Ring of Truth Art Rogers,2000-09 Fresh out of boot camp a young yeoman struggles to adjust to his new life in the Navy His assignment is as easy as they come for newly minted push button third until he crosses paths with another young seaman under investigation for assaulting a base policeman A seaman with a very odd story about how he came to have a Navy Academy class ring **Angst, Eros, and Other Locales** Art Rogers,2000-12 An illustrated eclectic collection of poems exploring pain anger loss humor passion and politics Written over some 30 years the poetry exposes the inner mapping of the poet and his other mapping of the world *God is in Hell* Gemma Grott,2003 Enmeshed in revolutionary politics and faced with imminent death it took a series of extraordinary spiritual encounters to bring Grott to a dramatic change of life direction She did not realize she had been on a life long quest for the answer to Where was God during the Holocaust until she found her answers In her search for meaning and then healing and reconciliation she gives us a rare opportunity to witness the extremes of behavior a seeker may turn to before finding a way to end the cycle of assault and retribution This unusual story is told from an integrated heartfelt political and spiritual perspective *Military Chaplaincy in Contention* Andrew Todd,2016-04-22 Chaplaincy highlights the need for faith and society to re engage with vital moral questions Military chaplains continue to operate within the dynamic tension between faith communities the armed services and society offering a distinct moral presence and contribution Drawing the reader into the world of the military chaplain this book explores insights into the complex moral issues that arise in combat especially in Afghanistan and in everyday military life These include the the increasing significance of the Law of Armed Conflict and the moral significance of drones Through the unique chaplain s eye view of the significance of their experience for understanding the ethics of war this book offers clearer understanding of chaplaincy in the context of the changing nature of international conflict shaped around insurgency and non state forces and explores the response of faith communities to the role of the armed services It makes the case for relocating understandings of just war within a theological framework and for a clear understanding of the relationship between the mission of chaplaincy and that of the military Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004

Franz Werfel, the Faith of an Exile Lionel Steiman,1985-07 A study of the thought of the Austrian Jewish writer many of whose works reflect the deep ambivalence of the Jews relationship with Western culture and Christianity The Jewish characters in his books are often stereotypes influenced by Werfel s education by antisemitic monks Ch 13 p 165 188 A Special Relationship deals with Werfel s attitude to Judaism and pp 177 188 with his theory of antisemitism and Nazism While believing in Christ he viewed the rejection of Christ by the Jews and antisemitism as theologically necessary and refused to convert **Court-martial Reports** ,1954 **The Christian Century** ,1921 *Philosophers in the "Republic"* Roslyn Weiss,2012-08-16 In Plato s Republic Socrates contends that philosophers make the best rulers because only they behold with their mind s eye the eternal and purely intelligible Forms of the Just the Noble and the Good When in addition

these men and women are endowed with a vast array of moral intellectual and personal virtues and are appropriately educated surely no one could doubt the wisdom of entrusting to them the governance of cities Although it is widely and reasonably assumed that all the Republic's philosophers are the same Roslyn Weiss argues in this boldly original book that the Republic actually contains two distinct and irreconcilable portrayals of the philosopher According to Weiss Plato's two paradigms of the philosopher are the philosopher by nature and the philosopher by design Philosophers by design as the allegory of the Cave vividly shows must be forcibly dragged from the material world of pleasure to the sublime realm of the intellect and from there back down again to the Cave to rule the beautiful city envisioned by Socrates and his interlocutors Yet philosophers by nature described earlier in the Republic are distinguished by their natural yearning to encounter the transcendent realm of pure Forms as well as by a willingness to serve others at least under appropriate circumstances In contrast to both sets of philosophers stands Socrates who represents a third paradigm one however that is no more than hinted at in the Republic As a man who not only loves what is but is also utterly devoted to the justice of others even at great personal cost Socrates surpasses both the philosophers by design and the philosophers by nature By shedding light on an aspect of the Republic that has escaped notice Weiss's new interpretation will challenge Plato scholars to revisit their assumptions about Plato's moral and political philosophy

Historical Truth and Lies About the Past Alan B.

Spitzer,2000-11-09 Historians have long struggled with the questions of historical relativism objectivity and standards of proof and evidence Intellectual historian Alan Spitzer focuses on the contradiction between theory and practice by presenting case studies of four politically charged debates about the past the response to the report of the commission chaired by John Dewey that evaluated the accusations made against Leon Trotsky in the Moscow Purge Trials of 1937 the Dreyfus Affair in turn of the century France the allegations about the extent and meaning of literary critic Paul de Man's complicity with the German occupation forces in wartime Belgium and Ronald Reagan's justification for his 1987 visit to a German cemetery where Nazi SS officers are buried Spitzer's argument centers on the ways in which the authority of objective criteria for historical judgment are introduced in politicized disputes about the past regardless of the theoretical qualification or repudiation of such standards The higher the political stakes the more likely the antagonists are to appeal to generally warranted standards of relevant evidence and rational inference Spitzer's commentary speaks to issues that transcend the specific content of the four cases he discusses
