Olman, 2023-09-01 With this volume the field of rhetoric of science joins its sister disciplines in history and philosophy in challenging the dominance of Euro American science as a global epistemology The discipline of rhetoric understands world making and community building as interdependent activities that is if we practice science differently we do politics differently and vice versa This wider aperture seems crucial at a time when we are confronted with the limitations of Euro

American science and politics in managing global risks such as pandemics and climate change particularly in our most vulnerable communities The contributors to this volume draw on their familiarity with a wide range of global scientific traditions from Australian Aboriginal ecology to West African medicine to Polynesian navigation science to suggest possibilities for reconfiguring the relationship between science and politics to better manage global risks These possibilities should not only inspire scholars in rhetoric and technical communication but should also introduce readers from science and technology studies to some useful new approaches to the problem of decolonizing scenes of scientific practice around the world

**Seafarers, Merchants and Pirates in the Middle**

**Ages** Dirk Meier, 2006 The first sailors braved the North Sea and the Baltic in open wooden boats their aims were varied to fish to trade to conquer and plunder Without maps or compasses they steered by the sun or by landmarks on the coast Nevertheless they discovered Iceland and North America and explored the rivers that flowed through Europe and Russia into the Black Sea With the Frisians and the Vikings extensive trade routes better ships larger harbours and wealthy coastal towns developed The pinnacle of these advances was the Hansa a commercial network that ran from Bruges to Riga In recent years archaeologists have discovered much about the development of their ships the elegant Viking longboat the ubiquitous cog the carrack and the caravel Much too has been revealed about life in Viking settlements and the bustling Hanseatic cities In this engaging and highly illustrated volume Dirk Meier brings to life the world of the medieval seaman based on evidence from ship excavations and contemporary accounts of voyages Dr Dirk Meier teaches ancient and medieval history and is Head of Coastal Archaeology at the Christian Albrechts University in Kiel Germany      **The Soul of the North** Neil Kent, 2001 This text makes use of the unique and extant cultural forms of architecture and the visual arts as well as statistics and other forms of documentary evidence      *The Stolen Village* Des Ekin, 2012-10-15 In June 1631 pirates from Algiers and armed troops of the Turkish Ottoman Empire led by the notorious pirate captain Morat Rais stormed ashore at the little harbour village of Baltimore in West Cork They captured almost all the villagers and bore them away to a life of slavery in North Africa The prisoners were destined for a variety of fates some would live out their days chained to the oars as galley slaves while others would spend long years in the scented seclusion of the harem or within the walls of the Sultan's palace The old city of Algiers with its narrow streets intense heat and lively trade was a melting pot where the villagers would join slaves and freemen of many nationalities Only two of them ever saw Ireland again The Sack of Baltimore was the most devastating invasion ever mounted by Islamist forces on Ireland or England Des Ekin's exhaustive research illuminates the political intrigues that ensured the captives were left to their fate and provides a vivid insight into the kind of life that would have awaited the slaves amid the souks and seraglios of old Algiers *The Stolen Village* is a fascinating tale of international piracy and culture clash nearly 400 years ago and is the first book to cover this relatively unknown and under researched incident in Irish history Shortlisted for the Argosy Irish Nonfiction Book of the Year Award      *Capitalist Dictatorship* Milan Zafirovski, 2021-04-26 Milan Zafirovski identifies and investigates the resurgence of capitalist dictatorship in contemporary society especially after 2016 This book introduces the concept of capitalist dictatorship to the academic audience for the first time It examines the capitalist dictatorship as a total social system composed of specific systems such as a coercive economy repressive polity illiberal civil society and irrational culture in contrast to liberal democracy It also investigates multiple dimensions forms and indicators of capitalist dictatorship and calculates degrees of capitalist dictatorship for contemporary Western and comparable societies such as OECD countries Capitalist dictatorship including autocracy Zafirovski argues is the gravest threat to contemporary democratic society post 2016      **Historical Dictionary of Iceland** Sverrir

Jakobsson, Gudmundur Halfdanarson, 2016-02-15 Iceland demonstrates most of the characteristics of a modern liberal democracy. It has maintained political stability through a democratic process which enjoys universal legitimacy. Rapid economic modernization has also secured its inhabitants one of the highest living standards in the world and a comprehensive and highly developed health system has ensured them longevity and one of the lowest rates of infant mortality in the world. Icelanders face however formidable challenges in maintaining their status as an independent nation. First the Icelandic economy is fairly fragile as overexploitation threatens the fish stocks that remain among Iceland's principal economic resources. Second the country is rich in unused energy resources because many of its rivers are still not harnessed and geothermal power is abundant. But using these resources will necessarily damage the pristine nature of the country forcing the politicians and the Icelandic public to choose between environmental protection and industrial expansion. Finally it remains to be seen if a country with just over 329 740 inhabitants will be able to manage its foreign relations in a complex and constantly changing world. This third edition of *Historical Dictionary of Iceland* contains a chronology, an introduction and an extensive bibliography. The dictionary section has over 200 cross referenced entries on important personalities, politics, economy, foreign relations, religion and culture. This book is an excellent access point for students, researchers and anyone wanting to know more about Iceland.

The A to Z of Iceland Gudmundur Halfdanarson, 2010-05-10 While Iceland is the second largest inhabited island in Europe with only 313 000 inhabitants in 2007, the Icelanders form one of the smallest independent nations in the world. Around two thirds of the population lives in the capital Reykjavík and its suburbs while the rest is spread around the inhabitable area of the country. Until fairly recently the Icelandic nation was unusually homogeneous both in cultural and religious terms. In 1981 around 98 percent of the nation was born in Iceland and 96 percent belonged to the Lutheran state church or other Lutheran religious sects. In 2007 these numbers were down to 89 and 86 percent respectively reflecting the rapidly growing multicultural nature of Icelandic society. The *A to Z of Iceland* traces Iceland's history and provides a compass for the direction the country is heading. This is done through its chronology, introductory essays, appendixes, map, bibliography and hundreds of cross referenced dictionary entries on important persons, places, events and institutions and significant political, economic, social and cultural aspects.

**Historical Dictionary of Iceland** Gudmundur Halfdanarson, 2008-10-23 The second edition of the *Historical Dictionary of Iceland* traces Iceland's history and provides a compass for the direction the country is heading. This is done through its chronology, introductory essays, appendixes, map, bibliography and hundreds of cross referenced dictionary entries on important persons, places, events and institutions and significant political, economic, social and cultural aspects.
