theologians downplayed biblical depictions of God s emotional complexity and refashioned his character according to their own notions stressing emotional singularity These notions came from many sources but the major influences were the neoclassical and sentimental literary styles of characterization dominant at the time The serene benevolence of neoclassicism and the tender sympathy of sentimentalism may have made God appealing in the mid 1800s but by the end of the century these styles had lost much of their cultural power and increasingly came to seem flat and vague Despite this both liberal and conservative theologians clung to these characterizations of God throughout the twentieth century Jenkins argues that a way out of this impasse can be found in romanticism the literary style of characterization that supplanted neoclassicism and sentimentalism and dominated American literary culture throughout the twentieth century Romanticism emphasized emotional complexity and resonated with biblical depictions of God A few maverick religious writers such as Harriet Beecher Stowe W G T Shedd and Horace Bushnell did devise emotionally complex characterizations of God and in some cases drew directly from romanticism But their strange and sometimes shocking depictions of God were largely forgotten in the twentieth century s use theological as a pejorative term implying that an

argument is needlessly Jenkins urges a reassessment of their work and a greaterin understanding of the relationship between theology and literature Recovering the lost literary power of American Protestantism he claims will make the character of God more compelling and help modern readers appreciate the peculiar power of the biblical characterization of God
