Kerry, Matthew S. Holland, 2012-12-27 This volume attempts to throw fresh light on two areas of Benjamin Franklin's intellectual world namely his self-fashioning and his political thought It is an odd thing that for all of Franklin's voluminous writings a fantastically well documented correspondence over many years scientific treatises that made his name amongst the brightest minds of Europe newspaper articles satires and of course his signature on the Declaration of Independence and the U S Constitution and yet scholars debate how to get at his political thought indeed if he had any political philosophy at all It could be argued that he is perhaps the American Founder most closely associated with the Enlightenment Similarly for a man who left so much evidence about his life as a printer bookseller postmaster inventor diplomat politician scientist among other professions one who wrote an autobiography that has become a piece of American

national literature and indeed a contribution to world culture the question of who Ben Franklin continues to engage scholars and those who read about his life His identity seems so stable that we associate it with certain virtues that apply to the way we live our lives time management for example The image of the stable figure of Franklin is applied to create a sense of trust in everything from financial institutions to plumbers His constant drive to improve and fashion himself reveal however a man whose identity was not static and fixed but was focused on growth on bettering his understanding of himself and the world he lived in and attempted to influence and improve *New York Magazine* ,1984-03-26 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **10 Things You Might Not Know About Nearly Everything** Mark Jacob,Stephan Benzkofer,2012-05-10 For years the Chicago Tribune s 10 Things You Might Not Know column has been informing and entertaining readers on a diverse range of fascinating subjects 10 Things You Might Not Know About Nearly Everything is a collection of the best of these columns presented in a fun and easy to read format This book gives readers well researched obscure facts on universal topics including arts and culture food and leisure history politics science and technology sports holidays and religion lifestyle language and more 10 Things You Might Not Know About Nearly Everything contains a plethora of surprising trivia and pertinent tidbits on so many different areas that will appeal to everyone from history buffs to sports fans to foodies with an especially riveting look into Chicago area history and facts For example in Zion Illinois it was once not only illegal to gamble curse and sell alcohol and tobacco but also to whistle on Sundays put on plays eat pork or oysters spit or wear tan colored shoes Some facts will make readers laugh and some will make jaws drop This collection is a kaleidoscope of the absurd the outrageous and the sometimes gruesome making a highly entertaining mix of people places and things 10 Things You Might Not Know About Nearly Everything will leave readers brighter wittier and curious to learn more about myriad worlds they never encountered before and will never forget
