**Human Rights and Citizenship Education** Dina Kiwan, 2016-01-13 This book considers the philosophical sociological and legal implications of the distinction between universal human rights accorded to all because of their membership of the human species and the more particularistic citizenship rights accorded to those who are members of a political community Contributions come from a wide range of disciplinary and interdisciplinary fields including education law and political philosophy as well as from practitioner perspectives Contributions address the three themes of firstly whether human rights and citizenship are complementary or competing conceptions secondly the justifications for human rights and thirdly human rights and citizenship in different cultural contexts This book was originally published as a special issue of the Cambridge Journal of Education

**Human Rights, or Citizenship?** Paulina Tambakaki, 2010-04-05 While human rights have been enjoying unprecedented salience the concept of the citizen has been significantly challenged Rising ethical concerns the calling into question of state sovereignty and the consolidation of the human rights regime have all contributed to a shift in focus from an exclusionary problematic citizenship to human rights Human Rights or Citizenship examines this shift and explores its implications for democracy In an accessible way the book explores the arguments within contemporary democratic theory that privilege law and legally codified human rights over citizenship questioning whether legalism alone could lead us to a better more equitable politics Does the prioritisation of law and legally codified human rights risk depoliticisation Do human rights always contest relations of power and subordination Addressing these questions Human Rights or Citizenship opens a debate about the role of citizenship and human rights in democracy It will be invaluable reading for anyone interested in democratic politics today

**Rights of Citizens and Persons Under the Fourteenth Amendment** Chin-Yung Yen, 1905

**Citizenship and Social Rights** Fred Twine, 1994-09-06 This

broad ranging text offers an analysis of the idea of citizenship and its relevance to social problems and social policies in advanced industrial societies Twine demonstrates that two concepts are essential to an understanding of the issue of citizenship the socially embedded nature of human agents and their interdependence both with each other and with the natural and social worlds they inhabit Twine emphasizes the social nature of individual needs and individual rights He shows that interdependence is not limited to the mutual linkages within advanced industrial societies but extends both to the relations between advanced and developing nations and to the environmental contexts of human existence
