

DEPRIVATION OF RIGHTS

Three-quarters of citizens of Montenegro assess that deprivation of right solely on the basis of some personal feature is not justified, with no exceptions, although one-fifth (21%) tends to claim that generally it is not justified, but there are circumstances when it is. Situation is almost identical as it was in 2016, and concerning as it points that this percentage of citizens still does not understand that there is no justification for discrimination.

■ It is not justified, with no exception ■ Mostly not justified, but there are circumstances when it is justified ■ Justified in the majority of cases

In your opinion, is it justified to deprive someone of a right (for instance, right to labour, to education, health care, use of their language, etc.) only on the basis of some personal feature (for example, based on nationality, religion, gender, age, sexual orientation, property status etc.)?

Rights And Deprivation:

Rights and Deprivation Lesley A. Jacobs, 1993 Many welfare state programs redistribute resources from some citizens to others This book discusses whether such a redistribution can be justified by a theory of moral rights Lesley Jacobs maintains that while many orthodox rights based defenses of state welfare are misconceived it is nevertheless possible to defend programs such as universal access to health care and social security on the grounds that they are required to fulfill the moral rights of individual citizens *Rights and Deprivation* Lesley A. Jacobs, 1990

Jurisdiction of Courts in Matters Relating to the Rights and Powers of Cases Sir Dinshah Fardunji Mulla, 1901 A New Study on the Judicial Administrative System with Chinese Characteristics Yong'an Ren, Xianyang Lu, 2020-05-13 This book offers a comprehensive introduction to China's judicial administration system It presents in depth analyses of the country's current judicial administration system as well as a new theory on the system that is based on the realities of today's China and provides guidance on reform The book examines the system as a whole as well as various specific aspects of judicial administration putting forward bold theoretical proposals for improving China's judicial administration system and judicial system in general

EXCLUDED AND VICTIMIZED CITY MAKERS: ECONOMIC, SOCIAL AND CULTURAL RIGHTS OF DALITS AMONG DALITS Joseph Xavier, HUMAN RIGHTS of the Vulnerables Dr. A. A. GADWAL, 2020-06-26 Meaning and Concepts Human rights are universal norms framed for and rights granted to the of the people of the whole world against the political social and legal abuse All human beings irrespective of their sex race religion language place of birth are entitled to enjoy their human rights The provisions and practice of human rights protects all human beings from exploitation humiliation deprivation violence and injustice Human rights emphasizes on humanitarian approach towards all human being it believes in and promotes human values ethics morals dignity justice liberty equality and integrity of all human beings Human rights are supported by constitution and legal machinery of the state The origin of the human rights is traced to framed back in in Magana Carta under Declaration of Human Rights Before understanding the origin nature and provision in human rights one must know the basic concepts used in hence an attempt is made here to explain the concepts used in the draft of human rights some of them are as following Human Values In common parlance it is said that an individual has value or importance or an object of use has this much value the two usages have different meaning Human values is immeasurable and distinctive from the value of an object Human values have been employed so distinctively in different ways and times The term Value is originated from the Latin word Valere Which means to be of worthy The concise Oxford dictionary defines the term Value as the worth desirability or utility of a thing In other words Value means Relative worth or importance Monetary or material worth Values are the ideas customs institutions etc of a society towards which the people of the group have an effective regard These values may be positive as cleanliness freedom or education negative as security crime or blasphemy The aim of education is concerned with values of all kinds modern education itself is value oriented The social aims and believes which

are regarded as the important aspect of a culture then the different aspects of culture are also values The Idea of Human Rights Charles R. Beitz, 2011-07-28 Human rights have become one of the most important moral concepts in global political life over the last 60 years Charles Beitz one of the world's leading philosophers offers a compelling new examination of the idea of a human right **The Cambridge Handbook of New Human Rights** Andreas von Arnould, Kerstin von der Decken, Mart Susi, 2020-01-02 The book provides in depth insight to scholars practitioners and activists dealing with human rights their expansion and the emergence of new human rights Whereas legal theory tends to neglect the development of concrete individual rights monographs on new rights often deal with structural matters only in passing and the issue of new human rights has received only cursory attention in literature By bringing together a large number of emergent human rights analysed by renowned human rights experts from around the world and combining the analyses with theoretical approaches this book fills this lacuna The comprehensive and dialectic approach which enables insights from individual rights to overarching theory and vice versa will ensure knowledge growth for generalists and specialists alike The volume goes beyond a purely legal analysis by observing the contestation rhetorics the struggle for recognition of new human rights thus speaking to human rights professionals beyond the legal sphere Human Rights Adam Etinson, 2018 Over the past decade or so philosophical speculation about human rights has tended to fall into two streams On the one hand there are Orthodox theorists who think of human rights as natural rights moral rights that we have simply in virtue of being human On the other hand there are Political theorists who think of human rights as rights that play a distinctive role or set of roles in modern international politics setting universal standards of political legitimacy serving as norms of international concern and or imposing limits on the exercise of national sovereignty This edited volume explores this disagreement its underlying sources and related issues in the philosophy of human rights Using the Orthodox Political debate as a springboard for broader reflection the volume covers a diverse range of questions about the relevance of the history of human rights to their philosophical comprehension how to properly understand the relationship between human rights morality and law how to balance the normative character of human rights their description of an ideal world with the requirement that they be feasible in the here and now the role of human rights in a world shaped by politics and power and how to reconcile the individualistic and communitarian aspects of human rights All chapters are accompanied by useful and probing commentaries which help to create dialogues throughout the entire volume **Reconstructing Human Rights** Joe Hoover, 2016-05-27 We live in a human rights world The language of human rights claims and numerous human rights institutions shape almost all aspects of our political lives yet we struggle to know how to judge this development Scholars give us good reason to be both supportive and sceptical of the universal claims that human rights enable alternatively suggesting that they are pillars of cross cultural understanding of justice or the ideological justification of a violent and exclusionary global order All too often however our evaluations of our human rights world are not based on sustained

consideration of their complex ambiguous and often contradictory consequences Reconstructing Human Rights argues that human rights are only as good as the ends they help us realise We must attend to what ethical principles actually do in the world to know their value So for human rights we need to consider how the identity of humanity and the concept of rights shape our thinking structure our political activity and contribute to social change Reconstructing Human Rights defends human rights as a tool that should enable us to challenge political authority and established constellations of political membership by making new claims possible Human rights mobilise the identity of humanity to make demands upon the terms of legitimate authority and challenges established political memberships In this work it is argued that this tool should be guided by a democratising ethos in pursuit of that enables claims for more democratic forms of politics and more inclusive political communities While this work directly engages with debates about human rights in philosophy and political theory in connecting our evaluations of the value of human rights to their worldly consequences it will also be of interest to scholars considering human rights across disciplines including Law Sociology and Anthropology
