Rights And Wrongs Of Anger:

The Rights and Wrongs of Anger H. Norman Wright,1988 *Right the Wrong Within* Mary Sherman,2007-04 Citing examples from her own life Sherman explains to readers what it means to be in Christ 1 Corinthians 1 30 and what Christ in us Colossians 1 27 means Her work is geared for those who are struggling to live the Christian life Christian Right and Wrong Thinking, and Their Results Aaron Martin Crane,1908 What's So Wrong with Being Absolutely Right Judy J. Johnson,2009-12-02 After explaining the dangerous nature of dogmatic belief psychologist Johnson teaches strategies for dealing with dogmatic people and provides suggestions for minimizing the harmful effects of dogmatism in educational political and social institutions **Rights, Wrongs, and Injustices** Stephen A. Smith,2019-11-12 Rights Wrongs and Injustices is the first comprehensive account of the scope foundations and structure of remedial law in common law jurisdictions The rules governing the kinds of complaints that common law courts will accept are generally well understood However the rules governing when and how they respond to such complaints are not This book provides that understanding It argues that remedies are judicial rulings and that remedial law is the law governing their availability and content Focusing on rulings that resolve private law disputes for example damages injunctions and restitutionary orders this book explains why remedial law is distinctive how it relates to substantive law and what its foundational principles are The book advances four main arguments First the question of what courts should do when individuals seek their assistance the focus of remedial law is different from the question of how individuals should treat one another in their day to day lives the focus of substantive law Second remedies provide distinctive reasons to perform the actions they command in particular they provide reasons different from those provided by either rules or sanctions Third remedial law has a complex relationship to substantive law Some remedies are responses to rights threats others to wrongs and yet others to injustices Further remedies respond to these events in different ways while many remedies merely replicate substantive duties others modify substantive duties and some create entirely new duties Finally remedial law is underpinned by general principles principles that cut across the traditional distinctions between so called legal and equitable remedies Together these arguments provide an understanding of remedial law that takes the concept of a remedy seriously classifies remedies according to their grounds and content illuminates the relationship between remedies and substantive law and presents remedial law as a body of principles rather than a historical category **Jax's Tail Twitches** David Powlison,2018-10-08 Everyone gets frustrated when something important to them goes wrong In Jax s Tail Twitches the whole Squirrel family ends up out of sorts when acorn gathering doesn t go according to plan Although Papa Mama Jax and Caspian Squirrel all get angry they also learn about the power of saying sorry seeking forgiveness remembering God s **To Right the Unrightable Wrong** Robert L. Pirtle,2007-11-16 A century ago Americans were still moving west settling in new states establishing themselves in new environments That pattern was followed by the grandparents then by the parents of Robert L Pirtle the author of this autobiography The

eventual home of the authors parents and his family was Roswell New Mexico a sleepy little town in southeastern New Mexico To begin with however the book traces the authors lineage even including fascinating familial connections to the compilation of the King James Version of the Bible to the Cherokee Indian Tribe and to the Commander of the Alamo Readers will certainly enjoy the picture the author draws of small town America in the 1930s and 1940s of the vicissitudes of growing up of junior and senior high school days and high jinks The author displayed an interest in fairness and justice from his earliest days indeed he proposes that every child has an inherent instinct for justice As the author moved through childhood and school years he encountered numerous incidents in which the concept of fairness played a decisive part Though such incidents of childhood are of minimal significance yet they play a part in shaping a childs character and perception of the world and can lead to incidents of real significance in adulthood The author describes incidents which did just that in his own life In one instance the author shamefacedly admits being the cause of a hurtful injustice to others yet that incident too played its part in his maturation It is said after all that good judgment comes from experience and experience comes from bad judgment By the time the author graduated from high school his interest in science in mathematics rose to the forefront of his mind and he entered Purdue University with a four year scholarship from the University Before the year was out however he knew he did not want to pursue science as a career and he switched to the University of Arizona where he majored in mathematics his easiest subject while he sampled the liberal arts and pondered what his life work would be He first considered entering the ministry and becoming a Methodist Preacher but little by little he decided that he could prove of greater help to people and especially to the cause of justice as a lawyer Accordingly his last year in the undergraduate program was his first year in the law school of the University of Arizona After graduating he took his commission as a 2nd lieutenant in the United States Air Force working as a mathematician at the Special Weapons Center of Kirtland Air Force Base in Albuquerque New Mexico The authors function was as target analyst designing an atomic weapon delivery system for fighter aircraft Fascinating is the authors description of his witnessing the explosion of an atomic bomb named Zucchini in Nevada in 1955 The author entered the University of Colorado upon completing his Air Force term and was hired by the largest law firm in Seattle Holman Mickelwait Marion Black Perkins upon his graduation from law school During his brief Air Force career The author had studied Shakespeare at the University of New Mexico later entered into negotiations with the popular TV show The 64 000 Question and was being scheduled to appear on the show after his graduation from law school But the TV show collapsed after Charlie Van Doren son of the internationally known Shakespeare scholar Mark Van Doren lied to a grand jury in New York concerning whether he had been fed answers when he appeared on the show And a year or so of performing legal work for corporate clients discouraged the author to the point that he left the Firm and hung out his shingle as a sole practitioner but simultaneously entered the graduate school of philosophy of the University of Washington contemplating becoming a philosophy professor In the end the author d
