San Francisco is not known for detached houses with landscaped setbacks lining picturesque park side streets But between 1905 and 1924 thirty six such neighborhoods called residence parks were proposed or built in the city Hundreds like them were constructed across the country yet they are not well known or understood today This book examines the city planning aspects of residence parks in a new way with tracing how developers went about the business of building them on different sites and for different markets and how they kept out black and Asian residents *More San Francisco Memoirs, 1852-1899* Malcolm E. Barker,1996 Twenty eight men and women recall their experiences as the raw newly born city of sandhills and gambling saloons matures into a metropolis of elegant homes and bustling factories These voices from the past tell us of Life during the Civil War Living under vigilante justice Globe trotting tourists on visits to Barbary Coast dives and the opium dens of Chinatown **A People's Guide to the San Francisco Bay Area** Rachel Brahinsky,Alexander Tarr,2020-10-06 An alternative history and geography of the Bay Area that highlights sites of oppression resistance and transformation A People s Guide to the San Francisco Bay Area looks beyond the mythologized image of San Francisco to the places where collective struggle has built the region Countering romanticized commercial narratives about the Bay Area geographers Rachel Brahinsky and Alexander Tarr highlight the cultural and economic landscape of indigenous resistance to colonial rule radical interracial and cross class organizing against housing discrimination and police violence young people demanding economically and ecologically sustainable futures and the often unrecognized labor of farmworkers and everyday people The book asks who had and who has the power to shape the geography of one of the most watched regions in the world As Silicon Valley s wealth dramatically transforms the look and feel of every corner of the region like bankers wealth did in the past what do we need to remember about the people and places that have made the Bay Area with its rich political legacies With over 100 sites that you can visit and learn from this book demonstrates critical ways of reading the landscape itself for clues to these histories A useful companion for travelers educators or longtime residents this guide links multicultural streets and lush hills to suburban cul de sacs and wetlands stretching from the North Bay to the South Bay from the East Bay to San Francisco Original maps help guide readers and thematic tours offer starting points for creating your own routes through the region **National Trust Guide / San Francisco** Peter Booth Wiley,2000-09-26 National Trust guides are the most in depth guides available to the history and architecture of U S cities From famous landmarks to back alleys they take you on exciting journeys through America s cultural historical and architectural treasures The complete guide to the history and architecture of San Francisco Part history part travel guide this unique book introduces you to the colorful past and diverse traditions that have shaped the fascinating city of San Francisco From the arrival of the Spanish in the late eighteenth century to the growth of today s vibrant metropolis you ll discover the links between the rich history and architectural

Public Matthew Gardner Kelly, 2024-01-15 Winner of the Vincent P DeSantis Book Prize from The Society for Historians of the Gilded Age and Progressive Era and awarded with Honorable Mention in the Outstanding Book Award by the History of Education Society In *Dividing the Public* Matthew Gardner Kelly takes aim at the racial and economic disparities that characterize public education funding in the United States With California as his focus Kelly illustrates that the use of local taxes to fund public education was never an inadvertent or de facto product of past practices but an intentional decision adopted in place of well known alternatives during the Progressive Era against past precedent and principle in several states From efforts to convert expropriated Indigenous and Mexican land into common school funding in the 1850s to reforms that directed state aid to expanding white suburbs during the years surrounding World War II *Dividing the Public* traces in intricate detail how a host of policies connected to school funding have divided California by race and class over time In bringing into view the neglected and poorly understood history of policymaking connected to school finance Kelly offers a new story about the role public education played in shaping the racially segregated economically divided and politically fragmented world of the post 1945 metropolis *The San Francisco Irish, 1848-1880* R. engineers have quietly been learning from each quake and designing newer earthquake resistant building techniques and applying them in an ongoing effort to save San Francisco

Bracing for Disaster is a fresh appraisal of a city responding to repeated devastation In the language of a skilled teacher Tobriner examines what really happened during the city's earthquakes which buildings were damaged which survived and who were the unsung heroes Filled with more than two hundred photographs diagrams and illustrations this is a revealing look at the history of buildings by a true expert and it offers lessons not just for San Francisco but for any city beset by natural disasters The real saga is how a fast growing city grapples with the reality that it has more to worry about than fires and fog The core of the story is fairly technical rooted in the crude intuitive ways in which builders reacted to a seismic threat they could neither measure nor define But Tobriner crafts the story well SFGate

Manufacturing Suburbs Robert D. Lewis, 2004 Urban historians have long portrayed suburbanization as the result of a bourgeois exodus from the city coupled with the introduction of streetcars that enabled the middle class to leave the city for the more sylvan surrounding regions Demonstrating that this is only a partial version of urban history **Manufacturing Suburbs** reclaims the history of working class suburbs by examining the development of industrial suburbs in the United States and Canada between 1850 and 1950 Contributors demonstrate that these suburbs developed in large part because of the location of manufacturing beyond city
