Why Europe Intervenes in Africa Catherine Gegout, 2018-01-01 Why Europe Intervenes in Africa analyses the underlying causes of all European decisions for and against military interventions in conflicts in African states since the late 1980s It focuses on the main European actors who have deployed troops in Africa France the United Kingdom and the European Union When conflict occurs in Africa the response of European actors is generally inaction This can be explained in several ways the absence of strategic and economic interests the unwillingness of European leaders to become involved in conflicts in former colonies of other European states and sometimes the Eurocentric assumption that conflict in Africa is a normal event which does not require intervention When European actors do decide to intervene it is primarily for motives of security and prestige and not primarily for economic or humanitarian reasons The weight of past relations with Africa can also be a driver for European military intervention but the impact of that past is changing This book offers a theory of European intervention based mainly on realist and post colonial approaches It refutes the assumptions of liberals and constructivists who posit that states and organisations intervene primarily in order to respect the principle of the responsibility to protect

Occupying the "Other" Robin Gerster, Christine de Matos, 2009-01-14 In late 1945 Australia eagerly put up its hand to join the American led military occupation of war devastated Japan the old enemy was still hated yet the Australian involvement was motivated by ideals of democratic reconstruction rather than retribution In the age of Iraq when Australia has again participated in a US occupation of a rogue non Western state humbled in war it is time to consider

troubling questions surrounding the nation's engagement in contentious overseas occupations Can Western conceptions of democracy be imposed militarily on other societies To what extent has Australia's willingness to support the United States been an expression of independent policy making or meek acquiescence in the neocolonial imperatives of the global superpower How do occupations differ When does intervention become occupation To what extent are entrenched cultural attitudes to race and religion a factor in decisions to occupy and on how these occupations are perceived at home And how has the Australian media influenced public attitudes to these ventures This collection of essays by leading Australian academics and commentators places Australia's historical role as an occupier on the critical map Now as the country juggles complex national regional and international alliances and obligations this conversation is as compelling as it is belated

between force and violence Pacifism informed by nonviolence excludes violence but the book argues allows forms of force Peacekeeping is an activity that on the face of it seems compatible with pacifism and several different forms of peacekeeping are examined The implications of nonviolence for the treatment of nonhuman animals are also examined Two models for attaining the conditions required for a world without war have been proposed Both are treated and one the model of a biological human family is developed The book concludes with reflections on the role of pacifism in each of five possible futurescapes

UN Emergency Peace Service and the Responsibility to Protect Annie Herro, 2016-05-20 This book examines the attitudes of political military and non state actors towards the idea of a UN Emergency Peace Service and the issues that might affect the establishment of this service in both theory and practice The United Nations Emergency Peace Service UNEPS is a civil society led idea to establish a permanent UN service to improve UN peace operations as well as to operationalise the emerging norm of the responsibility to protect civilians from atrocity crimes The UNEPS proposal has received limited support The book argues that interest in and support for the UNEPS proposal is determined by perceptions that it would erode state sovereignty the extent to which the principles of the proposal are consistent with actors views on the world and perceptions on whether UNEPS will realistically be capable of contributing to the workings of the UN and regional peacekeeping systems in areas that are seen to be deficient This book makes the case for localising the UNEPS proposal so that it is more consistent with attitudes of those consulted for this research It concludes that the development of a series of less ambitious proposals could be the first steps to creating a rapidly deployable service with the mandate to prevent atrocity crimes This book will be of much interest to students of peace operations the Responsibility to Protect international organisations IR and security studies

Turkey's Kurdish Question Hamid Akin Unver, 2015-05-22 The Kurdish question is one of the most complicated and protracted conflicts of the Middle East and will never be resolved unless it is finally defined The majority of the Kurdish people live in Turkey which gives the country a unique position in the larger Kurdish conundrum Society in Turkey is deeply divided over the definition and even existence of the Kurdish question and this uncertainty has long manifested itself in its complete denial or in accusations of political rivals of separatism and even treason Turkey's Kurdish Question explores how these denial and acknowledgement dynamics often reveal pre existing political ideology and agenda priorities themselves becoming political actions While the very term Kurdish question is discussed in the academic literature as a given a new and systemic study is required to deconstruct and analyze the constitutive parts of this discursive construct This book provides the first comprehensive study and analysis of the discursive constructions and perceptions of what is broadly defined as the Kurdish question in Turkish European and American political cultures Furthermore its new methodological approach to the study of discourse and politics of secessionist conflicts can be applied to many similar intra state conflict cases Turkey's Kurdish Question would suit students and scholars of Middle East studies Conflict studies and Comparative Politics as well as Turkish or Kurdish studies H Ak n ver is an assistant professor

of international relations at Kadir Has University This book is based on his dissertation Defining Turkey's Kurdish Question which has won the Middle East Studies Association MESA 2010 Malcolm H Kerr award for the best dissertation in the field of social sciences

