Catalogue of the Works Relative to the Law of Nations and Diplomacy in the Library of the Departement of State, May 13, 1881 Anonymous, 2025-07-11 Reprint of the original first published in 1881 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage The Age of Elizabeth in the Age of Johnson Jack Lynch, 2002-12-12 In The Age

of Elizabeth in the Age of Johnson Jack Lynch explores eighteenth century British conceptions of the Renaissance and the historical intellectual and cultural uses to which the past was put during the period Scholars editors historians religious thinkers linguists and literary critics of the period all defined themselves in relation to the last age or the age of Elizabeth Seventeenth and eighteenth century thinkers reworked older historical schemes to suit their own needs turning to the ages of Petrarch and Poliziano Erasmus and Scaliger Shakespeare Spenser and Queen Elizabeth to define their culture in contrast to the preceding age They derived a powerful sense of modernity from the comparison which proved essential to the constitution of a national character This interdisciplinary study will be of interest to cultural as well as literary historians of the eighteenth century **Catalogue of the Works Relative to the Law of Nations and Diplomacy in the Library of the Department of State, May 13, 1881** United States. Department of State. Library, 1881 *Renaissance humanism and ethnicity before race* Ian Campbell, 2015-11-01 The modern ideology of race so important in twentieth century Europe

incorporates both a theory of human societies and a theory of human bodies Ian Campbell s new study examines how the elite in early modern Ireland spoke about human societies and human bodies and demonstrates that this elite discourse was grounded in a commitment to the languages and sciences of Renaissance Humanism Emphasising the education of all of early modern Ireland s antagonistic ethnic groups in common European university and grammar school traditions Campbell explains both the workings of the learned English critique of Irish society and the no less learned Irish response Then he turns to Irish debates on nobility medicine and theology in order to illuminate the problem of human heredity He concludes by demonstrating how the Enlightenment swept away these humanist theories of body and society prior to the development of modern racial ideology in the late eighteenth century **The Age of Elizabeth in the Age of Johnson** John T.

Lynch, 2003 In The Age of Elizabeth in the Age of Johnson Jack Lynch explores eighteenth century British conceptions of the Renaissance and the historical intellectual and cultural uses to which the past was put during the period Scholars editors historians religious thinkers linguists and literary critics of the period all defined themselves in relation to the last age or the age of Elizabeth This interdisciplinary study will be of interest to cultural as well as literary historians of the eighteenth century *The Grotius Society Publications* Grotius Society, 1921 **De Jure Belli Ac Pacis** Hugo Grotius, 1922

Hobbes and the Law of Nature Perez Zagorin, 2009-11-16 This is the first major work in English to explore at length the meaning context aims and vital importance of Thomas Hobbes s concepts of the law of nature and the right of nature

Hobbes remains one of the most challenging and controversial of early modern philosophers and debates persist about the interpretation of many of his ideas particularly his views about natural law and natural right In this book Perez Zagorin argues that these two concepts are the twin foundations of the entire structure of Hobbes's moral and political thought Zagorin clears up numerous misconceptions about Hobbes and his relation to earlier natural law thinkers in particular Hugo Grotius and he reasserts the often overlooked role of the Hobbesian law of nature as a moral standard from which even sovereign power is not immune Because Hobbes is commonly thought to be primarily a theorist of sovereignty political absolutism and unitary state power the significance of his moral philosophy is often underestimated and widely assumed to depend entirely on individual self interest Zagorin reveals Hobbes's originality as a moral philosopher and his importance as a thinker who subverted and transformed the idea of natural law Hobbes and the Law of Nature is a major contribution to our understanding of Hobbes's moral legal and political philosophy and a book rich in interpretive and critical insights into Hobbes's writing and thought

Bookseller's Catalogues Wildy and sons, 1867 **Hugonis Grotii De Jure Belli Ac Pacis Libri Tres** Hugo Grotius, 1922 International Humanitarian Law: Origins, Challenges, Prospects (3 Vols) John Carey, William V. Dunlap, R. John Pritchard, 2003 In three distinct volumes the editors bring together a distinguished group of contributors whose essays chart the history practice and future of international humanitarian law At a time when the war crimes of recent decades are being examined in the International Criminal Tribunals for Former Yugoslavia and Rwanda and a new International Criminal Court is being created as a permanent venue to try such crimes the role of international humanitarian law is seminal to the functioning of such attempts to establish a just world order The events of September 2001 and the worldwide threat of terrorist attacks bring into sharper focus questions about the ramifications of unconventional warfare and how prisoners taken in armed conflict short of declared war should be treated Here again international humanitarian law can provide the guideposts needed to find a just course through difficult times The intent of these volumes is to help to inform where humanitarian law had its origins how it has been shaped by world events and why it can be employed to serve the future

Catalogue of Law Books, 1882 **The Documentary History of the Supreme Court of the United States, 1789-1800** Maeva Marcus, 1985 In the 1930s a band of smart and able young men some still in their twenties helped Franklin D Roosevelt transform an American nation in crisis They were the junior officers of the New Deal Thomas G Corcoran Benjamin V Cohen William O Douglas Abe Fortas and James Rowe helped FDR build the modern Democratic Party into a progressive coalition whose command over power and ideas during the next three decades seemed politically invincible This is the first book about this group of Rooseveltians and their linkage to Lyndon Johnson's Great Society and the Vietnam War debacle Michael Janeway grew up inside this world His father Eliot Janeway business editor of Time and a star writer for Fortune and Life magazines was part of this circle strategizing and practicing politics as well as reporting on these men Drawing on his intimate knowledge of events and previously unavailable private letters and other

documents Janeway crafts a riveting account of the exercise of power during the New Deal and its aftermath He shows how these men were at the nexus of reform impulses at the electoral level with reform thinking in the social sciences and the law and explains how this potent fusion helped build the contemporary American state Since that time efforts to reinvent government by brains trust have largely failed in the U S In the last quarter of the twentieth century American politics ceased to function as a blend of broad coalition building and reform agenda setting rooted in a consensus of belief in the efficacy of modern government Can a progressive coalition of ideas and power come together again The Fall of the House of Roosevelt makes such a prospect both alluring and daunting