Theories of International Relations and Northern Ireland Timothy J. White, 2017-01-29 This book uses the case of Northern Ireland to evaluate theoretical approaches in international relations It investigates the process of negotiation that led to the signing of the Good Friday or Belfast Agreement and the continuing challenges to peace reconciliation in Northern Ireland Incorporating the work of leading scholars it explores a wide range of topics including the function of deception in promoting peace the question of partition and how it was reimagined by nationalists such as John Hume and how the decommissioning process led to a role in internal policing for paramilitaries The influence of outside actors notably the United States and the European Union is also considered along with the involvement of the Catholic Church and the marginalization of women This book will be important for academics interested in theories of international relations and to a wider public interested in understanding the Northern Ireland peace process

Network Theory and Violent Conflicts Christian R. Kramer, 2016-11-30 This book offers a novel approach to understanding violence and violent conflict using complexity and network theories borrowed from the natural sciences together with social network analysis Because violence is both a universal and central component of human communication and identity formation it has a fundamental function in shaping social behavior Using Manuel Castells work on the programming of social networks this book explores the Lebanese Civil War and the ongoing war in Afghanistan under the perspective of violence within networks The approach presents a unique and compelling argument that counters the long held assumption that war is caused by specific events or is the unavoidable culmination of existing conditions or grievances Rather this book argues that violence emerges when the structure of social networks becomes too rigid and hierarchic to adapt to stresses and challenges that materialize on a constant basis from both within and without the network This is important not only for the study of war but as a method of improving the success of contemporary peace building efforts

War, Peace, and Christianity J. Daryl Charles, Timothy J. Demy, 2010 This informed Christian response to more than one hundred common questions regarding the ethics of war demonstrates the viability of just war reasoning in responding to contemporary geopolitical challenges

Pacific Power? Joanne Wallis, 2017-07-17 Australia is much larger and has significantly more military and economic power than its Pacific Island neighbours As a result it is frequently described as having a natural right to lead in the region Yet Australia has found it difficult to effectively influence Pacific Island states in pursuit of its strategic interests It provides the definitive account of how and how effectively Australia has sought to influence Pacific Island states in pursuit of its strategic interests since 1975

the year that Papua New Guinea Australia's former colonial territory gained independence Informed by interviews with key decision makers Pacific Power analyses why Australia has had difficulty exercising influence in the Pacific Islands and identifies how Australia can more effectively influence Pacific Island states in pursuit of its strategic interests and how Australia can present itself more as a Pacific partner than power *The Best Defense?* Abraham D. Sofaer, 2013-09-01 The Stanford Task Force Report on Preventive Force by Abraham D Sofaer offers a practical guide to identifying and considering the issues relevant to preventive uses of force The report seeks to ensure that such uses of force if undertaken will advance national and international security and the purposes of the United Nations Charter The report examines the legitimacy dangers and limitations of preventive force and concludes by encouraging states and decision makers to undertake a systematic appraisal of the merits of any threat or use of preventive force based not only on legal standards which have proved an ineffective guide but also on standards related to legitimacy such as the consistency of proposed actions with the U N Charter and established norms of conduct **Responsibility to Protect** Alex J. Bellamy, 2013-04-24 At the 2005 UN World Summit world leaders endorsed the international principle of Responsibility to Protect R2P acknowledging that they had a responsibility to protect their citizens from genocide and mass atrocities and pledging to act in cases where governments manifestly failed in their responsibility This marked a significant turning point in attitudes towards the protection of citizens worldwide This important new book charts the emergence of this principle from its origins in a doctrine of sovereignty as responsibility through debates about the legitimacy of humanitarian intervention and the findings of a prominent international commission and finally through the long and hard negotiations that preceded the 2005 commitment It explores how world leaders came to acknowledge that sovereign rights entailed fundamental responsibilities and what that acknowledgment actually means The book goes on to analyze in detail the ways in which R2P can contribute to the global effort to end genocide and mass atrocities Focusing on the prevention of these crimes and the improvement of the world's reaction to them the book explores the question of how to build sustainable peace in their aftermath Alex J Bellamy argues that although 2005 marked an important watershed much more work is needed to defend R2P from those who would walk away from their commitments and in the words of UN Secretary General Ban Ki moon to translate the principle from words into deeds This fascinating book will appeal to students and scholars of international relations international affairs human rights and humanitarian emergencies as well as anyone concerned about the protection of civilians on a global scale
